I refer to your request submitted to the Department of Natural Resources and Mines (the department) on 25 November 2016, to determine if proposed vegetation clearing on the lot/s listed above is for a relevant purpose under section 22A of the *Vegetation Management Act 1999* (VMA).

The Chief Executive has considered your request and is satisfied that the proposed clearing for the purpose of Fence/firebreak/infrastructure meets the relevant requirements of section 22A of the *Vegetation Management Act 1999*.

This decision is based on the development proposal and information you submitted to the department on 25 November 2016. Should your proposal change, you will need to request another section 22A relevant purpose determination before submitting your application.

Please note that this letter is not a development approval to carry out vegetation clearing. You will need to apply for a development approval from the Department of Infrastructure, Local Government and Planning (DILGP) under the *Sustainable Planning Act 2009*. DILGP will assess the impacts of your clearing activity to ensure that matters of environmental significance are maintained and that the proposed clearing will not result in land degradation.

It is strongly advised that, prior to lodging a development application, you arrange a pre-lodgement meeting through the State Assessment and Referral Agency (SARA) to identify all relevant State legislation, approvals and application requirements.

Other relevant Commonwealth or State approvals may also be required to undertake vegetation clearing. An indicative list of other legislation is provided in Attachment 1.

Should you have any enquiries or require assistance regarding this request, please contact Patrina Birt on telephone 3894 8120
