Dear Peter Hudson of Suez Recycling and Recovery (Regional Queensland) Pty Ltd

The Department of Environment and Science would like to advise you that your application for approval of residue waste as exempt waste for transition period – Cairns Bedminster Facility has been granted.

Please find attached your approval certificate which provides details and conditions that are requirements under the *Waste Reduction and Recycling Act 2011*. Please note that until 1 July 2019, levy-related amendments to the *Waste Reduction and Recycling Act 2011* can be found in the [Waste Reduction and Recycling \(Waste Levy\) Amendment Act 2019](#).

Please ensure you read through the approval certificate and have a thorough understanding of your obligations under the *Waste Reduction and Recycling Act 2011*.

This approval certificate must be presented to the waste disposal site operator each time the residue waste is delivered. The operator will need to see this certificate to record the Exempt Residue Waste Number in the gate transaction record.

If you would like clarification of any of the requirements of your approval please contact waste levy operations at [WasteLevyApps@des.qld.gov.au](mailto:WasteLevyApps@des.qld.gov.au) or visit the waste levy web page at [www.qld.gov.au/wastedisposallevy](http://www.qld.gov.au/wastedisposallevy).

Thank you

# Certificate of Exempt Residue Waste

Waste Reduction and Recycling Act 2011

## Notice of approval of residue waste as exempt waste (waste levy) Cairns Bedminster facility

This certificate documents the granting of the approval of residue waste as exempt waste under section 313 of the Waste Reduction and Recycling Act 2011. Present this certificate to the waste disposal site operator each time the residue waste is delivered. The operator will need to see this certificate to record the Exempt Residue Waste Number in the gate transaction record.

This approval only relates to exemption from the waste levy. It does not affect requirements or conditions of any environmental authority or any other approval, permit or obligation under the Environmental Protection Act 1994, the Waste Reduction and Recycling Act 2011, or any other act.

Exempt Residue Waste Number:

**190003RESE**

Issued to:

**Certificate of Exempt Residue Waste**  
**Notice of approval of residue waste as exempt waste (waste levy)**  
**Cairns Bedminster Facility**

The following conditions apply to the approval:

| Condition Number | Condition                                                                                                                                                                                                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Condition 1      | The minimum recycling efficiency that must be maintained is <b>33%</b> .                                                                                                                                                                                                                                                          |
| Condition 2      | The maximum weight of exempt residue waste, as defined under section 26 of the <i>Waste Reduction and Recycling Act 2011</i> , must not exceed <b>Business tonnes</b> over the exemption period.                                                                                                                                  |
| Condition 3      | You must retain a record of the following: <ul style="list-style-type: none"> <li>a) The quantity and type of feedstock received for the recycling activity at the material recovery facility; and</li> <li>b) The quantity of residue waste disposed of at the waste disposal site/s approved under this certificate.</li> </ul> |
| Condition 4      | All information and records required by the conditions of this certificate of exempt residue waste must be kept for a minimum of five years, and must be provided to the administering authority upon request in the format requested.                                                                                            |
| Condition 5      | An annual report must be prepared and submitted to the administering authority by 30 November each year, which contains a summary of the records required to be kept under Condition 3 and the calculated recycling efficiency threshold for the preceding financial year.                                                        |

**Waste disposal site/s approved to receive the exempt residue waste:**

|                                                                     |
|---------------------------------------------------------------------|
| Springmount Landfill<br>Lot 123 Springmount Road, Arriga, QLD, 4872 |
| Mareeba Landfill<br>38 Vaughan Street, Mareeba, QLD, 4880           |

**Entities and/or vehicles approved to deliver the residue waste to the waste disposal site:**

|                                                                                         |          |                                               |          |
|-----------------------------------------------------------------------------------------|----------|-----------------------------------------------|----------|
| Use of following vehicles to transport the residue waste, including but not limited to: |          |                                               |          |
| SUEZ Recycling & Recovery                                                               |          | Havago Transport Pty Ltd (ABN 47 111 679 531) |          |
| Trucks                                                                                  | Trailers | Trucks                                        | Trailers |

# Assessment Report – Application for approval of residue waste as exempt waste for transitional period

## Waste Reduction and Recycling Act 2011

*This document is intended for internal use to assist officers of the Department of Environment and Science (the department) to recommend to the authorised officer a decision regarding an application for an approval of residue waste as exempt waste under section 310 of the Waste Reduction and Recycling Act 2011 (the Act).*

### IMPORTANT INFORMATION ON TIMEFRAMES

- Once administrative checks have been completed from the Customer Service Team (CST) the assessing officer is to complete the assessment of the application and any supporting documentation.
- The Act states within 28 days after receiving the application a notice to provide additional information may be sent to the applicant.
- The Act states the applicant is required to provide the further reasonable information by a reasonable day stated in the notice – POLICY DECISION that this be 28 days unless circumstances warrant a longer period.
- If no response is received by the day stated in the notice, application is taken to be withdrawn.
- Decision to grant or refuse the application must be made within a period that is reasonable in the circumstances.
- A failure to make the decision within a period that is reasonable in the circumstances is taken to be a decision of refusal.
- If decision is made to grant a transitional period exempt residue waste application, a notice of approval must be issued to the applicant, including additional conditions as per s. 313(1)(a) of the Act.
- If decision of approval imposes conditions that are not the same, or substantially the same, as conditions agreed to or asked for by the applicant, then notice must also include or be accompanied by an information notice for decision to impose conditions.
- If decision is made to refuse the application, an information notice must be given to the applicant.
- All timeframes and decisions must be entered into the waste levy application tracker (SharePoint).

| The objects of this Act are the following—<br>(a) to promote waste avoidance and reduction, and resource recovery and efficiency actions;<br>(b) to reduce the consumption of natural resources and minimise the disposal of waste by encouraging waste avoidance and the recovery, re-use and recycling of waste;<br>(c) to minimise the overall impact of waste generation and disposal;<br>(d) to ensure a shared responsibility between government, business and industry and the community in waste management and resource recovery;<br>(e) to support and implement national frameworks, objectives and priorities for waste management and resource recovery. | <p>The <i>Waste Reduction and Recycling Act 2011</i> provides that one of the approaches to achieving the objects of the Act is through price signalling through a levy on waste disposal. The levy is intended to promote waste avoidance and resource recovery behaviours and reduce landfill disposal. The Act allows for certain residue wastes to be approved as exempt from waste levy on application, under section 310. The exempt waste provision is intended to ensure the levy does not unduly impact on certain activities which achieve waste reduction outcomes in line with the objects of the Act, such as Cairns Bedminster facility.</p> <p>The application is made under one of the categories described in section 310 of the Act and meets the eligibility criteria/requirements.</p> |

# Certificate of Exempt Residue Waste

Waste Reduction and Recycling Act 2011

## Notice of approval of residue waste as exempt waste (waste levy) Cairns Bedminster facility

This certificate documents the granting of the approval of residue waste as exempt waste under section 313 of the Waste Reduction and Recycling Act 2011. Present this certificate to the waste disposal site operator each time the residue waste is delivered. The operator will need to see this certificate to record the Exempt Residue Waste Number in the gate transaction record.

This approval only relates to exemption from the waste levy. It does not affect requirements or conditions of any environmental authority or any other approval, permit or obligation under the Environmental Protection Act 1994, the Waste Reduction and Recycling Act 2011, or any other act.

Exempt Residue Waste Number:

**190003RESE**

Issued to:

**Certificate of Exempt Residue Waste**  
**Notice of approval of residue waste as exempt waste (waste levy)**  
**Cairns Bedminster Facility**

The following conditions apply to the approval:

| Condition Number | Condition                                                                                                                                                                                                                                                                    |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Condition 1      | The minimum recycling efficiency that must be maintained is <b>33%</b> .                                                                                                                                                                                                     |
| Condition 2      | The maximum weight of exempt residue waste, as defined under section 26 of the <i>Waste Reduction and Recycling Act 2011</i> , must not exceed <b>Business tonnes</b> over the exemption period.                                                                             |
| Condition 3      | You must retain a record of the following:<br>a) The quantity and type of feedstock received for the recycling activity at the material recovery facility; and<br>b) The quantity of residue waste disposed of at the waste disposal site/s approved under this certificate. |
| Condition 4      | All information and records required by the conditions of this certificate of exempt residue waste must be kept for a minimum of five years, and must be provided to the administering authority upon request in the format requested.                                       |
| Condition 5      | An annual report must be prepared and submitted to the administering authority by 30 November each year, which contains a summary of the records required to be kept under Condition 3 and the calculated recycling efficiency threshold for the preceding financial year.   |

**Waste disposal site/s approved to receive the exempt residue waste:**

|                                                                     |
|---------------------------------------------------------------------|
| Springmount Landfill<br>Lot 123 Springmount Road, Arriga, QLD, 4872 |
| Mareeba Landfill<br>38 Vaughan Street, Mareeba, QLD, 4880           |

**Entities and/or vehicles approved to deliver the residue waste to the waste disposal site:**

|                                                                                         |          |                                               |          |
|-----------------------------------------------------------------------------------------|----------|-----------------------------------------------|----------|
| Use of following vehicles to transport the residue waste, including but not limited to: |          |                                               |          |
| SUEZ Recycling & Recovery                                                               |          | Havago Transport Pty Ltd (ABN 47 111 679 531) |          |
| Trucks                                                                                  | Trailers | Trucks                                        | Trailers |
