**SUBJECT:** Proposed permanent reservation - R. 351, Marcochy

DEPT OF PUBLIC LANDS

NOV 25

24 NOV 1914

R. 351 Marcochy, containing about 520 acres is situated about two miles from Eumundi and is the only reserved area of good hardwood now left amidst thousands of acres of hardwood country which have been alienated.

The reserve has been operated upon for many years and most of the good timber removed. It is now in a very neglected condition much waste having been left with the result that fires appear to have been prevalent. Scattered throughout the area however are very good patches of undersized timber which show that with reasonable care the condition of the reserve can be greatly improved. The soil is of a sandy nature throughout.

Mr Martin Fox who has bought and lives on the northern part of portion 152 wishes to select a small area of vine scrub in the reserve on the western boundary of his selection. The reserve is very small as it is, but, as this scrub is on the edge and can be cut out easily I do not object to an area not exceeding 10 acres being surveyed off and sold to Mr. Fox, if such action is possible. The survey could be made when the designed portions R867 adjoining are being dealt with.

After personal inspection I recommend that the reserve, exclusive of this small piece of scrub, be proclaimed a State Forest, or that, if it is not considered advisable to deal with the scrub, the whole area be permanently [redacted] reserved.

Sir

I beg to report to you while inspecting Timber Reserve No 67. I was on the adjoining Timber Reserve No 351 which I find has a quantity of young Hard-wood timbers as follows.

Black-Butt, Turpentine, Red-Stringy, Blood-Wood, Iron-Bark & Tallow-wood.

This Reserve I would suggest be still held as a Timber Reserve for future supplies as it contains a quantity of growing Hardwoods and is situated about 2 Miles to the East of Eumundi.

The Country consists of open forest in parts and undergrowth Sandy soil with very little water

I forward herewith a report from Mr Forest Ranger Burnett upon the proposed reservation of 480 acres of land in the Parish of Maroochy for timber, and as this country is handy to the railway and contains a lot of Sleeper timber, I would recommend its reservation.

It is of very little use for settlement.
