Question 1. Detailed report of events. A call was received on the Dingo Ranger Phone on 12/11/17 from sch 4 - pe about interactions he was having with dingoes at his campsite. QPWS staff 1423683 and 7028020 visited site shortly after and spoke with sch 4 - pe

sch 4 - pe said that just after dark on 11/11/17 an adult female dingo and 3 juveniles visited his campsite. The adult Dingo moved on and the juveniles started to sniff around the campsite knocking over and going through belongings under sch 4 - pe second gazebo (used to cover a tent). Despite sch 4 - pe efforts to move the three juvenile dingoes on they hung around. At 2130 hrs sch 4 - personal in family (and the rest of the campsite) went to bed. Repeatedly throughout the night they could hear and observe dingoes accessing their annex area (at least three times) and rummaging through their belongings. sch 4 - pe continued to discourage the dingoes but they were persistent and hung around. Eventually the dingoes broke into a plastic clip lock container and stole some food (marshmallows, peanuts, sultanas and a box of shapes). This continued throughout the night with sch 4 - pe waking in the morning with the dingoes still loitering near his campsite. sch 4 - pe and his fellow campers were briefed by QPWS staff the morning of 11/11/2017.

Question 1. Detailed report of events. At approximately 3.00am [sch 4 - p] went outside on her front porch to have a cigarette. Whilst sitting down on her chair, she heard a rustling noise off to her side and that's when she noticed it was a dingo. It came towards her (within 2 metres,) snarling and growling. [sch 4 - p] attempted to scare it away by yelling and waving her arms in the air, which didn't deter the dingo. The dingo continued to display dominant behaviour by crouching low to the ground with it's front legs outstretched, whilst snarling and growling. [sch 4 - personal information] was woken from [sch 4 - p] screaming and rushed outside to see what the commotion was. Straightaway he could hear the snarling and grabbed a boot and threw it at the dingo, urging [sch 4 - pe] to get inside the house whilst he tried to distract it. [sch 4 - pe] immediately followed [sch 4 - pe] into the house and watched the dingo from inside loitering around the house for the next 10 minutes or so. [sch 4 - person] [sch 4 - pe] were quite shaken by the experienced and contacted Rangers 7027940 & 7028773 to report the incident. They couldn't identify if the dingo was male or female but definitely could see it wasn't tagged. They described it as being healthy and in the weight range of 15 kgs (possible sub-adult.) The dingo also had a distinguishable scar under it's eye on the left side of the face.

Question 1. Detailed report of events. At approximately 10.00am on Tuesday the 19th, sch 4 - personal information drove from their camp at Marloo for a swim in the lagoon on the Waddy Beachfront. As they were driving to the destination they noticed a dingo laying in the water at one end of the lagoon to cool off. sch 4 - decided to position his family at the far end of the lagoon away from the dingo (over 100 metres), not expecting it to bother them. The kids weren't long in the water when the dingo got up and ran straight for sch 4 - personal information children. sch 4 - saw what was happening and immediately gathered his children and placed them in the vehicle that was nearby. sch 4 - tried to chase it off when it came near, however the dingo displayed no fear by his actions and loitered in close proximity to the vehicle for some minutes. It was only when sch 4 - found a stick and swung it at the dingo, that it ran off at pace up the beach towards another group of swimmers that had young children. sch 4 - yelled out to the people to get in the vehicle quickly. The people did so and drove away. The dingo continued north to Waddy Point Headland. Not long after the incident sch 4 - personal information had seen the same dingo with a dead wallaby running south back along the beach. sch 4 - personal information couldn't make out the sex of the dingo, however they could see it wasn't tagged and had dark fur along the back. They estimated the dingo to being close to fully grown and in fair condition.

<p>Question 1. Detailed report of events. sch 4 - personal info were sitting down having a drink, when they noticed a healthy adult, male dingo with a dark colouration along its back running down the beach towards a family collecting worms directly in front of their camp. The dingo came right up to the family (within 2 metres) that included two young children and wasn't scared or deterred even though the father tried to chase it away. As sch 4 - was about to run down to the beach to help the family, 2 vehicles driving along saw what was happening and drove in between the dingo and family. The dingo remained in close vicinity of the vehicle and family for a little while before it became disinterested and continued down south along the beach. sch 4 - commented that the dingo was extremely persistent and was hard to get rid of possibly due to the bait bag the father was using to worm with, however at no time he noticed the dingo growl or snarl.</p>

<p>Question 1. Detailed report of events. NRM Ranger observed 3 men taking photos of a Dingo (17Green17M) lying down, whilst standing within 2m it. The Ranger pulled up and asked the men to move on and give the dingo some space. One of the men said that "we are just jogging", whereupon they were advised that this was not a good idea due to the likelihood of pursuit were they to run away from a dingo.</p> <p>Ranger drove off, but observed the men begin to jog and so pulled over approximately 150m away to observe. The dingo began to pursue the men, who became increasingly erratic as the dingo continued to close the distance, then drop back repeatedly. The men began to separate as one headed for the ocean, one slowed to confront the animal and one kept going. As the dingo approached and did not back off, the Ranger turned back to assist.</p> <p>A Kingfisher tour bus stopped and the driver got out, clapping and yelling and the dingo. The dingo moved about 2m before stopping. The Ranger then pulled up, beeping the horn and getting out and yelling. The dingo ran into the dunes.</p> <p>By this point the 3 men had turned around and jogged back towards Eurong.</p>

<p>Question 1. Detailed report of events. As reported by GD Ranger. Three dingoes were observed in close proximity to the visitor's campsite. Two did not interact with the campers (1xUnidentified and 17Green17M). It was reported that a juvenile male dingo with a red tag approached the camper as he sat reading. The camper then waved a shovel at it, but the dingo just stared him down. The camper then banged his shovel loudly and the dingo ran 10m, before turning and crouching low and barking. The camper then went to move away and the dingo began stalking him. The camper kicked sand and yelled, with the dingo retreating a short way, however, as soon as the camper turned his back, it began stalking again. This pattern repeated until it finally moved away.</p> <p>During follow-up phone call, camper advised NRM Ranger that the same animal and 2 other dingoes bailed up visitors in another camp nearby the following night, and he had to go over and help chase this dingoes away.</p>

Question 1. Detailed report of events. Details as reported by Palace Tag Along tours. Reported that 3 men of sch 4 - personal informati were jogging along the eastern beach. It was reported that 2 juveniles (17Green17M and 17Blue17F) were chasing the men as they jogged. The Palace tour operator drove his car in between the animals and the men in order to try and discourage the dingies, and he informed the men that it is not a good idea to jog along the beach as it encourages the dingoes to pursue them. The men reportedly disregarded the advice and continued to jog, whereupon the dingoes began to follow them again. A passing car then picked up the joggers and returned them to their campsite south our Eurong (Wongai?).

Question 1. Detailed report of events. QPWS ranger stopped to identify dingo sitting near two vehicles and two families. Dingo identified as 17Blue17f. Families were packing up to head home with kids and adults out of the vehicles. The dingo was about 20m away, but was slowly making her way closer to the group. The adults stayed between the dingo and the children but were not deterring the dingo. A female visitor approached the QG vehicle and said that earlier one of the kids ran from the water to the vehicles and when they saw the dingo there turned and ran back to the waters edge. The dingo noticed that there were people at the water and made her way towards the group. One of the adult males walked back towards the vehicle, the dingo followed, but the male kept himself between the dingo and the kids. I got out of the vehicle to deter the dingo by yelling and clapping hands, it moved about 30m away and sat down. As I was stading by the vehicle taking photos the dingo approached within 5m and when I yelled again it started to bark, jump around and dominance test. The more I yelled/clapped the more she displayed the behaviour. I asked the families to get in their cars and I got back into my vehicle. As the vehicles were about to drive off the dingo approached both cars soliciting food from the open windows. As I was leaving the site I saw two further vehicles approach the dingo to get photos and she walked straight up to the vehicles, again soliciting food from the open windows. When the vehicles left she started making her way north along the beach.
