Dear Sir / Madam

The Contaminated Land Section has recently had more staff hired, which will mean much faster response to your correspondence and calls. I have been assigned to the validation of the records of your shire, and I welcome any contact from you. Would you be able to supply some additional details so that we can determine the prescribed purpose of some of the sites nominated by Council?

→ Fiona, this has been resolved - no info. required - Ariane 21/8/96.

1. Lot 2 ~~MCH2884~~ (parent parcel) sch4p4(6) Personal information 092-003999 deleted. see council fax 4/1/96.

The site has been notified as containing a night soil depot, a sewerage works and a refuse tip. As this land has since been subdivided, can you advise which current parcels are these facilities on?
To assist us, could you also send a map of this land?

(child parcels.)
→ lot 1 RP146310 – on CSR. 092-004099 PRP (tip) – see map. Await council notification. (?)
→ lot 14 RP836646 (on CSR 092-003918 PRP sewerage works ETC) – see map. Already on CSR as RES-UXO – 092-003918. Matter referred to Jim Ives 29.11.95. AM. ✓ OK.

Dear Nadine

Further to my fax of 27/11/95, I have since done further research and now don't need any further information on the site at RES 1235 Gympie Tce, Noosaville. Please ignore that request.
I do have some new queries though.

1. Lot 2 ~~MCH~~2884 sch4p4(6) Personal information Info. not required - Ariane 21/3/96.

   Can you confirm that the tip is wholly contained on the new parcel Lot 1 RP 146310? Please ignore my previous requests re this site.

2. Lot 2 ~~RP201~~442 sch4p4(6) Personal information ⇒ 092-004108/10 Pos.
   Wimmers Cordial
   I mistakenly referred to another site in my previous fax regarding underground fuel storage - the site I meant to refer to was sch4p4(6) Persona sch4p4(6) Personal information. (L2 RP170390, L52 C5602, L1 RP170390). Fiona, please indicate which lot contains the U/G fuel or any other prescribed purpose activity - Ariane 21/3.

   There are three other sites that cover more than one lot and have underground storage not specified as being on any particular lot. The other sites are:

- SEQEB Depot, sch4p4(6) Personal information (L703 & 704 C5602) ⇒092-004092/3 Pos
- Pomona Earthmoving, sch4p4(6) Personal information (L1 & 2 RP42622, L4 RP47639) ⇒092-004088/90 Pos
- Noosa Council Pomona Depot, sch4p4(6) Personal information ⇒092-004085/7 Pos

Published on DES Disclosure Log RTI Act 2009

3. Coorey Sawmill, sch4p4(6) Personal informati 092-00001 lot 2 RP47020.
Info. not required - CCA confirmed.
Arrive 21/8.

Can you tell me if fuel storage, or any other prescribed purposes are occurring here, and on which parcel if possible? From previous contact with your council, the sawmill was described as having used boron treatment. Can you tell me on which parcels this occurred?

Your shire is being given first priority at the moment, and any assistance from you will allow an accurate record of sites to be returned to you sooner.
I apologise for the mistakes in my previous fax, and again welcome any contact from you.

Dear Nadine

We have received queries from landowners and solicitors regarding sites on the Contaminated Land Register in Noosa Shire. Could you confirm that the prescribed purposes for these sites are correct?

1. Lot 702 C5602 sch4p4(6) Personal information - council disk comments "U/G fuel".

   This site has been notified as underground fuel storage, is this correct, and do you have information on the size of the tank? Also the present use of this land is listed as a drycleaner. There have been several sites with similar present purposes that appear to be a mistake. Can you confirm this is the present land use?
   → solicitor letter dated 1/3/96.

2. Lot 2 RP78209 sch4p4(6) Personal information 092-004049 PRO

   The owner of this sawmill claims the land has never been used for any form of wood treatment or preservation. Could you confirm this?*
   → owner letter dated 9/1/96
   * Fiona, we also need to know if fuel storage or any other prescribed purpose has occurred here – Ariane 21/8/96

Dear Nadine

These are the final queries I have. A faster response will ensure the problems associated with the Contaminated Sites Register for Noosa will be solved sooner.

1. Lot 963 FTY 517 sch4p4(6) Personal information ⇒ 092-004096 POS. past use "531" - not a prescribed purpose.

   This site has been notified as an ex-Army reserve. Is there any possibility the site contains unexploded ordnances? Or any other reason it has been notified to us?

2. Lot 2 & 3 RP47639 (3 is "PRO") sch4p4(6) Personal information /4 POS.

   This site has underground liquid storage, would it be possible to identify which of the two lots this is on?

3. Lot 205 & 206 P4111 (sch4p4(6) Personal information ⇒ 092-003979/3996. POS

   This site has a stock dip on it, would it be possible to identify which of the two lots this is on?

Published on DES Disclosure Log RTI Act 2009

092-004048 - POS *092-003988 POS – now sub-divided

4. Lot 1 RP146062 sch4p4(6) Personal infor & Lot 2 RP138407 sch4p4(6) Personal

sch4p4(6) Personal ir

These two sites are notified as sawmills. Can you tell me if either of the mills carry out wood treatment, such as using copper chromium arsenic, borax or creosote, or if there is any fuel storage on these sites?

5. *Lot 5 & 6 RP152351 sch4p4(6) Personal information 092 - 004068/9. POS.

This site is Ocean Ford, and is notified as having a service station on site. Can you tell me which lot the service station is on?

TEWANTIN QLD 4565

Attention: Pauline Etheridge, Health Department

Dear Pauline

Re: Floppy Disk Copy of Contaminated Sites Register Listing for Noosa Council

I refer to our recent discussions concerning the provision of an electronic copy of all records for Noosa Council listed on the Contaminated Sites Register.

Please find enclosed a floppy disk with the following Excel files which contain data extracted from the *Contaminated Sites Register* on 8 November 1996:

- Uxonoosa - list of UXO sites in Cont_Sites and New_Parcels tables
- Chmnoosa - list of Chemical sites in Cont_Sites and New_Parcels tables

Please note that the sites identified in the New_Parcels tables are derived from an electronic update facility maintained with the Department of Natural Resources. When a parcel of land recorded on the Register (in the Cont_Sites table) is subject to amalgamation or subdivision, or is wholly replaced by a new plan, the new Real Property Description (RPD) is captured in the New_Parcels table.

The New_Parcels data which I have supplied for UXO and Chemical sites includes the most current RPD for all 'child' parcels as well as the original RPD from the Cont_Sites table.

Caution should be exercised with the UXO New_Parcels data, as the base parcel for some of the large staged residential subdivisions may be listed as a "possible" or "restricted" site, when some of the 'child' parcels have actually been searched and declared suitable for any use. Council should have received letters or *Site Contamination Reports* from the from the Department of Environment advising of the status of such 'child' parcels, prior to subdivision being approved.

Published on DES Disclosure Log PTI Act 2009

Release

Should you require assistance in interpreting the data, or wish to advise of apparent errors or omissions of sites, please contact me at (07) 3225 1957.

Yours faithfully

STH2003/4342

12 May 2003

Beach Protection Authority

Associated with the
Environmental Protection Agency

Mr John McKenna
Planning & Design Coord-N Coast
Energex Limited
GPO Box 1461
Brisbane Qld 4001

Dear Sir,

Re: Application to construct electricity supply infrastructure to the township of Teewah with underground electrical reticulation network.

I refer to the abovementioned application received on 8 April 2003 for consent pursuant to section 47(1A) of the *Beach Protection Act 1968*.

The Authority advises that the Regional Office of the Environmental Protection Agency has raised concerns that parts of the subject land may be contaminated with Unexploded Ordinance (UXO). To address this concern, the EPA Contaminated Land Unit (CLU) requires the applicant to perform a search of EPA's Environmental Management Register (EMR) in order to determine if any EMR listed parcels will be impacted by the proposal.

Subsequently, if a search does identify EMR listed parcels within the subject land, the EPA CLU would request detailed information outlining how Energex Limited intend to manage potential contamination and/or Unexploded Ordinance as part of the proposal.

In order to expedite this process and avoid unnecessary delays to the application it is recommended that you contact the EPA as soon as possible to conduct a CLU Register Search of properties through which the transmission infrastructure passes. To arrange a CLU Register Search please call Adam Marks on 07 3227 7667.

Should you have any queries regarding this matter, please contact Andrew Humpherys on the above telephone number.

Yours faithfully

Cc: John Lane
Subject: BPA TASKS crosses our boundary & UXO/CLU?

Greetings All ,

The following "Request for Comments" from the Coasts Wetlands and Waterways Unit BPA Group was received today.

BNE4802 Proj Ref ?? Officer: Andrew Humpherys. Works located within NSC & Other LG's. Application from Energex Ltd for s47(1A) to construct electricity supply to Teewah from Noosa Nth Shore, using cabling above and underground, traversing lots of LOTS!!

A. BPA acknowledges that the works are partially outside SEQ area, in WBB area; and
B. that there is No CLU search data indicating that UXO / Contaminated land issues might arise along the proposed route.

Can officers please process this applicationas if SEQ covered all of the route? It is a minor incursion into WBB area to get to Teewah. Thanks.

I have raised the CLU/UXO issue with LPCU John Lane and asked Adam Marks to conduct a prelim check of CLU registers.
However, I expect that CLU might request BPA to sight Energex's copies of searches to verify that the proposed route is free of contaminated sites.

I trust that this application can be processed within the usual customer service delivery timeframes.

Thanks

John C Taylor
IDAS Coordinator- SEQ
Southern Region.

Subject: FW: S47 Teewah underground reticulation work proposal.

S47 Teewah
nderground reticul..

Greetings Andrew,

Further to our discussions on the Energex Noosa Nth Shore to Teewah powerlink, please be advised that CLU requirements are set out in the attachment. Hard-copy of this will be forwarded along with the other Units responses within EPA service delivery timeframes.

However, in the interim, it might be prudent to contact Energex and advise them of the CLU requirements, so that Energex can expedite its project, rather than suffer otherwise unnecessary delays whilst developing strategies/responses to CLU's concerns.

Regards

John C Taylor
IDAS Coordinator - SEQ

Dear Fiona

Thank you for your response to our enquiries regarding potentially contaminated sites within Noosa Shire. Please be advised that the majority of responses have led to sites being amended / corrected on the Contaminated Sites Register. In some cases however, your responses have brought up completely new questions regarding the site involved. It would be greatly appreciated if you could supply the following additional information. Once again, thanks.

1. **Lot 14 on RP230894** sch4p4(6) Personal information
Original Council notification was for land use 169 (Electroplating & Galvanisers & Metal Sprayers). Is this correct? Your latest set of amendments mentioned that there is no fuel storage at this site. Has fuel ever been stored on the premises? Please advise of what Prescribed Purpose activity takes place on these premises.
DEL DEL → Class 3.1 liquid was previously stored

2. **Lots 1 & 2 on RP42622 and Lot 4 on RP47639 -** sch4p4(6) Personal information
Which of the above Lots does the prescribed purpose of Fuel Storage occur on? We need only know the location of the 20,000L above ground Distillate Tank and the 4,500L underground fuel tank. The drums are unlikely to cause contamination at such a low quantity. ~ Lot 2 RP42622 PRO

3. **Lot 702 on C5602 -** sch4p4(6) Personal information
Council has advised that no fuel is stored on the premises, however it remains unclear whether or not the site was ever used as a drycleaning establishment. Do you have any record, past or present, of this site being used for drycleaning? If so, please supply amounts & types of cleaning fluids used and indicate whether any underground storage occurred.

1. Information shows site was used for drycleaning.
2. Information also says contamination source of fuel storage area → class 3.1 liquid previously stored underground. PRO

RECEIVED 23 OCT 1996

Published by DERM Disclosure Log Pursuant to RTI Act 2009

Query w/ Defence Re: UXO

4. **Lot 963 on FTY517 -** sch4p4(6) Personal information
Your response stated that *"Our register does not include this as a UXO zone but is a contaminated site."* If applicable, please supply details of amounts and types of contamination that occur or have occurred at this site. Records show contamination source as Defence Training Area.

5. **Lot 2 & 3 on RP47639 -** sch4p4(6) Personal information
Do you have any knowledge of any fuel being stored on this site in the past? Health Dept. informed you that there ARE no fuels stored, however this does not explain why the site was notified to the Register Both lots are contaminated sites. PRO
Contamination source is listed as chemical storage over 10 tonnes/fuel storage.

6. **Lot 1 on RP146062 -** sch4p4(6) Personal information
Response to this query mentioned Cootharaba Road. Is there a sawmill on Hill street at the above Real Property Description? Is there a sawmill with Prescribed Purpose Activities on Cootharaba Road that we do not know about? Please advise.
Lot 1, RP146062 - wood treatment & preservation site. PRO [redacted].

7. **Lots 2 & 7 on RP852046 -** sch4p4(6) Personal information
This site has been notified as an abattoir, which is not a Prescribed Purpose Activity on its own. Please advise if Council has any record, either past or present, of there ever being a cattle dip, fuel storage, tanning, hide curing or any other potentially contaminating uses of the land. Lot 2 on RP852046 shows as contaminated land with the contamination source probable from stock dips & spray yards. PRO '3527'

8. **Lot 14 on RP202311 -** sch4p4(6) Personal information
Mechanical Repair is not a known contaminant unless one of the following occur at the site; Fuel Storage, electroplating, industrial cleaning, metal spraying. Have any of these or any other Prescribed Purpose Activities ever occurred on the premises?
We have No record of the contamination source.
Thank you for both your patience and assistance with these problems. If I can be of any help or can supply any further information, please don't hesitate to call me on (07) 3227 6922.

Dear Fiona

Thank you for your response to our enquiries regarding potentially contaminated sites within Noosa Shire. Please be advised that the majority of responses have led to sites being amended / corrected on the Contaminated Sites Register. In some cases however, your responses have brought up completely new questions regarding the site involved. It would be greatly appreciated if you could supply the following additional information. Once again, thanks.

1. **Lot 14 on RP230894** sch4p4(6) Personal information
Original Council notification was for land use 169 (Electroplating & Galvanisers & Metal Sprayers). Is this correct? Your latest set of amendments mentioned that there is no fuel storage at this site. Has fuel ever been stored on the premises? Please advise of what Prescribed Purpose activity takes place on these premises.

2. **Lots 1 & 2 on RP42622 and Lot 4 on RP47639 -** sch4p4(6) Personal information
Which of the above Lots does the prescribed purpose of Fuel Storage occur on? We need only know the location of the 20,000L above ground Distillate Tank and the 4,500L underground fuel tank. The drums are unlikely to cause contamination at such a low quantity.

3. **Lot 702 on C5602 -** sch4p4(6) Personal information
Council has advised that no fuel is stored on the premises, however it remains unclear whether or not the site was ever used as a drycleaning establishment. Do you have any record, past or present, of this site being used for drycleaning? If so, please supply amounts & types of cleaning fluids used and indicate whether any underground storage occurred.

Published on DES Disclosure Log ETA 2009

4. **Lot 963 on FTY517 -** sch4p4(6) Personal information
Your response stated that *"Our register does not include this as a UXO zone but is a contaminated site."* If applicable, please supply details of amounts and types of contamination that occur or have occurred at this site.

5. **Lot 2 & 3 on RP47639 -** sch4p4(6) Personal information
Do you have any knowledge of any fuel being stored on this site in the past? Health Dept. informed you that there ARE no fuels stored, however this does not explain why the site was notified to the Register.

6. **Lot 1 on RP146062 -** sch4p4(6) Personal information
Response to this query mentioned Cootharaba Road. Is there a sawmill on Hill street at the above Real Property Description? Is there a sawmill with Prescribed Purpose Activities on Cootharaba Road that we do not know about? Please advise.

7. **Lots 2 & 7 on RP852046 -** sch4p4(6) Personal information
This site has been notified as an abattoir, which is not a Prescribed Purpose Activity on its own. Please advise if Council has any record, either past or present, of there ever being a cattle dip, fuel storage, tanning, hide curing or any other potentially contaminating uses of the land.

8. **Lot 14 on RP202311 -** sch4p4(6) Personal information

Dear Nadine

RE: CONTAMINATED SITES REGISTER

As discussed during our phone conversation today I understand there are currently 31 sites being queried with Council. If you cannot locate the queries for these sites, please contact me and I will have the original letters resent to you.

I have attached a copy of the notification of contaminated land form and I have also included a copy of the Prescibed Purpose Activity Interpretation Guide. This guide should be of assistance in notifying any future land parcels to the Department. Your assistance with this matter is appreciated. If you have any queries, please contact me on (07) 3227 6921.

Regards

NOOSA DISK
ITEMS TO BE DEAT WITH

L2 MCH2884 - (page 1) This parcel has been subdivided into hundreds of new parcels (literally). The comments state that the sewerage treatment plant is located on land on the [redacted] part of the land. I suggest (and Ariane concurs) that we ask Council for the new RPD which supports the Sewerage Works and don't worry about the others.

April? ← (looks like all p.p.s are on the same part of land)

L2 MCH2884 - (page 9) A night soil depot was located to the [redacted] road to the existing water polution control works on the [redacted] part of the land. Again I suggest we ask for the current parcel for inclusion on the register.

L2 MCH2884 - (page 9) [redacted] part of the land was used as a refuse tip. As above I suggest that the new parcel be included.

PAGE 3 L68 MCH838103 should be L68 MCH838013 ✓ amend

PAGE 4 L2 RP201442 is listed as "abattoir" - refer to Council for any P/P. → [redacted]
Underground storage is listed for three parcels for Wimmers cordial - check with Council whether all three parcels are involved or whether only one needs entering. [redacted]

PAGES 5/6 Eleven parcels are listed for Cooroy Sawmill. No other prescribed purpose is advised. Check whether wood treatment takes place on the site and if so whether all parcels are involved.

refer DPI fax 18/5/94 file 900779 → LA ✓ Was a Boron treatment mill ∴ PP = 131. Not sure of all parcels ACO

PAGE 6 L2 RP199674 should be L2 RP119674. ✓ amend

PAGE 7 - IVAS) RES 963 - RPD is L963 FTY517 (obtained from GIS & checked to ✓ amend

GOC? PAGE 8 [redacted]
Qld National Park & Wildlife Service site at The Esplanade has no RPD listed. ?

see attached notes from DME - Query remaining lots with Council

PAGE 9 Three Department of Lands sites need RPDs. ? any other ? *

PAGE 10 RES1235 appears to be L151 MCH4892 but owners different- check. → [redacted]

GOC ← L365 MCH958 - [redacted]

GOC ← PAGE 11 L364 MCH958 [redacted]

ALL PAGES HAVE AMENDMENTS TO BE MADE TO PRESCRIBED PURPOSES, SPELLINGS ETC. √ O/C.

Stephen, Myrtle has identified the problems. please read through all this stuff then draft a suitable letter to Council. Also, Council have not returned phone calls from me. Please find out who is the EHO dealing with this matter. Ariane 23.11.95.

sch4p4(6) Personal information

Dear sch4p4(6) P

Re: Contaminated Land Notifications

I refer to your letter regarding the cattle dip on your property, which was installed in 1997. Can you please fill out the attached Notification form, advising the street address, lot on plan description (from your rates notice) and the Local Government Authority for your property. If you have a map showing the location of the dip site, a copy of this would be most appreciated, otherwise we can copy and mail back the original to you if this is agreeable to you.

I would like to thank you for the information you have provided. I have enclosed a pre-stamped, self-addressed envelope for your convenience.

If you have any queries regarding this matter, please do not hesitate to contact Miss Tess Bignell on the above telephone number.

Yours sincerely

Dear Nadine

RE: CONTAMINATED SITES REGISTER

As discussed during our phone conversation today I understand there are currently 31 sites being queried with Council. If you cannot locate the queries for these sites, please contact me and I will have the original letters resent to you.

I have attached a copy of the notification of contaminated land form and I have also included a copy of the Prescibed Purpose Activity Interpretation Guide. This guide should be of assistance in notifying any future land parcels to the Department. Your assistance with this matter is appreciated. If you have any queries, please contact me on (07) 3227 6921.

Regards

Dear Ms Eliot

Re: Contaminated Sites Register queries ALL OUTSTANDING QUERIES RE-SENT 23/8/96 AMM

I refer to our recent telephone conversation and I enclose copies of previous requests for information from this Department for your action. Each site has been reviewed and annotated; in some cases information is no longer required.

Please address sites marked as 'Possible' with the greatest urgency. The Contaminated Sites Register is open to searches by the public and it is vital that the information on it is accurate and complete.

I have one further query regarding a tip on Neusavale Road at Lot 415 MCH 366 which is not yet been notified for inclusion on the Register. This site is close to a previously notified tip located on the roadway between Lot 423 RP807193 and Lot 1 RP179362. Please advise whether these are separate sites or part of one larger tip, and provide notification details on the attached form so that this site can be recorded on the Register.

To assist you in answering the attached queries I also enclose a list of Prescribed Purpose land uses and a Prescribed Purpose Activity Interpretation Guide. Once these matters have been clarified I would be pleased to forward a complete copy of Contaminated Site Register entries for Noosa Shire, for your verification. Please do not hesitate to contact me if you have any questions. I thank you for your assistance.

Yours sincerely

Dear Nadine

I have some additional queries:

1. Lot 11 ~~C56016~~ sch4p4(6) Personal inform → 092-000003 'Rel' file 900296. - OK. Information not required - Ariane M. 21/8/96.

   This site has been subdivided into Lots 1-3 GTP101097 and Lots 5-8 GTP102284. Can you provide details of owners for each of the new parcels?

2. Lot 14 RP230894 sch4p4(6) Personal information → 092-004002 POS. 169 & 3516 'fuel'.

   This site has been subdivided into Lots 1-8 and 999 on BUP13364. Can you provide details of owners for each of the new parcels? Fiona we also require details of fuel storage and any other prescribed purpose activity - Ariane 21/8/96.

3. Lot 77 ~~MCH4389~~ sch4p4(6) Personal information → 092-003985 POD - OK. Information not required.

   This site has been subdivided into Lots 77-79 on RP862401. Can you tell me if the dump covered all these sites?

4. Lot 2 RP179958 sch4p4(6) Personal information → 092-004059 POS

   This site has been subdivided into Lots 1& 2 on RP809220. This site was marked on the map provided by you as being only Lot 2 on RP809220, can you confirm this?

Number of pages:	2 (including cover sheet)

Dear Nadine

These are the final queries I have. A faster response will ensure the problems associated with the Contaminated Sites Register for Noosa will be solved sooner.

1. Lot 963 FTY 517 sch4p4(6) Personal information ⇒ 042-004096 POS. past use "531" - not a prescribed purpose.

   This site has been notified as an ex-Army reserve. Is there any possibility the site contains unexploded ordnances? Or any other reason it has been notified to us?

2. Lot 2 & 3 RP47639 sch4p4(6) Personal information ⇒ 042-004083/4 POS. (Pomona Ambulance Station)

   This site has underground liquid storage, would it be possible to identify which of the two lots this is on?

3. Lot 205 & 206 P4111 sch4p4(6) Personal information ⇒ 042-003979/3996. POS.

   This site has a stock dip on it, would it be possible to identify which of the two lots this is on?

Published on DES Disclosure Log RTI Act 2009

b

092-004048 - POS *092-003988 POS — now sub-divided

4. Lot 1 RP146062 Hill St, Pomona & Lot 2 RP138407 sch4p4(6) Person

sch4p4(6) Personal infol

These two sites are notified as sawmills. Can you tell me if either of the mills carry out wood treatment, such as using copper chromium arsenic, borax or creosote, or if there is any fuel storage on these sites?

5. ⊛Lot 5 & 6 RP152351 sch4p4(6) Personal information 092 - 004068/9. POS.

This site is Ocean Ford, and is notified as having a service station on site. Can you tell me which lot the service station is on?

sch4p4(6) Personal information

Stephen Mackenzie
Contaminated Land Section

*Lot 2 RP138407 → Fiona this block was sub-divided in March 1996, so these questions now apply to the three new blocks. Please supply current ownership details for the blocks to go on the Register, if any.
Ariane 21/8/96.

↓ now
{ lot 1 RP887052
{ lot 2 "
{ lot 3 "

⊛ lots 5 & 6 RP152351 → Fiona - rates checked the map for me today and since the servo. was definitely on lot 5 I'm amending it to 'Probable' status. I need you to tell me whether lot 6 is also part of the servo., or if any other prescribed purpose has taken place - Ariane 21/8.

Memorandum

To FILE

File reference 901017

From Stephen Mackenzie / Ariane Mil.

Subject Noosa

Date 24/11/95

Notes

I contacted Kerry Mackay today, who gave me the name Raoul Wejchardt, the Planning Officer. said he will call today.

Attempted to download disk data. Data was in an "incorrect format". Disk sent to computer services for correction. A. Milinovich. 27.11.95. Successfully downloaded to sites-dl 30.11.95. (158 sites).

21/8/96. Phoned Nadine Gorton of Noosa S.C. Town Planning to find out why no response to our faxes. Fiona Eliot told me Fiona sch4p4(6) Personal information is doing the job but is not aware of our queries. I advised Fiona that :-

- 30 outstanding queries on 'Pos' sites are now extremely urgent.
- 2 outstanding queries on 'PRO' sites in response to our complaints date back to January & March 1996.

Posted copies of previous requests for information, together with p.p. & interpretation guide on 23/8. - Ariane Mil.

27/9/96 Undated replies received to outstanding queries.

Not on CSR.

Currently reviewing their site register & negotiating with Cmwth. Defence Dept re UXO sites — & will be sending their updated list of sites in the next month or so.? (April knows about this?) sounded a little exasperated as to the time frame between when the desk was forwarded originally & then, only now the dept is verifying the details.

→file with correspondence.
