Mr Yoshihiro (Zen) Yamamoto
Chief Executive Officer and Deputy Managing Director
Idemitsu Australia Resources Pty Ltd
Level 1, AM 60
60 Albert Street,
BRISBANE QLD 4000

Email: sch4p4(6) Personal information

Dear Mr Yamamoto

Ensham Final Void – Residual Void Project

We refer to the Notices of the Department, dated 28 February 2017, with respect to the amendment of Environmental Authority EPML00732813 by written agreement and the decision on the amount and form of financial assurance.

sch4p4(4)(1)(b) Consultation/deliberation for deliberative processess of government

However, the Department confirms the following:

- the conditions of Environmental Authority (EPML00732813) set out the process for the identification of the Residual Voids outcome;
- sch4p4(4)(1)(b) Consultation/deliberation for deliberative processess of government
- the scientific study is to consider a number of options for meeting the requirements of Condition G4 – Rehabilitation Success Criteria, including but not limited, to possible backfilling of voids within the footprint of the Probable Maximum Flood;
- sch4p4(4)(1)(b) Consultation/deliberation for deliberative processess of government

The Department remains committed to working through the Residual Void Project consistent with the conditions of the Environmental Authority.

Yours sincerely

Subject : EA application website - Ensham EA Amendment

Good morning Chris,

Consistent with our conversation Friday afternoon Idemitsu Australia Resources (IAR) advises DES that there are documents on the above website that are not relevant to the submitted EA amendment for Ensham currently under consideration by DES.

IAR formally requests that the information on the website relevant to Ensham be taken down as a matter of urgency and only information relevant to the submitted application be loaded onto the website.

IAR believe that only information relevant to the submitted EA amendment should be on display as these are the details DES should be seeking information from community. The documents submitted to DES in compliance with the ToR, in addition to the EA amendment application, should not be made available through the current process.

In closing, IAR request DES advise how many viewings of the Ensham information has occurred since this information was loaded onto the website.

Regards

Dan

Chief Commercial Officer
Idemitsu Australia Resources Pty Ltd
Level 1, 42-60 Albert Street
BRISBANE CITY QLD 4000

Att: s.73 - Irrelevant

Dear Mr Walsh,

Thank you for your letter of 29 November 2019 regarding the Ensham EA amendment application.

Firstly, I can confirm that Business Centre Coal has agreed to meet with Idemitsu representatives on 18 December 2019 to discuss the EA amendment application.

We have also considered Idemitsu's request to receive any material received by the department through the public consultation process. I can confirm that any advice, comments or information received will be provided for Idemitsu for review.

However, given the department will be required to make a decision about the application no later than 5 February 2020, any response to the advice, comments or information will be required from Idemitsu within 5 business days – that is, by close of business on 17 January 2020. Should Idemitsu require additional time to respond, Idemitsu are welcome to request an extension of the decision period by written agreement under section 168 (4) of the EP Act.

Any questions in relation to this letter please don't hesitate to contact me on telephone (07) 4987 9366 or by email at gillian.naylor@des.qld.gov.au to discuss.

Yours sincerely

Subject : Option 3 spreadsheet

Good morning Juliana and Chris and thank you again for the meeting last week.

This email is to update you both on the Option 3 data sheet and a revised RFI lodgement date.

Due to the actions of a 3rd party and their accusations in media on Friday and the weekend, which we believe to be unfounded and purposely intent on hurting the business, management have decided to bring forward the lodging of the RFI to today.

Based on the revised submission timeline we will not be in a position to provide the Option 3 data sheet.

I appreciate that this is not optimal from a DES perspective and I am available to discuss any of the above if you wish.

Best regards

Dan

Subject : RE: EA application website - Ensham EA Amendment

Hello Chris,

Thanks for the quick reply. Based on Section 3.3 Ensham believes the only documents that support the application are the EA Amendment Application, the Stage 5 Residual Void Report and the Rehabilitation Management Plan.

All other documents are the product of the Residual Void Project and work to inform the TBL. Given that these documents contain information on all three options studied under the RVP IAR is very concerned that the provision of these documents will cause considerable confusion.

Happy to discuss further if DES see this differently.

Regards
Dan

Section 3.3

3.3 EA Amendment Application Supporting Information

3.3.1 Key documents

An EA amendment application has been prepared to incorporate the inclusion of the Rehabilitation Success Criteria for the final voids as required under conditions G16, G20, and G24.

This Environmental Authority Amendment Application package includes the following documents prepared for the Residual Void Project:

- 1) EA Amendment Application
- 2) Stage 5 Residual Void Report, including all reports required in stages 1, 2, 3 and 4 of the Residual Void Project including corresponding peer review reports;
- 3) An updated Mine Rehabilitation Management Plan

All documentation has been provided both electronically on a USB device and in hard copy to the Department of Environment and Science (the administering authority).

Good morning Dan

I have reviewed your EA Amendment application (in particular section 3.3 - EA Amendment Application Supporting Information).

Based on the list of documents in section 3.3 (which Idemitsu have indicated form part of the application) can I ask that you please provide a list of information/material currently on the DES website that Idemitsu does not believe is relevant to the application (as it does not fall within the list referenced above).

DES will be happy to consider your request if you can point out the actual documents you would like removed.

I will need to speak with someone around how many views the website has had.

Cheers

Chris

Hi Gillian,

Thanks for the fast reply to our letter and great news about us being able to work with the DES team to answer the material received by the department through the public consultation process. When I spoke to Chris Loveday on this matter [sch4p4(6) Personal] we were looking to receive material in real time, as received by the department not after 10 January, so we could return responses to DES in a timely manner and avoid a bottleneck of work in the back end of January for both teams.

My understanding is that Chris was supportive of this. Can you confirm that any submitted material will come through in real time please.

Thanks
Dan
