Dear Sir/Madam

**Re: Lots 1/RP167498, 547/SL1977, 870/SL4746, 1032/SL6879 - 69 Tingira Street
Pinkenba**

The Environmental Protection Agency (EPA) has received information the council regarding the above sites. Information provided states that these sites may have been used for the notifiable activity of Fertiliser Manufacturer & Chemical (sulphuric acid tank & acid plant) storage.

Under Schedule 2 of the *Environmental Protection Act 1994*, Fertiliser manufacture & Chemical storage is a notifiable activity. Sites on which a notifiable activity has occurred must be listed on the Environmental Management Register (EMR). This is largely a land-planning tool, to prevent land that has been used for these activities being inappropriately developed for a more sensitive use, ie. industrial to residential.

Currently lot 1/RP167498 is listed on the Environmental Management Register for Chemical Manufacture or formulation. Lots 547/SL1977, 870/SL4746, 1032/SL6879 are listed for Fertiliser Manufacturer.

Can you please mark location of tanks and fertiliser manufacture activity on map provided.

I have attached a list of notifiable activities as well as an information sheet on management of contaminated land in Queensland for your information.

Thank you for your assistance. If you have any queries regarding this matter, please do not hesitate to contact me on (07) 3227 7370.

Yours sincerely

Notification of Contaminated Site

The following information should be supplied by people providing notification to the CHEM Unit of contaminated land or land used for a prescribed purpose under the *Contaminated Land Act 1991* and the *Contaminated Land Regulation 1991*.

Essential Information

Local Authority Area:- BRISBANE CITY COUNCIL

Information provided by:-

Name Sch4p4(6) Personal information Contact Telephone No: (07) 867 9455

Organisation: INCITEC LTD

Address: P O Box 140

MORNINGSIDE Postcode 4170

Name by which the property is known locally:-

INCITEC LTD - PINKENBA WORKS

Location:-

Street Address TINGIRA STREET

Town/Suburb PINKENBA Postcode 4008

Lot-on-Plan Description of each parcel of land (*individual parcels of land which make up the property should be included. Please make a separate attachment if there is more than one parcel*).

(i) Lot 1 on Registered Plan 167498

(ii) Lot 870 on Plan S1.4746 and Lot 1032 on Plan S1.6879

Land Titles Register Volume and Folio Number for each parcel (*see also above remarks in brackets concerning multiple land parcels*).

(i) Volume 5900 Folio 200 (ii) Volume 6300 Folio 115

Name and Postal Address of Owner:-

Name ACF AND SHIRLEYS LIMITED (A.C.N. 009 658 600)

Address P O Box 140

MORNINGSIDE Postcode 4170

Cont'd /2

Description of the source of the suspected contamination or the prescribed purpose for which the land is or has been used (a short description of the land use or cause of contamination will be sufficient. A separate attachment can be made if space is insufficient).

Fertilizer manufacturing plant

Desirable and additional Information

Area of each parcel in square metres (this information is useful as a cross-check on the land description details):-

13,3584 hectares

Current local authority zoning of the land:- Noxious, Offensive & Hazardous Industry

The processing of this information would be greatly assisted by the inclusion of a map or locality plan.

Dear Tess,

Council is notifying your department that a review of the above site has revealed the notifiable activity – **Fertiliser Manufacture** - has been carried out on the premises.

The adjacent properties, such as Lot 870 SL.4746, Lot 1032 SL.6879, and Lot 1 RP.167498, are listed on the EMR for conducting fertiliser manufacture. The attached map identifies the location of the above sites. A site map of the ACF & Shirleys Fertiliser plants suggests that a sulphuric acid storage tank and an acid plant may have been located on a portion of the sites.

Should you require any further information regarding this matter, please contact me on the above number.

Regards,

Information Notice

Environmental Protection Act 1994

Notice of decision to grant a soil disposal permit with conditions

This information notice is issued by the administering authority in accordance with section 424(5)¹ of the Environmental Protection Act 1994 (EP Act) to advise you of the decision to grant your application for a soil disposal permit, but to impose conditions on the permit, and to inform you of the reasons for the decision and your review and appeal rights.

Re: Application to remove, treat and dispose of 350m³ of contaminated soil from 77 Tingira Street, Pinkenba, QLD (Lot 1 on RP167498)

Decision

The administering authority has considered your application received on 5 December 2018 and has decided to grant the application, but to impose conditions on the permit.

Reasons for the decision

The granting of the permit subject to the conditions imposed is consistent with the standard criteria defined in Schedule 4 of the *Environmental Protection Act 1994* (EP Act).

¹ Section 424 continues to have effect under section 739 of the EP Act.

Notice of decision to grant a soil disposal permit with conditions

Assessment criteria used in making the decision

In accordance with section 424(4) of the EP Act in making its decision to grant the application for disposal permit the administering authority has considered the standard criteria listed in Schedule 4 of the EP Act including:

- best practice environmental management for removal treatment and disposal of contaminated soil
- any applicable environmental protection policy
- any applicable site investigation- report or validation report or site management plan
- any applicable Commonwealth, State or local government plans, standards, agreements or requirements.

Findings as a result of the administering authority's assessment of the application

The information provided in the disposal permit application is sufficient to justify the disposal of the soil

Information considered by the administering authority in making its determination

Information provided in the application submitted by GeoEnvironmental Consultants Pty Ltd on 5 December 2018 including:

- Application form
- Analysis Results
- Letter of acceptance provided by BMI Resource Recovery, dated 19 November 2018, stating they are willing to accept **350 m³** of contaminated soil from **77 Tingira Street, Pinkenba, QLD (Lot 1 on RP167498)** for **treatment** by Virotec Pty Ltd (licensed under EA EPPR00845013) and **disposal** (licensed under EA BRID0046) at Stapylton Resource Recovery facility, located at 144 Rossmans Road, Stapylton (Lots 2 & 3 SP279441).

Review and appeal details

This decision is not an original decision under the EP Act and so there are no formal review and appeal rights. If you are dissatisfied with this decision you may make an application to the administering authority to review the decision but the administering authority is not required to conduct a review. You may have other legal rights and should seek legal advice.

Should you have any questions in relation to this matter, please contact Angelina Bismarck from Waste & Contaminated Land on 3330 5681.

Schedule A - Conditions

1. Records of soil removal, treatment and disposal authorised under this permit must be kept for a period of no less than seven years and be available to the administering authority by request. The information to be kept in the records must include:
 - a) the quantity of material disposed; and
 - b) acceptance receipts from the waste disposal/treatment facility.
2. The permit holder must provide a copy of the permit to any person acting under the permit.
3. Contaminated soil must not be released to air, land or water during excavation, loading, storage, treatment and transport of the soil in a manner that causes environmental harm.

Application for a disposal permit for contaminated soil

This is the approved form for making an application to the administering authority for a disposal permit to treat or dispose of contaminated soil from land recorded in the environmental management register (EMR) or contaminated land register (CLR). The application is made under s.424¹ (as continued under s.739) of the Environmental Protection Act 1994 (EP Act).

Note: A soil disposal permit is not required when removing clean soil from a site listed on the EMR or CLR.
