Subject: Pending final decision for the proposed New Acland Mine Stage 3 Project.

Good morning,

I am writing to you as you were a party to the Land Court Objections hearing for the proposed New Acland Mine Stage 3 Expansion Project. You have been previously advised that the Department of Environment and Science (the department) is required to make a final decision on the environmental authority amendment application by 14 February 2018.

I am writing to you to advise that the department will be making a final decision on the application on **Wednesday 14 February 2018.**

The department will send you an email communicating the final decision on the environmental authority amendment application at **1.00pm on Wednesday 14 February 2018.**

Kind regards

Department of Environment and Science

Subject: Acland Stage 3

Dear DES Submissions,

Re the email received today. It states : , "the Department of Environment and Science made a final decision to refuse the environmental authority amendment application for the project."

Could I have clarification on this please, Does this mean that the application by the Mine for the stage 3 has been refused?

If this is the case that is a wonderful outcome and in line with the QLD Land Court finding.

Regards

Thank you, DES.

This is a welcome decision for the long term future of the area.

Would you please enlighten me about the technical term 'amendment' ? My assumption is that there is an existing Environmental Approval for Stages 1 and 2 of the New Acland Mine so an amendment is required to extend it to cover the proposed Stage 3, instead of issuing a totally new Environmental Authority for the proposed Stage 3 - correct ?

Yours sincerely,
