<p>Question 1: Detailed report of events.</p> <p>When we were about to start work on Kingfisher Bay Resort grid, I noticed a dingo approximately 30-40 metres away, inside fenceline, near the bitumen road, loitering, watching us. The dingo was confirmed as 16green16M by its "long sock". I attempted to get behind the dingo to move it towards gate to escort it out of Resort area but it ran in a circle and sat down beside the road 30 metres away. Being a high traffic area, I decided to move it on by throwing a stick towards it. It ran off not to be seen again while we worked.</p>

<p>Question 1: Detailed report of events.</p> <p>After work I went down for a swim, I was in the water for about 5 minutes when a dingo approached from behind. I confirmed that it was 16Yellow16F by the tag in its ear. I turned around and faced her, splashed water at her and scared her away. I continued swimming while watching her. She went up to my shirt and thongs and started sniffing around. She picked up my shirt in her mouth and started shaking it around. I then left the water and approached her kicking sand and scared her off my possessions. I then walked back to the base and she followed me all the way, I was unable to deter her until I ran into another ranger 7026936 who threw a stick at her which scared her away.</p>

<p>Question 1: Detailed report of events.</p> <p>As I was driving out of the Eurong township onto the beach, I became aware of a dingo that was heading south down the beach. I decided to follow the dingo as there were a few groups of visitors on the beach including a family of adults with 3 small children. I passed the dingo and approached the family as the children were at the water's edge at a distance >10 metres from the adults. As I was explaining the importance of dingo safety within 2 minutes the dingo had arrived and was within 5 metres of us. The dingo had a yellow tag marked 16 in its right ear, identified as 16Yellow16F. I attempted to shoo off the dingo with clapping and kicking sand in its direction, but it was not easily deterred. When I got back into the vehicle and drove off a short distance the dingo followed for a short period and then continued off down the beach.</p>

<p>Question 1: Detailed report of events.</p> <p>Ranger 1435695 returned to base to report a dingo loitering within 5-10m of a group of fishermen recreating on the beach. I travelled back to the scene with her to investigate. As we were approaching, two or three vehicles left the group, leaving two vehicles remaining. I exited our car to speak to the men and 16Yellow16F approached me from behind within 1m whilst I was speaking to them. The men stated that she had been loitering around them for around 2 hours, and I advised them that it was in the dingo's best interests for them to discourage her from loitering or to move along themselves. I asked if there was any incentive for the dingo to hang around that long, and they said that she had possibly dug up some fish remains that had previously been buried by other parties. The men were packing up to leave as we departed. Within 100m of this location, XXPink16M was scavenging on the beach. As we left, he joined up with 16Yellow16F and they both sniffed each other with their tails curled. We then went and spoke to a family on the beach north of the ranger base who had an infant to advise them of dingoes nearby.</p>

<p>Question 1: Detailed report of events.</p> <p>Received via Dingo ranger email: <i>Mature dingo, green tag in right ear, no white feet, no white tail, not underfed, lean without visible ribs, came into our camp. Looked to be heading toward beach, but was blocked by me sitting in a chair in the middle of the path. All stood and watched and waited for it to move along, but it didn't move. After about a minute, began yelling at it to get out of there. Didn't move. Waved sticks, hit ground, honked horn, but it wouldn't leave. Waved big branch and it moved slowly away, then sat down again. Eventually moved it along with more yelling and throwing sticks at it.</i></p>

<p>Question 1: Detailed report of events.</p> <p>I was monitoring 16Yellow16F approximately 200metres north of the lake Wabby car park when I drove down to the Car Park to forewarn the CTO groups that the dingo was coming down to the area. I spoke specifically to the Pippies Tag along leader as his clients were preparing and having lunch outside the back of the vehicles. When 16Yellow16F arrived it circled around the group a number of times. During this time effort was made by the tag along leader to shoo off the dingo. The dingo was not easily moved on. Eventually it lost interest in the area and continued south down the beach.</p>

<p>Question 1: Detailed report of events.</p> <p>Ranger 1435626 in a personal vehicle waiting for the Hook Point barge to Inskip Point there were 3 cars parked already waiting at the barge landing. On approach a dingo was seen wandering around the cars with several people outside their vehicle taking pictures including a small child (Approximately age 2) in the front car. The people took photos then most got in the cars to watch the dingo as the dingo walked up and sat on the dune. The dingo then proceeded to lay down and watch the small child in the front car from the dune then gradually moved closer to the front car with the small child hanging out the window watching. At this point the barge had arrived and the cars started to drive forward with the dingo just sitting on the dune before walking towards the trees at the back.</p>

<p>Question 1: Detailed report of events.</p> <p>Whilst briefing campers, Ranger 7028773 sighted a sub-adult, untagged, male dingo digging up fish frames on the beach near the entrance of Waddy Beachfront CZ. It dug up a fish frame and proceeded to walk up the beach and eat it away from the fishermen that were present in the vicinity. From the vehicle, ranger 7028773 took photos of the dingo while it sat down and ate the fish frame. For the next 15 minutes the dingo sat at a distance (100m) and watched the fishermen. Ranger 7028773 drove down to the beach and briefed the fishermen on food security.</p>

<p>Question 1: Detailed report of events.</p> <p>Interaction reported via dingo.ranger: "I noticed 3 dingoes on the beach on the dry sand – two sitting down one standing. I thought they were at a distance that I should be able to walk past them. As I was walking towards them, one of the dingoes proceeded to walk down to the water and then a second dingo did the same. I had to stop as I felt threatened and intimidated and wasn't sure what to do - I couldn't walk past them as they were literally in front of me. There were no cars in sight. I decided to turn around and head towards the southern ramp. The dingoes stayed where they were and then proceeded to head north. I didn't take any photos as it was the furthest from my mind at the time."</p>

<p>Question 1: Detailed report of events.</p> <p>At 3pm on the 13th of September, sch 4 - personal information and his friends were sitting down in their camp having some drinks, when they noticed a sub-adult, female dingo coming from the direction of the toilet block. She was described as possibly a sub-adult female, light in colouration and her condition was said to be between fair and poor. The dingo was loitering around several unoccupied camps, looking for food. Because there was a camp close by to the dingo that had children present, sch 4 - personal information attempted to chase the dingo away. The first attempt was unsuccessful as it initially ran away but propped and slowly headed back in the direction of the camps. However the second attempt (with more vigorous yelling and arm waving) made the dingo run into the wetlands adjacent to the campground. The dingo was seen to re-enter the road and head along the access path to Waddy Lodge.</p>

<p>Question 1: Detailed report of events. At approximately 5.00pm, Ranger 7028773 observed a sub-adult male interacting with fishermen as he was driving back south from camp briefings. The dingo was within 2 metres of the fishermen, attracted to the bait that was seen washed up on the beach. At one stage the dingo came right up to a fishermen that was sitting down on the beach, eating and drinking (photo's provided.) Ranger 7028773 exited the vehicle and grabbed some sand to throw at the dingo to deter it away from the area. It ran away initially, however came back within 15 metres of the fishermen and sat down and watched them. The fishermen were briefed and were handed Dingo Safety brochures, especially the person who was sitting on the beach. The fishermen decided to pack up and head off back towards Orchid Beach Township. The dingo continued to loiter in the area.</p>

<p>Question 1: Detailed report of events. Report received vid dingo.ranger. "We would like to report for your records our interaction with a dingo last Wednesday evening, 20th September, just before sunset. We were at an opening in the access road at the base of Waddy Lodge next to the wetlands and we were heading south along the road. A dingo came from around the corner heading north. There was a lot of bird life active in the wetlands. The three of us, all adult women, stopped and linked arms facing the dingo. It stopped and sat down facing us and looking towards the swamp for a minute it two. It then got up and kind of danced towards us making a yawling maybe even playful sound, advancing a few metres and was now about 7 metres away and sat again for another minute or so. We stood tall, still and lifted our heads. It then turned back to where it had come from and run off around the corner and up the hill on the main road. We had seen a dingo, probably the same one on the road in front of the campsites at Waddy Point on Monday 18th September however it didn't stop or look towards us."</p>

<p>Question 1: Detailed report of events. Reported via dingo.ranger. 'This morning when jogging on the beach about 1km north of Happy Valley by myself (my husband was running ahead of me) I came across a dingo. It was trotting along near the water line so I headed up the beach away from it. It then started walking toward me and didn't walk away when I shouted at it. A passing 4WD then deliberately drove between me and the dingo and picked me up so there were no further interactions.... It came to within about 30m of me.' <p>Question 1: Detailed report of events. On 5/10/17 at 17:30, I was walking back from waddy point towards the barracks and was approached by an untagged sub adult male dingo. As I was nearing Binngih Sandblow, the dingo stood up from where it was laying on the sand dune and began sprinting towards me at pace. It stopped about 10 meters from where I stood abruptly and waited for me to move. When I went to keep walking it started to follow at which point I turned around and walked directly towards it and it ran away. (Code D_20171005_Untagged SA Male_Binngih_Incorporate humans into pack behaviour). The dingo stopped about 25 meters away, it then lay down and vocalised towards me. Less than a minute later when two vehicles drove by and slowed down the dingo ran towards them as it had done at me and walked right up to the cars doors. The dingo then continued to loiter for approximately one minute, eventually losing interest and moving on.</p>

<p>Question 1: Concerned visitor reported that on Monday 9/10 at Sandy cape at about 5.45am a camper was on the beach and observed someone with what looked like half a tuna walking across the beach towards a young dingo (Untagged male, looked to be one of last year's pups). The dingo was standing about 40m from a group of male visitors and just stood there as one person walked towards it. As the person approached closer the dingo started to walk away at which time the visitor crouched down and waited for the dingo to take the fish from his hand. The dingo got about 2m from the person but wouldn't take the fish. He waited about 2mins and then threw the fish onto the beach and walked away. The dingo was not aggressive in any way and was quite shy. The witness reporting the interaction had sighted the same dingo daily and the dingo didn't approach him or his son within 30-40m even when they were on the beach fishing with a bucket of bait.</p>
