APPROVAL CONDITIONS

Section to Which These Conditions
Relate:

1. Material Change of Use and Carrying Out Building Work (Development Permit and Preliminary Approval)

Section Name:

Utility Installation - Extension

GENERAL/PLANNING REQUIREMENTS

	TIMING
<p>1) Carry out the approved development generally in accordance with the approved drawing(s) and/or document(s).</p> <p>GUIDELINE <i>This condition refers to the approved plans, drawings and documents to which the approval relates and is the primary means of defining the extent of the approval. Approved plans, drawings and documents are stamped PLANS and DOCUMENTS referred to in the APPROVAL and are dated to reflect the date of approval of the application by Council's Delegate.</i></p>	While development is occurring on site and then to be maintained
<p>2) Complete all building work associated with this development approval, including work required by any of the following conditions. Such building work is to be carried out generally in accordance with the approved plans, drawing(s), and/or documents and, where the building work is assessable development, in accordance with a current development permit.</p> <p>GUIDELINE <i>This condition is imposed to ensure all building work associated with the use are in place before the use commences. It is not appropriate that the site be used without such work being completed. Please note that the work referred to in this condition involves operational work and may therefore constitute 'assessable development'. The Council informs you there fore that this condition does not authorise assessable development to occur and a development permit may therefore be necessary. Please refer to the Council's information sheets. For any enquiries about this condition, please contact the Assessment Manager.</i></p>	Prior to the commencement of the use
<p>3) Maintain the approved development (including landscaping, parking, driveways and other external spaces) in accordance with the approved drawing(s) and/or documents, and any relevant Council engineering or other approval required by the conditions.</p> <p>GUIDELINE <i>This condition restricts changes that can be made to the approved development. Approved plans and documents are stamped PLANS and DOCUMENTS referred to in the APPROVAL and are dated to reflect the date of determination of the application by the Council's delegate. The extent to which plans can be modified is constrained by the definition of 'minor change' in schedule 10 and the requirements of section 3.5.24 of the "Integrated Planning Act 1997". It will be necessary to make a new application if the change is not a minor change. For any enquires about this condition, please contact the Assessment Manager.</i></p>	To be maintained

<p>4) A legible copy of the approved drawings and documents bearing "Council Approval" and the Development Approval Conditions package is to be available on site at all times during construction and earthworks.</p> <p>GUIDELINE <i>This condition is imposed to ensure compliance with the development conditions of approval. The copy of the conditions and plans should be located in any site management office or with the site foreman. Any copies of conditions or plans that are illegible shall be deemed to be non compliance with this condition of approval.</i></p>	As indicated
--	--------------

MONETARY CONTRIBUTIONS & SECURITIES

	TIMING
<p>5) Pay to Council any outstanding charges or expenses levied by the Council over the subject land.</p> <p>GUIDELINE <i>This condition is imposed to ensure that there are no outstanding charges existing over the subject site, including outstanding rates. If there are out standing monies, they must be paid prior to commencement of the use.</i></p>	Prior to the commencement of the use

ENGINEERING

	TIMING
<p>6) Adjoining properties and roads are to be protected from ponding or nuisance from stormwater runoff.</p> <p>(a) Adjoining properties and roads are to be protected from ponding or nuisance from stormwater as a result of the proposed works;</p> <p>(b) Rectify all damage resulting from the ponding of stormwater or nuisance from discharge of stormwater from the site to adjacent properties.</p> <p>GUIDELINE <i>This condition is imposed to ensure that the developer is aware that they are responsible for all remedial works required as a result of any site works and, that they must protect neighbouring properties and roads from ponding and nuisance water from the proposed development. Where this rectification work involved drainage, plans are to be lodged showing the manner in which it is intended to rectify the site drainage. These plans must be approved by the Engineering Delegate. For any enquiries about this condition, please contact the Engineering Delegate, Development and Regulatory Services.</i></p>	<p>Prior to the commencement of the use</p> <p>While site/operational works/building works is occurring</p>
<p>7) Supply and install all service conduits and meet the cost of any alterations to public utility mains, existing mains, services or installations required in connection with the approved development. This includes the relocation of any fire hydrants and valves from within the limits of the development's vehicular footway crossings if applicable.</p> <p>(a) Complete the works required by this condition;</p> <p>(b) Submit "As Constructed" plans including an asset register (if required), approved by a registered Professional Engineer Queensland (RPEQ) (in accordance with Council's "Subdivision and Development Guidelines" and "Water and Sewerage Reticulation Standards") showing the works required by this condition.</p> <p>GUIDELINE <i>This condition is imposed when additions, alterations or extensions to service conduits, mains and other services are required as a result of the approved development. Applicants should liaise with the appropriate service authorities. For any enquiries about this condition, please contact the Engineering Delegate, Development and Regulatory Services (regarding advise on traffic signal conduits, stormwater, water supply and sewerage mains etc.) or the relevant public utility authorities (for advice on other services).</i></p>	Prior to the commencement of the use

8) Repair any damage to existing kerb and channel, footpath or roadway (including removal of concrete slurry from footways, roads, kerb and channel and stormwater gullies and drainlines) that may occur during any works carried in association with the approved development. GUIDELINE <i>The intention of this condition is to ensure that any works undertaken as part of the approved development do not damage Council assets or leave Council assets in an unacceptable and unsightly manner. For enquiries regarding this condition, please contact the Engineering Delegate, Development and Regulatory Services.</i>	Prior to the commencement of the use
---	--------------------------------------

STANDARD ADVICE

	TIMING
9) Brisbane City Council advise that the Environmental Protection Agency as concurrence agency has the following requirements contained in the letter dated 21/12/2005.	As indicated
10) Ensure that there is equitable access for disabled persons to and within the site in accordance with the Queensland Anti-Discrimination Act 1991, the Federal Disability Discrimination Act 1992 and Australian Standard AS1428 Parts 1-4 Australian Standard for Access and Mobility. You are notified of your responsibility to ensure that access is appropriately designed and constructed for all users as required by relevant legislation and standards. This development approval does not indicate that the proposal complies with these requirements. Determination of compliance with these requirements is the sole responsibility of the owner/builder/developer of the proposal. Please note: The above information has been provided to the applicant as an advice only, and does not form part of the development approval conditions. This advice has been provided to the applicant to inform them of other obligations they may have to comply with (under state legislation or local laws) prior to their activity commencing.
