Mr
BP Australia Limited
193 North Quay
BRISBANE QLD 4000

Dear Mr sch4p4(6) Pers

BP GYMPIE

Thank you for your letter and report dated 2 July 1993 seeking comment on an 'Environmental Site Assessment' conducted at the BP Gympie site located at Tozer Street, Gympie.

The comments given are based upon the limited information provided in a report prepared by Groundwater Technology titled 'Environmental Site Assessment, BP Gympie, Tozer Street Gympie - March 1993'.

- I agree with the consultants conclusion that the results of the site assessment indicate that no major hydrocarbon contamination of the subsurface soils has occurred on site; and
- the site is classified as a 'probable' site on the Contaminated Site Register due to the current service station operation.

Should you have any queries on the above please contact me on (07) 227 7000.

Yours sincerely
