Dear Allan

I am currently checking the information we have on the Contaminated Sites Register. Please find below a number of queries regarding sites in Thuringowa City. It would be appreciated if you could answer these.

The following five sites were notified as containing chemical/fuel storage. Please advise (for each site) what types (eg petrol, distillate) and volumes of chemicals/fuels are (or have been) stored on the premises, and whether the fuel storage is above or below ground. If any other prescribed purpose activities are/have been taking place on the sites, please also advise of these.
