

Application form

Prescribed environmentally relevant activities

Request to transfer all or part of an environmental authority

This document is the approved form to apply to transfer all or part of an environmental authority for a prescribed environmentally relevant activity (ERA) under sections 251 to 253 of the Environmental Protection Act 1994 (EP Act).

Only use this form if you want to:

- Transfer the entire environmental authority to a new holder or holders (e.g. through the sale of a business)
- Transfer part of the environmental authority to a new holder or holders (e.g. transfer the responsibility for a particular environmentally relevant activity contained within the environmental authority). This may also include adding a new joint holder to the environmental authority
- Remove a joint holder or holders from the environmental authority.

Where a new holder is involved in the transfer, they must be a registered suitable operator before they can carry out an ERA. If the proposed new holder is not already registered as a suitable operator, they must complete the “*Application to be a registered suitable operator*” (ESR/2015/1771¹) and submit it together with this application form. If the application to be a registered suitable operator is refused, this application to transfer all or part of an environmental authority may also be refused.

If you would like to have a pre-lodgement meeting:

- For prescribed ERAs 2, 3 and 4—contact the Department of Agriculture and Fisheries by email at livestockregulator@daf.qld.gov.au
- For any other prescribed ERA—please fill out and lodge the form Application for a Pre-Design/Pre-Lodgement Meeting (ESR/2015/1664¹), prior to lodging this application form.

Checklist for making a transfer application

You must complete this checklist in order to continue.

Checklist question		Guidance
Is this application to transfer all or part of an environmental authority for a resource activity?	☐ YES ☒ NO	If yes, you cannot make an application to transfer as it is only available for prescribed ERAs. Refer to the guidance support material available at www.business.qld.gov .

Checklist question		Guidance
Is this application to transfer an environmental authority for ERA 57 regulated waste transport for the transport of regulated waste (other than tyres)?	☐ YES	If yes, before operating the new holder will need to provide the Department of Environment and Science with details of the vehicles that will operate under the environmental authority.
	☒ NO	To update vehicle details please complete and submit the <i>Details of regulated waste vehicles – ERA 57</i> (ESR/2015/1851 ²) or register to use Online Services at https://www.qld.gov.au/environment/pollution/licences-permits/online-services . to update vehicles online once the environmental authority has been transferred.
If this application is to transfer an environmental authority for ERA 60 waste disposal, has a new RRA declaration been made?	☐ YES	If an RRA declaration notification is not acknowledged prior to the date the environmental authority is transferred, any current on-site operational purpose (OSOP) exempt waste approvals or declared resource recovery areas (RRAs) will cease to be valid. As a result, any waste stored within RRAs or used for OSOP will immediately attract the waste levy.
	☒ NO	
	☐ NA	Further information for landfill operators can be found at: https://www.qld.gov.au/environment/management/waste/recovery/disposal-levy/operators

GUIDE

If you require assistance in answering any part of this form, or have any questions about your application please contact the relevant department. Contact details are at the end of this form

The environmental authority number and details may be found on the existing environmental authority or quoted in other correspondence received from the administering authority.

If more space is required for any responses, please attach additional information as a separate page.

If there is an agent acting on behalf of holder of environmental authority, provide details in this section. An agent could be a consultant or a contact for the environmental authority holder.

As statutory documents need to be sent to all applicants, this section can also be used when there are multiple environmental authority holders to nominate an address for statutory documentation to be sent 'care of' to.

If the transfer application involves both the transfer of the environmental authority to a new holder as well as the removal of an existing holder, applicants must complete all questions in this application form.

This declaration is to be signed by the transferee only. Where the transferee is a company, this declaration is to be signed by an authorised person for that company.

Transferees are advised that at such time as they become holders of the environmental authority they also assume responsibility for any statutory requirements associated with that environmental authority—such as current transitional environmental programs, environmental protection orders or rehabilitation requirements associated with land contaminated as part of the prescribed ERA. Accordingly, transferees are encouraged to exercise due diligence which may include, but should not be limited to, reviewing the public registers held by the administering authority, prior to endorsing this application.

If there are multiple transferees, fill in the declaration in Part C of Attachment 1 for each second and subsequent transferee that is proposed to be added to the environmental authority.

7. Declaration by new holders (transferees)

Note: If you have not told the truth in this application you may be prosecuted.

I declare that:

- I am applying to become the holder or a joint holder of the environmental authority.
- I am able to comply with the conditions of approval in the environmental authority.
- I am authorised to sign on behalf of the transferee, and commit the transferee in all matters relevant to this application.
- I understand that if this application is approved, and I am not the landowner of the land the subject of the environmental authority, I am required to notify the landowners concerned within 10 business days of receiving the transferred environmental authority.
- I am aware that I must comply with all obligations under the EP Act and its subordinate regulation
- I am aware that under section 480 of the EP Act that it is an offence to give the administering authority or an authorised person a document that contains information that I know, or ought reasonably know, to be false or misleading in a material particular.
- I am aware that under section 480A of the EP Act that, if I am required to give a document to the administering authority, it is an offence to give a document that I know, or ought reasonably to know, contains incomplete information in a material particular.
- I understand that all information supplied on or with this application form may be disclosed publicly in accordance with the *Right to Information Act 2009* and the *Evidence Act 1977*.
- I understand that I am responsible for managing the environmental impacts of these activities, and that approval of this application is not an endorsement by the administering authority of the effectiveness of management practices proposed or implemented.

Annual Return Registration Certificate

Section 320 of the EP Act imposes a duty on the holder of a Registration Certificate to report serious or material environmental harm caused or threatened in the carrying out of an activity unless that harm is specifically authorised under a Development Approval or Code of Environmental Compliance.

Please do not submit an annual report, required by a condition of an DA or Code of Environmental Compliance, with this annual return. Annual reports are to be stored for viewing upon request.

Monitoring data that has been submitted electronically to the Point Source Data Base in accordance with a written agreement with the department does not need to be resubmitted.

All reports must be held in the same place and be available for inspection by the administering authority during business hours. You must forward the reports on request or when the Registration Certificate has been surrendered or cancelled.

9. Since your last annual return, have you fully complied with the conditions of your Development Approval or Code of Environmental Compliance and your general environmental duty?

☒ YES

☐ NO → For each condition of the DA or Code of Environmental Compliance with which the holder has not complied, please attach the following

- a) a statement of whether or not the non-compliance/incident has been previously reported;
- b) a statement describing the non-compliance/incident including photographs where appropriate;
- c) a statement describing the environmental impacts resulting from the non-compliance/incident;
- d) a statement describing the actions taken to repair any damage to the environment resulting from the non-compliance/incident

☐ Tick to indicate that the required statements are attached

16. Have the details of your waste vehicles changed from the list provided in the Annual Notice?

- ☐ YES → Complete table below including the details of all vehicles to be covered by this Registration Certificate. Attach additional information if required.
- ☐ NO

Table 2 - Waste Vehicle Details

Status - existing, new, removed	Type of vehicle e.g. tanker, truck	Make of vehicle	Year of manufacture	Vehicle registration number

Note: ERA 57 - Regulated waste transport contains three thresholds, 57-(2a), 57-(2b) and 57-(2c). These thresholds represent the number of vehicles that a holder of a Registration Certificate may operate and the annual fees change according to the threshold. If the number of vehicles listed on your Registration Certificate falls above or below your listed activity you are required to amend your Registration Certificate.

The fees payable are: ERA Threshold 57-(2a) Regulated waste transport 1 to 5 vehicles \$1545.6, 57-(2b) Regulated waste transport 6 to 35 vehicles \$4636.8, 57-(2c) Regulated waste transport > 36 vehicles \$9273.6.

17. The fee for ERA 57 - Regulated waste transport is based on the number of vehicles on your Registration Certificate. If you increase or decrease the number of vehicles, this may result in a change to the fee payable. Where a change in the number of vehicles has changed the ERA threshold which applies, your Registration Certificate will be amended. Please tick the boxes below to signify your agreement to this action being taken by the administering authority on the basis of the information you have provided in this annual return.

- ☐ I agree to amendments to my Registration Certificate to reflect the change in accordance with the number of vehicles listed in this return and understand that this may change my obligations under the Code of Environmental Compliance.
- ☐ I have paid a reduced/increased fee for the coming year in accordance with the number of vehicles listed in this return.

Appendix A: Claiming a reduced Annual Fee

This appendix is to be used to claim a reduced annual fee under sections 121-127 of the *Environmental Protection Regulation 2008* and is to be attached to the annual return for a Registration Certificate or Environmental Authority (the authority). Refer to the *Information Sheet: Paying a reduced annual fee* for details of the eligibility criteria for claiming a reduced annual fee and the information to accompany the annual return before completing this appendix.

1. Eligibility for a reduced annual fee

I am eligible to claim a reduced annual fee as I meet all the following:

- ☐ in the 3 years immediately before this annual return and fee is due (or for the duration of the authority if it is less than 3 years old), no compliance action event (see section 3) has occurred for this authority;
- ☐ the ERA has an aggregate environmental score (AES);
- ☐ the ERA is administered by the Department of Environment and Heritage Protection (EHP);
- ☐ the reduced annual fee will be paid by the due date;
- ☐ the annual return will be completed and submitted by the due date;
- ☐ I am eligible under one or more of the criteria in section 2; and
- ☐ I have attached the documentation required in section 2.

2. Criteria for the reduced annual fee claimed

I am claiming a reduced annual fee for the following criteria and have attached the documents as required:

- ☐ **Approved partner (ecoBiz) - 10% discount**
 - ☐ a copy of the letter from EHP confirming status as an ecoBiz partner.
- ☐ **Approved environmental management system (EMS) - 20% discount**
 - ☐ I operate under an EMS certified by an accredited body as being compliant with ASNZ ISO: 14001: 2004 Environmental Management Systems.
 - ☐ I have included a statutory declaration, completed by an appropriately qualified person (see section 4), verifying that-
 - All the activities carried out under this Registration Certificate were carried out in accordance with the prescribed EMS last year; and
 - I am complying with the conditions of the authority.

Annual Return
Registration Certificate

☐ **Reduced emissions profile - 20% discount**

☐ I have included a statutory declaration, completed by an appropriately qualified person (see section 4), verifying that-

- The relevant activity, or the activity with the highest AES, has an emissions score (see section 5) that is at least 25% less than the emissions score stated to apply for the activity under the environmental emission profile; and
- The data used to calculate the emissions score (see section 5) for the relevant activity is accurate and has been obtained by a method appropriate for the type of activity.

Declaration

- I do solemnly and sincerely declare that the information provided is true and correct to the best of my knowledge. I understand that it is an offence under section 480 of the *Environmental Protection Act 1994* to give to the administering authority, or an authorised person, a document containing information that I know is false, misleading or incomplete in a material particular.
- I understand that all information supplied on or with this application form may be disclosed publicly in accordance with the *Right to Information Act 2009* and the *Evidence Act 1977*.

Checklist

- ☐ If claiming as an approved partner, a copy of the letter confirming status as an ecoBiz partner.
- ☐ If claiming for environmental management system, a statutory declaration as outlined above in section 2.
- ☐ If claiming for reduced emissions profile, a statutory declaration as outlined above in section 2.

R

Additional Explanation of Requirements for Claiming a Reduced Annual Fee

Definition of compliance event

A compliance action event, for the holder of a relevant authority, means any of the following directly relating to an activity carried out or a thing omitted to be done under the authority-

- (a) the serving of an infringement notice, under the *State Penalties Enforcement Act 1999*, on the holder for an offence;
- (b) the issuing of an environmental protection order to the holder;
- (c) the holder-
 - (i) has voluntarily submitted a draft transitional environmental program; or
 - (ii) is acting under an approved transitional environmental program; or
 - (iii) is required to prepare a transitional environmental program; or
 - (iv) has, under section 350 of the *Environmental Protection Act 1994* (EP Act), given the administering authority a program notice;
- (d) the issue of a cost recovery notice to the holder unless-
 - (i) the amount claimed under the notice has been fully paid; or
 - (ii) the notice has been withdrawn or has otherwise stopped having effect;
- (e) the holder has been issued with a direction notice under section 363B of the EP Act and-
 - (i) the holder complies with the notice; or
 - (ii) a proceeding for an offence against section 363E¹ of the EP Act has not started;
- (f) a proceeding for an environmental offence or an offence under section 363E¹, 363I² or 363L³ of the EP Act (a notice offence), is started or continued against the holder and has not finished;
- (g) the holder is convicted of an environmental offence or a notice offence.

If a registered operator has two sites (e.g. Site A and Site B) and two separate Registration Certificates or Environmental Authorities, then a compliance event on Site A will not affect access to the discounts for the annual fee on Site B. If both Site A and Site B are licensed under a single Registration Certificate or Environmental Authority, a compliance action event at either site will render the registered operator or Environmental Authority holder ineligible for a reduced annual fee.

Criteria for appropriately qualified person

An appropriately qualified person must be an independent third party who is not an employee of the holder of the authority.

They must also be a member of one of the following organisations as set out in schedule 8 of the *Environmental Protection Regulation 2008*:

- Australasian Radiation Protection Society
- Australian Institute of Agricultural Science and Technology
- Australian Institute of Geoscientists
- Australian Society of Soil Science

¹ Section 363E (Offence not to comply with a direction notice).

² Section 363I (Offence not to comply with clean-up notice).

³ Section 363L (Obstruction of recipient complying with notice).

- Engineers Australia
- Environmental Health Australia
- Environment Institute of Australia and New Zealand
- Institute of Explosives Engineers
- Institutions of Chemical Engineers Australia
- Institute of Engineering and Mining Surveyors Australia
- Planning Institute of Australia
- South Pacific Environmental Radioactivity Association
- The Australian Institute of Mining and Metallurgy
- The Institution of Surveyors Australia
- The Royal Australian Chemical Institute

For the approved EMS discount, the appropriately qualified person should have demonstrated experience and qualifications that relate to the development and operation of environmental management systems, and the assessment of compliance with the conditions of a Development Approval or an Environmental Authority.

For a lower emissions score an appropriately qualified person (in chemical, soil, water or air quality science) should have knowledge of, and experience in, interpreting and analysing emissions monitoring data.

Information on the emissions score

The emissions score for a relevant activity, means the emissions score component of the aggregate environmental score (AES) for the activity. The AES was calculated by the department and is scheduled in the *Environmental Protection Regulation 2008* (next to the environmentally relevant activity (ERA) definitions in Schedule 2, 5 and 6).

The AES is made up of two components:

- the emissions score; and
- the site attributes score.

The emissions score is the average annual emissions to air, land and water, and a detailed breakdown of contaminants and volumes is provided for each ERA on the department's website at www.ehp.qld.gov.au.

Data should be based on the annual average emissions for each contaminant in order to accommodate seasonality and other fluctuations. It does not matter how the emissions reduction is achieved or how many contaminants contribute to the overall reduction.

Data collection should be consistent with the guidelines and methodologies contained in:

- Air Quality Sampling Manuals and Water Quality Sampling Manuals prepared by the Queensland Government, which are available on the department's website at www.ehp.qld.gov.au.
- Annual reporting data from the National Pollutant Inventory for the previous reporting year.

This notice requires you to submit an annual return for the previous year and pay the annual fee for the forthcoming year.

You are required to:

- complete and return the attached 'Annual Return' that covers the period from 18 Feb 2012 to 17 Feb 2013; and
- pay the annual fee of \$5,961.60² as shown on the attached invoice that covers the period from 18 Feb 2013 to 17 Feb 2014; or if you are eligible, submit the claim for a reduced annual fee and pay the reduced annual fee. For details on the eligibility criteria please refer to the information sheet: 'Paying a reduced annual fee' which is available from the department's website at www.ehp.qld.gov.au.

Please forward the completed 'Annual Return' and pay the annual fee to Permit and Licence Management at the address shown below by 18 Feb 2013.

¹ Permit includes licences, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation.

² These fees are included in the Federal Treasurer's Determination under Division 81 of A New Tax System (Goods and Services Tax) Act 1999. As such, the supplies are exempt from GST.

R

If you fail to pay the annual fee and submit the completed 'Annual Return' by the due date the administering authority may:

- suspend or cancel the permit; and will charge
- a late fee of \$110.40

Unpaid annual fees and late payment fees are recoverable as a debt payable to the administering authority. Where the activity is no longer being carried out, it is recommended that you contact the Department to discuss amending or surrendering your permit. Payment of the annual fee and submission of an annual return is required where an operator remains registered regardless of whether they are currently operating or not.

Environmental Protection Act 1994

Environmental authority EPPR00483513

This environmental authority is issued by the administering authority under Chapter 5 of the Environmental Protection Act 1994.

Environmental authority number: EPPR00483513

Environmental authority takes effect on the date it is signed by the delegate.

The anniversary date of this environmental authority remains **18 February** every year. The payment of the annual fee will be due each year on this day.

Bottle Tree Farm Services Pty Ltd	Suite 2, Level 13, 241 Adelaide Street Brisbane QLD 4000

Environmentally relevant activity and location details

Environmentally relevant activity	Location
ERA 63 Sewage treatment (1)(b)(i) operating sewage treatment works, other than no-release works, with a total daily peak design capacity of— more than 100 but not more than 1,500EP— if treated effluent is discharged from the works to an infiltration trench or through an irrigation scheme	Lot 2 Plan RP902980

Additional information for applicants

Environmentally relevant activities

The description of any environmentally relevant activity (ERA) for which an environmental authority (EA) is issued is a restatement of the ERA as defined by legislation at the time the EA is issued. Where there is any inconsistency between that description of an ERA and the conditions stated by an EA as to the scale, intensity or manner of carrying out an ERA, the conditions prevail to the extent of the inconsistency.

An EA authorises the carrying out of an ERA and does not authorise any environmental harm unless a condition stated by the EA specifically authorises environmental harm.

A person carrying out an ERA must also be a registered suitable operator under the *Environmental Protection Act 1994* (EP Act).

Contaminated land

It is a requirement of the EP Act that an owner or occupier of contaminated land give written notice to the administering authority if they become aware of the following:

- the happening of an event involving a hazardous contaminant on the contaminated land (notice must be given within 24 hours); or
- a change in the condition of the contaminated land (notice must be given within 24 hours); or
- a notifiable activity (as defined in Schedule 3) having been carried out, or is being carried out, on the contaminated land (notice must be given within 20 business days)

that is causing, or is reasonably likely to cause, serious or material environmental harm.

For further information, including the form for giving written notice, refer to the Queensland Government website www.qld.gov.au, using the search term 'duty to notify'.

Take effect

Please note that, in accordance with section 200 of the EP Act, an EA has effect:

- a) if the authority is for a prescribed ERA and it states that it takes effect on the day nominated by the holder of the authority in a written notice given to the administering authority - on the nominated day; or
- b) if the authority states a day or an event for it to take effect on the stated day or when the stated event happens; or
- c) otherwise on the day the authority is issued.

However, if the EA is authorising an activity that requires an additional authorisation (a relevant tenure for a resource activity, a development permit under the *Planning Act 2016* or an SDA Approval under the *State Development and Public Works Organisation Act 1971*), this EA will not take effect until the additional authorisation has taken effect.

The anniversary day of this environmental authority is the same day each year as the original take effect date unless you apply to change the anniversary day. The payment of the annual fee will be due each year on this day.

If you have incorrectly claimed that an additional authorisation is not required, carrying out the ERA without the additional authorisation is not legal and could result in your prosecution for providing false or misleading information or operating without a valid environmental authority.

Obligations under the *Environmental Protection Act 1994*

In addition to the requirements found in the conditions of this environmental authority, the holder must also meet their obligations under the EP Act, and the regulations made under the EP Act. For example, the holder must comply with the following provisions of the Act:

- general environmental duty (section 319)
- duty to notify environmental harm (section 320-320G)
- offence of causing serious or material environmental harm (sections 437-439)
- offence of causing environmental nuisance (section 440)
- offence of depositing prescribed water contaminants in waters and related matters (section 440ZG)
- offence to place contaminant where environmental harm or nuisance may be caused (section 443)

Other permits required

This permit only provides an approval under the *Environmental Protection Act 1994*. In order to lawfully operate you may also require permits / approvals from your local government authority, other business units within the department and other State Government agencies prior to commencing any activity at the site. For example, this may include permits / approvals with your local Council (for planning approval), the Department of Transport and Main Roads (to access state controlled roads), the Department of Resources (to clear vegetation), and the Department of Agriculture and Fisheries (to clear marine plants or to obtain a quarry material allocation).

Development Approval

This permit is not a development approval under the *Planning Act 2016*. The conditions of this environmental authority are separate, and in addition to, any conditions that may be on the development approval. If a copy of this environmental authority is attached to a development approval, it is for information only, and may not be current. If you are unsure that you have the most current version of the environmental authority relating to this site please visit <https://apps.des.qld.gov.au/env-authorities/> to access all environmental authorities currently approved.

Assessment Report

Environmental Protection Act 1994

Transfer application

This assessment report is for applications to transfer all or part of an environmental authority for a prescribed environmentally relevant activity (ERA) under sections 251–253 of the Environmental Protection Act 1994.

PROJECT NAME: N/A	
PRINCIPAL APPLICANT: Pacific Century Production Pty Ltd	
JOINT APPLICANTS: N/A	
AGENT/ SERVICE ADDRESS:	
ERA DESCRIPTION: ERA 63 Sewage treatment (1)(b)(i)	
LOCATION DESCRIPTION: Lot 2 Plan RP902980	
NEW HOLDER DETAILS: Bottle Tree Farm Services Pty Ltd	
ECOTRACK PROJECT NO:	ENVIRONMENTAL AUTHORITY NO: EPPR00483513
FILE NO: 101/0041923	

1. Type of transfer

☒	The environmental authority is to be transferred in full to a new holder.
☐	A new joint holder is to be added to the environmental authority. The existing holder will become a joint holder for all ERAs contained within the environmental authority.
☐	Only part of the environmental authority is to be transferred.
☐	The environmental authority has joint holders and this application is only to remove one or more of the current joint holders. No new holders are proposed to be added.

2. Assessment

Is the new holder (transferee) a registered suitable operator?

- ☒ Yes – suitable operator registration number provided – **must approve the transfer application RSO** 100374677
- ☐ Yes – application to be a registered suitable operator received with this application and approved – **must approve the transfer application**
- ☐ No – application to be a registered suitable operator has been refused. The application **must be refused** under section 173 of the EP Act
- ☐ No – **refuse application** and advise that application to be a registered suitable operator required.

☐ Not applicable – application to remove holders only.

Have all transferees and current environmental authority holders signed the appropriate declarations on the application form?

X Yes

☐ No – **refuse** and advise that signed declarations are required.

3. Conflict of interest assessment

Departmental employees must disclose any actual, perceived or potential conflicts of interest. A conflict of interest arises when a public official is influenced or appears to be influenced by personal interests when performing their duties. **All assessing officers and the delegate involved in the assessment must consider the departmental policy 'Conflict of Interest and Engaging in Other Employment Policy and Procedure' available on the Policy Register (publication number CHC/2019/5455).**

Conflicts of interest may include previously disclosed interests that are already included in the departmental register, or new interests specific to this application. Any new conflicts of interest should be disclosed as per usual processes and included in the departmental register.

Any conflicts of interest for this application have been identified?

☒ None identified.

☐ A conflict of interest has been identified and;

☐ approved management plans are in place and have been considered by the delegate; or

☐ approved management plans are not in place. **Seek immediate advice.**

4. Human Rights impact assessment

The proposed decision will be compatible with human rights if it does not limit a human right, or if it limits the human right only to the extent that is reasonable and demonstrably justifiable – see [section 13 of the HR Act](#). Please refer to [Human Rights Act assessment guidance information sheet](#) (Policy Register #ESR/2019/4970), and [Human rights in decision making, a guide for Queensland Government staff](#) for guidance.

Which rights are relevant to the decision or act proposed to be taken?	Bottle Tree Farm Services Pty Ltd 087505860 has an Australian Company Number and is considered to be a company. The Acts Interpretation Act 1954 lists 'company' as an example of a corporation. The term 'individual' is not further defined under the HR Act; the Acts Interpretation Act 1954 defines 'individual' as a 'natural person'. A corporation is not a natural person and is not considered to have human rights. There are 23 human rights specified in the HR Act (refer to sections 15-37 of the HR Act), however this is an administrative decision, human rights are not affected by this decision.
Will your action or decision limit or restrict any of the rights you've identified?	No, there are no implications for human rights under the Human Rights Act 2019

5. Recommendation

It is recommended that the proposed transfer application should be:		☒ Approved	☐ Refused
