Dear Sir,

Re: Authority to Prospect No. 4199M

With reference to your letter of 6th February, 1989, I have to inform you that it has been approved that Authority to Prospect No. 4199M could be varied in accordance with the attached form of variation.

Your advice indicating agreement to such variation must be received at this Department together with the sum of $1,752.00 (being rental for the year commenced 3rd February, 1989) not later than Sixty (60) days from the date of this letter, otherwise the application for variation will be deemed to have lapsed. Agreement to this variation must be by all holders, properly indicating their consent.

If agreeable to such variation, a duly signed endorsement will be forwarded for your records.

Also, it is pointed out that this offer of renewal is conditional upon your company reducing the area of this Authority to Prospect by 50% prior to 1st June, 1989.

Any further renewal of this Authority to Prospect would be subject to at least a 50% reduction in area.

Yours faithfully,

The Director-General
Queensland Department of Mines
G.P.O. Box 194
BRISBANE QLD 4001

Dear Sir,

Re: Authorities to Prospect 4199M & 4200M

Further to my letter of December 28th, 1988 concerning renewal of the captioned Authorities to Prospect, I met with Messrs Daly and Ishaq, of the Department, on February 1st, to discuss this matter.

As requested during the discussion, I have provided below alternative exploration/action programs which would be implemented during 1989.

MRA
sch4p4(6) Per
a/L

Program A: (Assumes successful flotation of Timbarra Mines N.L.)

(i) Relinquishment of not less than 50% (ie. 30 sub-blocks) of the total area now held under Authority to Prospect; to be effected by 31st May, 1989.

(ii) Detailed soil-geochemical sampling and geological mapping of all remaining anomalous areas indicated by B.L.E.G.(Bulk Leach Cyanide - Extractable gold) sampling. (To commence in late February).

(iii) Detailed soil/rock-chip geochemical sampling and geological mapping of known mineralization (old workings) followed by exploratory drilling (approx. 7 target areas, including ML 92 and MLA 94, Warwick).

(Drilling program to commence April/May 1989 to enable assessment of results by June/July.)

ADMIN

(2) TAKE MEMO AND DRAFT VARIATION ATTACHED 4th YEAR AREA to retain 24 S.B upto 31.5.89 then reduced to at least 12 S.B. 7/2/89.

.../2

sch4

sch4p4(

50

Publication of Resources Disclosure Log RTI Act 2009

The entire program would include some 750 - 1000 metres of drilling, including coring of lode-systems where possible. Total cost of the program is estimated to be approximately $90,000, Follow-up work and expenditure would be dependent on the results obtained.

Program B: (assumes Timbarra Mines N.L. flotation is not achieved)

Saracen Minerals N.L. would proceed with phases (i) and (ii) of Program A, and would endeavour to arrange for a joint-venture partner to carry out phase (iii).

Future activity in the area would be dependent on results obtained, and the availability or otherwise of a suitable joint-venture partner. Any areas which are identified as unprospective would be progressively relinquished throughout 1989.

Saracen Minerals N.L. recognises that the request to temporarily retain the entire area of Authorities to Prospect 4199M and 4200M requires modification of Departmental policy. Saracen Minerals N.L. has demonstrated its competence and reliability of performance in Queensland, by its full compliance with Departmental reporting requirements, and by its exploration expenditures which have significantly exceeded Departmental requirements in several areas.

I trust that this information is sufficient to permit renewal of the captioned Authorities to Prospect, for a further year from February 2nd, 1989.

Thank you for your assistance in this matter.

Yours faithfully,
SARACEN MINERALS N.L.

RMT/KRW

28th December, 1988 .

The Director-General
Queensland Department of Mines
G.P.O. Box 194
BRISBANE QLD 4001

Dear Sir,

Re: Authority to Prospect 4199M and 4200M

Saracen Minerals N.L. wishes to retain the entire area of the captioned Authorities to Prospect, without reduction in area, until April 30th, 1989.

The two Authorities to Prospect have been explored by Saracen Minerals N.L. (as operator) under a joint-venture agreement with Timbarra Mines N.L., which is a private company seeking to proceed to public company status and Stock Exchange listing. Timbarra Mines N.L. currently has its prospectus undergoing final examination by both Corporate Affairs and the Stock Exchange, and any alteration to the captioned Authorities to Prospect would require major alterations to the prospectus, and cause serious delays to Timbarra.

Saracen Minerals N.L. will review the status of the Authorities to Prospect, and will relinquish all unprospective ground, effective from May 1989.

Thank you for your assistance in this matter.

Yours faithfully,
SARACEN MINERALS N.L.
