Mr Reginald Williams
Chairperson
Bamaga Island Council
BAMAGA QLD 4876

Attention: Environmental Health Officer(s)

Dear Mr Williams,

**Re: Review of sites listed on the Environmental Management Register for petroleum product or oil storage**

I refer to previous correspondence dated 17 September 1998 which advised of a review of sites listed on the Environmental Management Register (EMR) for the notifiable activity of 'petroleum product or oil storage'.

This Section's records, including previous paperwork provided by Council, have been reviewed, and in some instances it has not been possible to make a determination about whether the sites should remain on the EMR. A schedule of these sites is attached to this letter.

In each instance, information is sought concerning whether the site falls within the definition of 'petroleum product or oil storage' in Schedule 3 of the *Environmental Protection Act 1994*:

**29.** Petroleum product or oil storage—storing petroleum products or oil—
- (a) in underground tanks with more than 200 L capacity; or
- (b) in above ground tanks with—
  - (i) for petroleum products or oil in class 3 in packaging groups 1 and 2 of the dangerous goods code—more than 2 500 L capacity; or
  - (ii) for petroleum products or oil in class 3 in packaging groups 3 of the dangerous goods code—more than 5 000 L capacity; or
  - (iii) for petroleum products that are combustible liquids in class C1 or C2 in Australian Standard AS 1940, 'The storage and handling of flammable and combustible liquids' published by Standards Australia—more than 25 000 L capacity.

Release

If another notifiable activity has occurred on a particular site, please also provide these details. If you have any queries concerning this letter, please do not hesitate to contact myself on telephone (07) 3227 8143.

Yours Sincerely

Hi Tess.
This one appears to be in Bamaga and has been changed in CISP.

Subject: L7/SO53

Hi Jemma!

We've been having a few dramas with this lot/plan. We had it on the system as being in Torres, however it came back one day with an invalid LGA code, so we checked it out and were told it should be Bamaga. So we changed it to Bamaga, and now it's come back with an invalid LGA code again. When we look at it in Mapinfo it says the LGA is Torres, and CISP says Torres. Can you please check it out and see which is the correct LGA or LGA'S????

Thanks!!

Tess

**Message**

Thank you for your fax of 29 January this year regarding fuel storage on the above properties. s.73 - Irrelevant Inform s.73 - Irrelevant Information However, before lot 7 can be deleted from the Register we need to confirm that no other notifiable activities have ever occurred on the property.

Please advise whether any notifiable activities have occurred on lot 7 SO53. I am aware that this is a huge parcel of land, but if a notifiable activity has occurred on any portion of it, it will need to remain on the Register.

If you have any inquiries, please feel free to contact me.

Dear Margaret

**Re: Fuel storage, as per telephone call today**

Lot 7 SO53 is currently listed on the Environmental Management Register for the notifiable activity of petroleum product or oil storage.

To enable us to determine whether this is in fact listed correctly, please mark the location of all notifiable activities that occur or have occurred on properties, on the enclosed map/s (one is a closer-in view than the other). Please also provide details of notifiable activities eg for fuel storage, whether above or below ground, volumes and types of fuel. Any other information you can provide would be helpful.

If there are any more properties which should be listed on the Register, please also notify us of these.

If I can help further in any way, please feel free to call.

Yours sincerely

Kim Denning
Validation Officer
Hazardous Waste and Contaminated Sites Section

Margaret Hodder, CEO of Bamaga Island Council rang. She's notifying a site for fuel storage. She said lot 7SO53 which is on EMR for fuel storage, is listed incorrectly. (Lot 7 takes up most of the land in the community). I said I'd fax her a map so she could mark the correct location of the fuel stg. She said she'd give us the info that she has. s.49, 10:45am 28/1/99

**From:** Scown Angus <Angus.Scown@dnr.qld.gov.au>
**To:** "'tess.bignell@env.qld.gov.au'" <tess.bignell@env.qld.gov.au>

Howdy Tess.
I too had a life on the weekend, well actually life is not too bad in general. Having only started full time work this year I think my brain is finally starting to understand how much it bites. Still having money to spend makes it bearable I suppose. What did you do on the weekend that made it soooo good? How long have you been working at Dpt. Environment?

Glad we worked out a few problems and if you ever need some survey type questions answered then let me know. Have an excellent week and I hope life continues to reward you with it's great surprises.

oh yeah... More mundane matters.... Fixed that plan.

Angus

Good Morning Angus, hope you had a good weekend. I actually had a life on the weekend - well, sort of.....

Um, I know it's still early in the morning, but can you please change something on CISP pretty please?

It's Lots 7 s.73 - Irr on SO53 - they should be Bamaga Island Council, but CISP is showing Torres.....I know.....oy.....

Thanks heaps for fixing that other stuff for us - one more to go, and all the "nasties" in the LGA table will be gorn for good! Yippee!! Then I'll be able to leave you alone (Thank GOD says Angus!) and play with some other ugly stuff hanging around my desk.....

Have a great week!
Tess
