Release

Subject: conversion
Date: Mon, 29 Jun 1998 09:55:49 +1000
From: Ariane.Milinovich@env.qld.gov.au (Ariane Milinovich)
Organization: Department of Environment
To: david.hill
CC: tess.bignell

hi david
apart from the cairns 171 site we already knew about, some other sites didnt transfer to the emr because of data errors:

? → SCREEN DUMP SHOWS SHOULD BE PP35

010-00125 lot 14 mph7940 mt isa
010-000096 lot 16 mph22064 mt isa
010-000095 lot 17 mph22064 mt isa

PP 3517.

sch4p4(6) Personal information

these 3 sites were changed to 'pro' on friday by tess, but the pp code wasnt changed to a valid one, so these sites have not been included in the conversion process/

03/07/98
SIGNING OFF FROM CSR!

also there were 3 incorrect uxo/chem sites left:

133-000081 lot 41 nr1839
059-000143 lot 304 cwl3609
059-000142 lot 311 cwl3678

— Pro change to 535

on as pesb 534 should have gone on as probable.
Pro

could you please hold the letters for the first group, and get tess to pull out the paperwork for the last three, so we can decide what to do.
thanks ariane

RTI DI RELEASE - EHP

Dear Mr Faulkner

To further our query regarding our fax sent to you dated 26 May 2000 from Anita Richards, Senior Environment Officer, Contaminated Sites Section, regarding the enclosed sites (see copy letter & map attached.)

As we have not yet received a reply to this query, and to keep our records updated and as accurate as possible I have restated the query below.

Please confirm whether any notifiable activities which may be taking place now or in the past on the base and which lot/plans they are taking place on. (see attached letter & list of Notifiable Activities). Can you also please clarify that the correct lot/plans which the base is situation upon have been provided by the Jondaryan Shire Council, and supply any additional lot/plan numbers if any have been omitted.

If multiple activities or multiple instances of one activity take place on a single lot please supply the EPA with a diagram showing as close as possible to the exact location of each activity.

Thank you for your assistance. If you have any queries regarding this matter, please do not hesitate to contact me on (07) 3227 7370.

Yours sincerely

x Sent follow up letter 5/12/00 to Mr Faulkner.

RTI DL RELEASE - EHP

MESSAGE:

Mr Faulkner,

I have attached a copy of a map showing the sites listed below which have been notified to the Environmental Protection Agency by the Jondaryan Shire Council as the land which the Oakey Army base is situated upon.

Lots 1 & 2 on RP 176748 and Lot 1 on RP 120095 (now Lot 1 on CP 851106)
Lot 2 on RP 176748
Lot 4 on RP 88219
Lot 2 on RP 113524
Lot 2 on RP 88218

We understand there are no UXO issues for which these sites might be listed. However, under the Environmental Protection Act, Notifiable Activities (NA's) which might contaminate the land must be listed on the Contaminated Sites Register. The base will be listed on the EMR as a Defence Establishments or Training Area, however we require further detail as to any other activities which may be taking place on the base and which lot/plans they are taking place on. I have attached 3 pages of the description of NA's as listed in Schedule 3 of the Environmental Protection Act for your information, Please indicate which lot/plan each NA is situated on, if there are any. If multiple activities or multiple instances of one activity take place on a single lot please supply the EPA with a diagram showing as close as possible to the exact location of each activity.

Also can you please clarify that the correct lot/plans which the base is situated upon have been provided by the Jondaryan Shire Council, and supply any additional lot/plan numbers if any have been omitted. As I am going sch4p4(6) Personal information should you require any help after 11 June 1999, please contact Ms Judy Norton on 3227 6422 in the first instance or Ms Ariane Milinovich on 3225 1974.

RE: Contaminated Sites Register (CSR) - Data Validation Project
Sites classified as "Possible" on the CSR
Lots 1 & 2 on Plan RP176748 and Lot 1 RP120095 (now Lot 1 on Plan CP851106)
Lot 2 Plan RP176748
Lot 4 RP88219
Lot 2 RP113524
Lot 2 RP88218

As discussed with you last week, the sites above form part of the Oakey Army Base. These sites have been notified by Council, and have been given an interim classification as "possible" contaminated sites because insufficent information has been provided for them to be classified as "probable" sites.

We understand there are no UXO issues for which the sites might be listed. However under the *Contaminated Land Act 1991*, Prescribed Purpose land uses which could produce chemical contamination and that might be on the base include fuel and chemical storage and workshop related activities such as abrasive blasting, metal treating, electroplating, spraypainting etc.

In July 1998 the *Contaminated Land Act 1991* will be repealed and its functions incorporated into the *Environmental Protection Act*. Prescribed Purposes land uses will be replaced by Notifiable Activities. Attached please find a list of these taken from the amendment legislation.

We need to clarify the status of these sites as quickly as possible. Please advise any Notifiable Activities on these sites with as much detail as possible. Due to a computer problem I am unable to supply a map of the land parcels at this time; I will forward a map ASAP for you to mark the position of any Notif. Activities.

Any information you can supply would be much appreciated. Please contact me on (07) 3227 6922 if you have any queries.

Regards

Dear Bob

RE: Lot 118 on AG3796 → now 1. CP851106

I refer to the above site, which forms part of the Oakey Army Base. Can you please advise whether this site has been used, or is being used, for fuel or chemical storage. If so, can you please advise they types and amounts, and whether any of the fuel storage was located underground.

Your earliest response to this matter would be greatly appreciated.

If you have any queries regarding this matter, please do not hesitate to contact me on the above telephone number.

FRANCIS Karen

From: JOHNS Allen
Sent: Monday, 18 May 2015 11:35 AM
To: FRANCIS Karen
Subject: FW: Oakey Army Base
Attachments: 20140109 ESR alert.docx; 20140623 ESR alert update.docx; PB Assessment report.pdf; Eco map and Plans Oakey.pdf; RE: Army Aviation Centre Oakey - Groundwater Investigation

Importance: High

Hi Karen,

History attached. As discussed. The search matter is related to notifications of a land under section 371 and 372 of the EPAct in regards to alleged contamination admitted from the defence base. Attached is a ecomap of the base area. Unless you have received any notices under section 371 or 372 of the EPAct regarding contamination admitted from the defence base for offsite and on site then it may be a matter for the compliance team to look into. Please contact the Toowoomba compliance team for advice.

RTI DL RELEASE - EHP

INFORMATION SUPPLIED BY ALLEN JOHNS I+D ASSESS TEAM.

From: JOHNS Allen
Sent: Friday, 6 March 2015 12:48 PM
To: GLEESON Kelly
Subject: FW: Oakey Army Base
Importance: High

Hi Kelly,

BASE PARCEL LOT 1 ON CP851106

The Oakey Army Base is located on a number of lots (please see attached ecomap and the plans taken from the PB investigation report attached). The only lot listed on the EMR is Lot 1 on CP851106 for DEFENCE ESTABLISHMENTS OR TRAINING AREAS (please see ecomap). This notifiable activity has since been removed from the Schedule 3 *Environmental Protection Act 1994*. No other lots are listed on the EMR. Also attached for your assistance is the PB assessment report, Tony's review of the report and two ESR alerts for background ta Al

To: JOHNS Allen
Cc: MACKENZIE James; BRADSHAW Tony
Subject: Oakey Army Base

Morning Allen

Please find attached the documents/corro that I have on the Oakey Army Aviation groundwater contamination issue.

As discussed, what I was looking for originally in January was if the site should be on the EMR and what "tools" the department could use in the event of offsite impacts.

Defence wrote to the department on 8 May stating that AECOM have been engaged to undertake targeted water sampling off the base and they will get back to us with the details which is what this proposed meeting is for.

Any advice you can provide us would be greatly appreciated.

Kind Regards,
Dr Amanda Cleary | Principal Environmental Officer
Department of Environment and Heritage Protection (EHP)

Environmental Services & Regulation Division (ESR) Southern Region

RTI DL RELEASE - EHP

9 January 2014

ALERT CATEGORY:

- Environmental incident

ALERT NAME:

- Groundwater Contamination – Oakey Defence Base

CUSTOMER DETAILS:

- Department of Defence
- Army Aviation Centre, Oakey (AACO)

SUMMARY OF ISSUE/S:

- Groundwater monitoring in and around the AACO base (the Base) has detected contaminants namely Perfluorooctane Sulfonate (PFOS) and Perfluorooctanoic Acid (PFOA) from fire fighting foam used in training exercises between 1970 and 2005.
- A Human Health Risk Assessment undertaken on behalf of the Department of Defence (Defence) of offsite populations concluded that the levels of contaminants detected were below the tolerable threshold and exposure to offsite populations was unlikely.
- An Ecological Risk Assessment (ERA) however identified potential risks to aquatic organisms including the EPBC protected Murray Cod and birds if the groundwater migrates to the Oakey Creek located 7.2 km from the Base.
- Groundwater is used in the area primarily for irrigation. The ERA identified four threatened ecological communities and 41 species of flora/fauna that may be adversely affected by the contaminants.
- Defence has engaged a new consultant to undertake a higher level ERA which will include a detailed biodiversity assessment and confirm source-receptor pathways into the offsite ecological food chain.
- No details have been provided regarding the management of potentially contaminated soil from the Base or potential impact of contaminants onsite.
- The Base is a federal government site and is not listed on the Contaminated Land Register or Environmental Management Register.
- A community meeting was held on 10 December 2013 to inform concerned parties about the monitoring that had been undertaken in the previous 12 months. During this meeting potential health issues were raised by a local doctor.

RTI DU RELEASE - EHP

POTENTIAL IMPACTS / RISKS:

- Contaminated groundwater potentially affecting water quality of Oakey Creek.
- Potential ecological impact on flora and fauna in and around the Base.
- Community concern about the potential impact on human health and local ecology.
- Unknown fate/management of contaminated soil at the Base.

CUSTOMER ACTIONS:

- Defence have engaged a new consultant to undertake additional groundwater monitoring and ERA of the area surrounding the Base.
- Defence offered to test individual groundwater bores at resident's request.

Release

DEPARTMENT ACTIONS:
[HISTORICAL ACTIONS]

- EHP manager, James Mackenzie (JM) was informed by Defence of a potential contamination issue following the initial ground water monitoring in December 2012. JM advised EHP Contaminated Land unit of the potential issue.

[PLANNED ACTIONS]

- Formally request additional information from Defence regarding management/disposal of contaminated soil located on site; confirmation if the recommendations made in the report submitted to EHP are to be undertaken and in what timeframes.

LOCALITY DETAILS AND PHOTOGRAPHS:

- None

KEY COMMUNICATION MESSAGES:

- The department is aware of this issue and working with Defence to determine the extent of the problem.

CONTACT DETAILS:

- Name: James Mackenzie (Manager)
- Phone number: 4615 3472
- Division: ESR – Southern - West

This email is an initial alert in respect of this matter.
If further advice or action is required, it will be communicated via normal channels such as a briefing note.

END

Subject: RE: Army Aviation Centre Oakey - Groundwater Investigation

Hi Dave, some preliminary comments on the slides about Oakey groundwater investigations

Issue 1 - Assessment appears focussed only on PFOS and PFOA rather than total fluorinated compounds

The assessment appears to focus on PFOS and PFOA. These are a subset contaminants of potential concern. For example, the EHP published model operating conditions for landfills and the draft EHP policy on management of fire-fighting foams both require monitoring and assessment of total fluorinated compounds., not just PFOA and PFOS. The policy has the following definitions:

Fluorinated organic compounds
All organic compounds that contain the elements fluorine and carbon where the fluorine has replaced some or all of the hydrogen in the straight or branched organic carbon chain including perfluorinated or polyfluorinated compounds. This commonly includes, but is not limited to, PFOS, PFOA, fluorotelomers, fluorosurfactants and their breakdown products.

Fluorinated organics analyses
For the purposes of assessing the environmental risks of fluorinated organics in soil, water or concentrate samples analyses shall be done for at least PFOS, PFOA, 6:2FtS and 8:2 FtS (6:2 and 8:2 fluorotelomer sulphonates) content whether in derivatised or free form (i.e. total content) and total fluorinated organics.

http://www.ehp.qld.gov.au/era/prescribed/model-operating-conditions-era60-em1211.pdf

http://www.amerex-aust.com.au/sites/default/files/web/Solberg/Policy-QLDFirefightingFoamsV3-0.pdf

To assess contaminants of potential concern, a broader analysis suite would need to be undertaken/reported. This should be informed by the nature of the fluorinated foams used by the RAAF at Oakey.

Issue 2 – The Assessment does not take into account the possibility of contamination via stormwater discharges

The fluorinated contaminants were applied to the mock planes/ the land surface in fire fighting exercises. They have infiltrated to groundwater. However, it is highly likely that they have also discharged from the site via stormwater drainage. There is no relevant sampling presented e.g. of sediments to assess releases into the environment via this pathway, nor potential impacts. For example, in western Queensland, it is common to build earthen storages across drainage channels to retain water for various uses. This is also a more direct pathways to local creeks.

Issue 3 - The Parson and Brinkerhoff Risk Assessment did not assess potential impacts on crops or cattle from use of contaminated groundwater for irrigation and stock watering.

Overseas studies have shown uptake of fluorinated organics occurs in cattle and crops on pastures on which sewage bio-solids containing these compounds has taken place. EHP has not been provided with information assessing health risks to cattle, crops and human consumers of such irrigation. The latest presentation advises affected persons that continued use of contaminated groundwater for irrigation and stock watering is safe. The basis of this assessment is unknown.

Issue 4 – Environmental Impacts on surface waters are unknown

The fluorinated compound involved are persistent organic pollutants. These have potential to affect the aquatic ecosystem, as well as human uses of surface waters e.g. stock watering. These impacts are unknown.

Issue 5 – Fate of any contaminated soil

RTI DL RELEASE - EHP

Release

EHP has standards for landfill acceptance of soil contaminated with these substances. It is not known if any contaminated soil or tarmac has been disposed from the site and if so, whether it met leachate standards and went to a properly lined facility.

We should raise these issues with defence when we meet them.

Cheers Tony

Subject: FW: Army Aviation Centre Oakey - Groundwater Investigation

Hi All,

For your information.

Amanda, I will leave this issue for you. I am hoping that further information will be supplied, that is, a certified site investigation report.

My main concern is that Defence are recommending that the affected ground water can still be used for crops and livestock.

My view that this is a state issue and without proper scientific information the above state is a concern.

Regards
Dave

Subject: Army Aviation Centre Oakey - Groundwater Investigation

Dear David,

As requested in your email to Tim Hamilton on Friday, the related reporting information about the Oakey Groundwater Investigation can be downloaded from the project website here: http://www.defence.gov.au/id/Oakey/Documents.asp (most of the files are too large for email).

As per our phone conversation last Wednesday, I understand you are also seeking the results from recent groundwater testing. Please find preliminary findings within the PowerPoint presentation attached (not for distribution). More detailed

Release

results are not available at this stage as the reporting process is still being finalised. Defence will keep you updated about the investigation, and will make contact when the draft report is available.

If you have any further enquiries, don't hesitate to contact the project team on 1800 136 129 or email defence.oakey.anz@aecom.com.

Regards,

Ellen
Defence Oakey project team
