[image002.png](#)

Hi All,

Please find attached the fortnightly Operator Impact Report as at 26 AUGUST 2020. It provides an overview of the impacts that COVID-19 is having on operators and industries within QLD and also provides some interstate information where available.

For your information and awareness.

Please let me know if you require anything further in relation to any of the matters raised in the report.

Kind regards,

Rebecca DeHaan

A/Manager

Good Afternoon Team,

Please find attached current decision list.

Please email ESCairns with any changes or updates.

Can I please have updates regarding all of the entries on the first page? Some of these have been standing for weeks.

If the pre-lodgements did occur or rescheduled - can you please email ESCairns advising so and I can finalise or update them.

I require all these entries for our teams reporting.

Thank you

Subject: Deemed ERC Tracker MAY 2020
Date: Wednesday, 16 December 2020 2:29:07 PM
Attachments: [Deemed ERC Tracker May 2020.xlsx](#)

Hi all

As discussed, this is the 'deemed ERC tracker' that was being managed by RRS up until May 2020. It was basically their way of tracking which deemed ERC notices had been sent. There have been no updates made since. Something to consider for 2021.

I met with Sam Wildie and he explained the tabs as follows:

In flight:	never sent an ERC notice
Site-specific no PoO – Mining:	BC hasn't confirmed yet if ERC notice sent. No end date on PoO. Still all FA but details have been transferred to Treasury. These one's still should be sent a deemed ERC notice.
Expired PoO	Legislation doesn't consider this, no notice sent
PaL (standard and variations)	Data issues from DNRME, Mining claims – were late additions; EAs – these had strange ERC value that needed to be investigated as they looked like mistakes
Priority 2	Still sitting with BCs. i.e. a company had FA decision but was transferred prior to commencement, now in dispute amongst holders over FA.
Blank data - Verification	When data migration was done, there was no record of FA decision ever made
Sent Notices	BC or PAL have sent deemed ERC notice to these
Verified Data	This is the RAW data set – every resource EA as of 1 April 2019
Small Scale Permits	No EA – no requirement to send a deemed ERC notice. Treasury would have sent an invoice to be paid
List	These are all different scenarios that were identified at the start to prioritise – this is probably a bit redundant now

Cheers

Letitia

Hi Gus

Further to our discussion today, below is an update on the Cairns data in the attached spreadsheet with my comments on each row in column L (colour coded blue, green, orange, purple or red) based on the categories below.

Basically data falls into 5 categories based on available information I've checked in Connect. Red text is notes for each category on what we are dealing with in terms of the number tenures, EAs and EA holders.

1. No Notice of Decision for requirement to surrender issued. No surrender application in Connect. **Blue – 39 tenures, 21 EAs, 20 EA holders**
2. Notice of Decision for requirement to surrender issued. Surrender to be lodged by a specified date. Surrender application not received. **Green – 22 tenures, 19 EAs, 19 EA holders**
3. Notice of Decision for requirement to surrender issued. Surrender to be lodged by a specified date. Surrender application lodged and determined invalid. **Orange – 2 tenures, 2 EAs, 2 EA holders**
4. Surrender application received was deemed invalid. NoD requirement to surrender issued. Surrender to be lodged by a specified date. Surrender application not received. **Purple - 1 tenure, 1 EA, 1 EA holder. Incorrect EA # and EA holder for this tenure.**
5. Notice of Decision for requirement to surrender issued. Surrender to be lodged by a specified date. Surrender application received and approved. **Red – 1 tenure, 1 EA, 1 EA holder. This should be removed from list.**

Subject: RE: ERC due to expiry - 2020

Hi Teale,

As discussed, I have now updated the attached spreadsheet according to the ERC spreadsheet, decision lists and updates provided by the PM's.

I have also created two tabs in the ERC Spreadsheet for expired ERC site-specific EAs and one for expired ERC for standard EA's.

As mentioned, there are some expired ERCs for site-specific EAs where the PoOps have expired before ERC came into effect (these are shaded green).

I have also added in commentary around decision due dates for the ERC applications we have

received for site-specific EA's.

Kind Regards

Subject: FW: ERC due to expiry - 2020

Hi Crystal

Can you please do an update of the attached ERC expiry periods for me please? Noting you have water sampling for a good chunk of next week, if you could aim to have completed by 2 Feb that would be great please.

The intention is to have an up to date list of EA for which the ERC period has expired.

The attached is what Hazel had previously arrived at in October 2020 based on a couple of our spreadsheets and discussions with the PMs. If you use it as the starting point and compare information against the following:

- The ERC Spreadsheet [here](#) – this records our ERC decisions and will note if an ERC decision has been made
- The decisions list (latest attached)
- Conversations with the relevant PMs as per PM list [here](#) – they will tell you if an ERC application has been received and invalidated or an IR issued etc

Happy to discuss if it doesn't make sense. Any work you can get done in advance of the time above is fabulous.

Thanks

Hi All,

As discussed caught up with Scott, Tony and Jacob earlier in relation to Cromarty ERC. Scott was supportive of progressing by way of an investigation should the relevant offence be commission. The relevant paperwork is being developed by Jacob
A couple of actions came out of the meeting.

1. We need to know which sites have ERC period have ended.
2. We need to develop a standard compliance process for s302 offences as a start.

In relation to 1 above, can this work be tasked?

In relation to 2, a starting point of discussion purposes (noting that this will be a compliance lead) is as follows – purpose is to be responsive early and largely prevent s297 offences.

1. Valid ERC lodged consistent with s302 – No action
2. ERC lodged 3 months prior, but not consistent with s298 (ie invalid) – at point of invalidation, issue standard letter which details 5bdays to rectify validation and highlight s297 ERC period end risks. If subsequent application made within the further 5 days and it is validated – no action in relation to s302. If no reapplication made within the 5bdays or invalidated, within 2bdays BC refers to compliance. CC considers and makes a PIN decision within 5bdays (to issue a PIN or not).
3. If no application within the 3 months prior, within 2bdays BC refers to compliance. CC considers and makes a PIN decision within 5bdays (to issue a PIN or not). Corro needs to highlight s297 ERC period risk.

Thoughts.

Gus

Subject: RE: ERC due to expiry - 2020

Hi Teale,

As discussed, I have now updated the attached spreadsheet according to the ERC spreadsheet, decision lists and updates provided by the PM's.

I have also created two tabs in the ERC Spreadsheet for expired ERC site-specific EAs and one for expired ERC for standard EA's.

As mentioned, there are some expired ERCs for site-specific EAs where the PoOps have expired before ERC came into effect (these are shaded green).

I have also added in commentary around decision due dates for the ERC applications we have received for site-specific EA's.

Kind Regards

Subject: FW: ERC due to expiry - 2020

Hi Crystal

Can you please do an update of the attached ERC expiry periods for me please? Noting you have water sampling for a good chunk of next week, if you could aim to have completed by 2 Feb that would be great please.

The intention is to have an up to date list of EA for which the ERC period has expired.

The attached is what Hazel had previously arrived at in October 2020 based on a couple of our spreadsheets and discussions with the PMs. If you use it as the starting point and compare information against the following:

- The ERC Spreadsheet [here](#) – this records our ERC decisions and will note if an ERC decision has been made
- The decisions list (latest attached)
- Conversations with the relevant PMs as per PM list [here](#) – they will tell you if an ERC application has been received and invalidated or an IR issued etc

Happy to discuss if it doesn't make sense. Any work you can get done in advance of the time

above is fabulous.

Thanks
Teale

Subject: Expired / Cancelled Tenures Project - Updated Cairns Data

Hi Gus

Further to our discussion today, below is an update on the Cairns data in the attached spreadsheet with my comments on each row in column L (colour coded blue, green, orange, purple or red) based on the categories below.

Basically data falls into 5 categories based on available information I've checked in Connect. Red text is notes for each category on what we are dealing with in terms of the number tenures, EAs and EA holders.

1. No Notice of Decision for requirement to surrender issued. No surrender application in Connect. **Blue – 39 tenures, 21 EAs, 20 EA holders**
2. Notice of Decision for requirement to surrender issued. Surrender to be lodged by a specified date. Surrender application not received. **Green – 22 tenures, 19 EAs, 19 EA holders**
3. Notice of Decision for requirement to surrender issued. Surrender to be lodged by a specified date. Surrender application lodged and determined invalid. **Orange – 2 tenures, 2 EAs, 2 EA holders**
4. Surrender application received was deemed invalid. NoD requirement to surrender issued. Surrender to be lodged by a specified date. Surrender application not received. **Purple - 1 tenure, 1 EA, 1 EA holder. Incorrect EA # and EA holder for this tenure.**
5. Notice of Decision for requirement to surrender issued. Surrender to be lodged by a specified date. Surrender application received and approved. **Red – 1 tenure, 1 EA, 1 EA holder. This should be removed from list.**

Hi Tony,

As per your request around coal EAs with MDLs, please see additions to the existing briefing below in **red text**.

Please note there is a note in Connect against all three MDL EAs: *MRV Bowen Basin Coal Pty Ltd (a subsidiary of Moreton Resources Limited) went into vol administration on 10 June 2020. Deloitte Financial Advisory, Brisbane are the Administrators Appointed – see ASIC support doc.*

As per your request, we have only added dot points for MDLs. Within the Public Register results there is also the below EA:

- EA EPSX00178213 (EPC882) – MRV Tarong Basin Coal Pty Ltd

Let us know if you want further information.

Hi Bec,

As discussed, if Lisa has capacity, if she could pull together a spreadsheet which highlights any

actions required of DES as part of the attached guidance.

This will allow us to identify any necessary actions required for MRV in event of a disclaimer, which is appearing increasingly likely.

Thanks

Gus

Subject: Operator Impact report - 12 November 2020

Hi All,

Please find attached the fortnightly Operator Impact Report as at 12 November 2020, providing an overview of reports and information relevant to ESR regulated operators in QLD, including related to COVID-19 impacts, and also providing some interstate/federal information relevant to ESR business, where available.

For your information and awareness.

Please let me know if you require anything further in relation to any of the matters raised in the report.

Kind regards,

Rebecca DeHaan

Subject: RE: Operator Impact report - 12 November 2020

Bec – thanks to the intel team for putting this together. A couple of thoughts....

- 1) I was actually just thinking about the decarbonising yesterday and how that may be influenced by a mega trend associated with renewables. It is definitely something to work on in the strategic assessments. Filiz and Tony M, I think this is something that we may need to discuss with you further noting that any such expansion in metals may present some risks that the intel could include in their assessments. We are not quite ready to launch into our strategic intel analysis program, but am hoping to flag this particular topic for further discussion with you in the
- 2) Tony M – just wondering whether you were tracking the Incitec Pivot production increase. We are unsure whether that presents any increase in risk but it may be worth noting for your forward work program???

Subject: Resource EAs without tenure

Hi Gus,

The work that I've followed up on for Toowoomba, has resulted in identifying the current and suspended EAs for resource activities which have had their respective tenures expired over the past 5 years. By region the numbers are below:

Compliance Centre	# EA current	# EA Suspended
Cairns	28	19
Emerald	22	3
Gladstone	2	1
Gold Coast	1	1
Ipswich	1	0
Mackay	17	11
Maryborough	4	6
Rockhampton	5	2
Sunshine Coast	1	0
Toowoomba	12	20
Townsville	24	21

Note: the ERC amounts couldn't be extracted for the bulk list due to Connect reporting limitations, so I've been doing these individually in progressing with the Toowoomba list.

I'm progressing the Toowoomba list and will aim for a broader strategy for clearing these off our books. Will touch base again soon, when we have a clear path on how we wish to progress these.

Cheers

Good afternoon Kerynne, Kate, and Dean,
Following Moreton Resources Limited going into External Administration on 10-Jun-2020, an update was completed on a company profile and association chart for Moreton Resources Limited.
Please find attached relating to Moreton Resources Limited and subsidiary companies, included are:

- Company profile for Moreton Resources Limited.
- Link analysis chart compiled from the information identified within the Company profile showing linkages between Moreton Resources Limited and subsidiary companies.
 - To view this attached chart you will have to download and install i2 Chart Reader for the software centre. This allows the chart to contain more information that what is visible on the image. To see if an entity has additional information, you can either hover the mouse pointer over the entity or double click on it to display additional information, and linkages to other entities on the chart.

Regards
Clinton

Hi Bec,

As discussed, if Lisa has capacity, if she could pull together a spreadsheet which highlights any actions required of DES as part of the attached guidance.

This will allow us to id any necessary actions required for MRV in event of a disclaimer, which is appearing increasingly likely.

Thanks

Gus

Hi Gus

I've looked at all the Cairns data on the spreadsheet (see attached highlighted yellow) and my comments on each row in column L.

Basically data falls into 4 categories based on available information in Connect:

1. No Notice of Decision for requirement to surrender issued. No surrender application in Connect. **Blue (42)**
2. Notice of Decision for requirement to surrender issued. Surrender to be lodged by a specified date. Surrender not received. **Green (20)**
3. Notice of Decision for requirement to surrender issued. Surrender to be lodged by a specified date. Surrender application lodged and determined invalid. **Orange (2)**
4. Notice of Decision for requirement to surrender issued. Surrender to be lodged by a specified date. Surrender application received and approved. **Red - (1)**

Note: one entry possibly incorrect permit – needs a further look into.

Talk soon

Regards

Michelle Ramsay

Subject: Resource EAs without tenure

Hi Gus,

The work that I've followed up on for Toowoomba, has resulted in identifying the current and suspended EAs for resource activities which have had their respective tenures expired over the past 5 years. By region the numbers are below:

Compliance Centre	# EA current	# EA Suspended
Cairns	28	19
Emerald	22	3
Gladstone	2	1
Gold Coast	1	1
Ipswich	1	0
Mackay	17	11
Maryborough	4	6
Rockhampton	5	2
Sunshine Coast	1	0
Toowoomba	12	20
Townsville	24	21

Note: the ERC amounts couldn't be extracted for the bulk list due to Connect reporting limitations, so I've been doing these individually in progressing with the Toowoomba list.
I'm progressing the Toowoomba list and will aim for a broader strategy for clearing these off our books. Will touch base again soon, when we have a clear path on how we wish to progress these.
Cheers

Good afternoon Kerynne, Kate, and Dean,

Following Moreton Resources Limited going into External Administration on 10-Jun-2020, an update was completed on a company profile and association chart for Moreton Resources Limited.

Please find attached relating to Moreton Resources Limited and subsidiary companies, included are:

- Company profile for Moreton Resources Limited.
- Link analysis chart compiled from the information identified within the Company profile showing linkages between Moreton Resources Limited and subsidiary companies.
 - To view this attached chart you will have to download and install i2 Chart Reader for the software centre. This allows the chart to contain more information that what is visible on the image. To see if an entity has additional information, you can either hover the mouse pointer over the entity or double click on it to display additional information, and linkages to other entities on the chart.

Regards

Clinton

FYI

Just wanted to flag upcoming ERC applications that will be forthcoming prior to the end of the year...additional sites highlighted are highlighted in red on the attached spreadsheet (incl a number of Sibelco sites)

Also forecasting that ERC applications highlighted in red need to be lodged prior to end of September:

NSI Vance

Mount Carbine Tungsten Project.....

Bauxite Hills Mine - Bauxite Hills

Dianne Copper Project

Ernest Henry Mine.....

Goondicum Project

Kidston Gold Mine.....

Leichhardt Operation.....

Mount Rawdon Gold Mine

Mt Carlton

Pannikin Project

Rocklands Copper Project

Thalanga Copper Project

Good Morning Team,
Please find attached current decision list.
Please email ESCairns with any changes or updates required.

We have also started a separate 'Compliance' decision list which currently only has EE's relevant for our team.

Could you please double check the information on this list as well and let me know if I need to make any changes.

Thank you
Tanya

Importance: High

Hi Team,
Please find attached current decision list.
Please email ESCairns with any changes or updates required.

I am on leave from tomorrow for 2 weeks. Vanessa will be returning from leave on Monday and monitoring ESCairns for me in my absence.
She will allocate any incoming applications to the relevant Environmental Officer or Team, but won't be updating the decision list with decisions made.

Please continue to CC ESCairns in all outgoing decisions and I will update the relevant registers upon my return.

Thanks

Good Afternoon Team,
Please find attached current decision list.
Please email ESCairns with any changes or updates.

Can I please have updates regarding all of the entries on the first page? Some of these have been standing for weeks.

If the pre-lodgements did occur or rescheduled - can you please email ESCairns advising so and I can finalise or update them.

I require all these entries for our teams reporting.

Thank you
Tanya

Subject: ESR ALERT – Moreton Resources Limited (Administrators Appointed)
Date: Thursday, 2 July 2020 10:04:00 AM

ALERT NAME:

- Moreton Resources Limited (Administrators Appointed)

CUSTOMER DETAILS & LOCATION:

- Moreton Resources Limited (Moreton Resources)
- Various locations across Southern Queensland.

ISSUE/S – (What happened?):

- Moreton Resources is the ultimate holding company for MRV Metals Pty Ltd (MRV Metals), MRV Tarong Basin Coal Pty Ltd (MRV Tarong), MRV Bowen Basin Coal Pty Ltd (MRV Bowen) and MRV Surat Basin Coal Pty Ltd (MRV Surat)
- On 10 June 2020, Moreton Resources and its subsidiaries entered voluntary administration with Grant Sparks and Davis Orr of Deloitte Financial Advisory Pty Ltd appointed Joint and Several Administrators of the companies.
- The Department of Environment and Science (DES) has been engaging with the appointed administrators and has set communication protocols with the company.
- Moreton Resources held the first creditors meeting, which identified that a liability in excess of \$20M is likely.
- The sales process is progressing, with non-binding offers closed on 29 June, and binding offers being sought by the end of the week.
- The report to creditors, recommending either liquidation, sale or restructure/recapitalisation via a Deed of Company Arrangement is scheduled for release on 8 July 2020 and a second creditors meeting, when a decision on the future of the company is expected, is proposed for 15 July 2020.

MRV Metals, Granite Belt Project site:

- MRV Metals is the holder of two environmental authorities (EA) for the Granite Belt Project, which encompasses the former Texas Silver Mine, located in Southern Queensland.
- The site is considered a high environmental risk, has historically had significant water management challenges and the downstream receiving environment includes the Dumaresq River (which forms the Queensland/New South Wales border).
- Two pumps at the Texas mine are currently in-operatable, with funding committed to repair the pumps and the works understood to be underway.
- Approximately Sch 3 section 12 - Prohibited by Act for MRV Metals, however the most recent financial assurance (FA) decision is the subject of a current Land Court appeal.
- It remains unclear how the voluntary administration will impact the Land Court matter.

MRV Tarong, underground coal gasification (UCG) site:

- MRV Tarong holds a mineral development licence (MDL) EA for a former UCG site in the South Burnett region (near Kingaroy) where UCG activities ceased in 2010.
- UCG contaminants, such as benzene have historically been identified in groundwater as a result of the UCG activities.
- Groundwater monitoring has not been undertaken on the site since September

2018, therefore the current level of risk to environmental values from the site is unknown.

- Approximately Sch 3 section 12 - Prohibited by Act for MRV Tarong.

MRV Bowen coal site:

- MRV Bowen is the holder of an MDL and coal exploration permit (EPC) EA, located approximately 25km north east of Blackwater.
- The MDL expired on 31 October 2019, however renewal has been lodged with the Department of Natural Resources, Mines and Energy (DNRME).
- A compliance inspection occurred most recently in December 2019 with no active enforcement activities.

MRV Surat coal site:

- MRV Surat is the holder of an MDL EA, located approximately 30km north of Miles.
- The MDL expires on 30 November 2020.
- There are no known issues with the site.

RISKS & RISK LEVEL:

- The MRV Metals site is considered a high environmental risk.
- The MRV Tarong site current level of risk is unknown.
- The MRV Bowen and MRV Surat sites are considered low risk.

PLANNED ACTIONS – (What is going to happen?).

- DES will continue to engage with the appointed administrators and DNRME in relation to management of site issues and various regulatory response efforts, with the next scheduled meeting with the administrators on **7 July 2020**.

MRV Metals, Granite Belt Project site:

- DES is considering the issue of a statutory notice to secure plant and equipment at the MRV Metals site.
- DES is continuing to monitor the site particularly as it relates to water management on site.

MRV Tarong, UCG site:

- DES is currently planning a joint site inspection of the MRV Tarong site with DNRME where DES will attempt to obtain groundwater samples, and desktop assessment will be undertaken to understand if nearby landholders access the same groundwater where the UCG activity occurred.
- DES is currently considering enforcement options to secure compliance with EA groundwater monitoring conditions.

MRV Bowen and MRV Surat coal sites:

- No planned actions currently, DES will continue to monitor.

CONSULTATION WITH MEDIA TEAM:

- DES Media has been advised.

CONTACT DETAILS:

- Name: Anthony Morrison, A/Executive Director, Minerals and Northern Compliance
- Phone number: (07) 4722 5200

Hi Team,

Thank you for all your hard work over the last few months.

Can you please let me know first thing tomorrow if you will need me to review or sign off on any decisions tomorrow (Friday).

I note that the only statutory item requiring my attention (from the decision list) is the BMI surrender information request, which can be signed off tomorrow.

I am happy to review any other work, however as Jake will be back in the TL role on Monday it may be best that he manages any review work for the decisions falling within his tenure.

Thanks again.

Hey TL's, got a reminder this morning to not fully rely on the dates in the Decision List and to actually check the due dates. I know we do this pretty religiously with stat dates but I had an ERC reminder letter come to me for sending out and the date was about 3 years too early.

Cheers

L

Hi Team,

The decision list is looking pretty good. However, may you please review your line items and ensure ESCairns is updated if any decisions are missing or require an update by COB Wednesday.

Tanya has requested that you provide the updates as follows:

- Item number, EA holder, update or inclusion.

*Please always email ESCairns, not Tanya's personal email.

All decisions must be cc to ESCairns, including pre-lodgement discussions etc. **If you are unsure if ESCairns should be copied in to a decision or email, just include her.*

Thank you

Lisa White
A/Team Leader (Assessment), Minerals
Minerals and North Queensland Compliance
Department of Environment and Science

[image005.png](#)

Dear Bec,

Dean and I met with Jadar Resources this morning for due diligence discussions. I have attached the minutes for your information. The Jadar representatives included Alistair Bauer – General Manager and SSE and Adrian Paul – Executive Director.

An AHR was not provided for DES in time for the meeting, so Dean only spoke of the general DES requirements. An AHR was received during the meeting, attached. Dean advised that DES had prepared correspondence and recommended a further due diligence meeting be organised following receipt of the letter, if required. I have attached the due-diligence letter for your reference.

Gus is also expected to send the attached compliance letter, which I have attached for your reference only.

Further information for your reference:

- *“Adrian Paul is Executive Director of the Company. Mr Paul has over 30 years of experience in the securities industry, and was previously a partner in the Australian stockbroking firm D.J. Carmichael & Co. Mr Paul has held various non-executive directorships of public companies listed on ASX such as Chrysalis Resources Limited. Mr Paul currently manages a private investment company and utilises his extensive networks established in stockbroking and investment banking. Mr Paul will drive execution of the Company’s strategy to add shareholder value. In particular, the Company will pursue its close to production Yanamina Gold Project in Peru and the very prospective lithium borate projects in Serbia and Austria.*
- *Jadar Resources Limited, together with its subsidiaries, engages in the exploration of lithium and other mineral properties in the Republic of Serbia and Austria. The company holds 100% interest in 3 exploration licenses covering an area of 258 square kilometers in Serbia. It also holds 80% interest in the 8 project areas comprising 136 exploration permits covering an area of 64.2 square kilometers in Austria. The company was formerly known as Jadar Lithium Limited and changed its name to Jadar Resources Limited in December 2019. Jadar Resources Limited was incorporated in 1985 and is based in Subiaco, Australia”.*

Subject: FW: ERC due to expiry - 2020

Hi Crystal

Can you please do an update of the attached ERC expiry periods for me please? Noting you have water sampling for a good chunk of next week, if you could aim to have completed by 2 Feb that would be great please.

The intention is to have an up to date list of EA for which the ERC period has expired.

The attached is what Hazel had previously arrived at in October 2020 based on a couple of our spreadsheets and discussions with the PMs. If you use it as the starting point and compare information against the following:

- The ERC Spreadsheet [here](#) – this records our ERC decisions and will note if an ERC decision has been made
- The decisions list (latest attached)
- Conversations with the relevant PMs as per PM list [here](#) – they will tell you if an ERC application has been received and invalidated or an IR issued etc

Happy to discuss if it doesn't make sense. Any work you can get done in advance of the time above is fabulous.

Thanks
Teale

Hi All,

As discussed caught up with Scott, Tony and Jacob earlier in relation to Cromarty ERC. Scott was supportive of progressing by way of an investigation should the relevant offence be commission. The relevant paperwork is being developed by Jacob. A couple of actions came out of the meeting.

1. We need to know which sites have ERC period have ended.
2. We need to develop a standard compliance process for s302 offences as a start.

In relation to 1 above, can this work be tasked?

In relation to 2, a starting point of discussion purposes (noting that this will be a compliance lead) is as follows – purpose is to be responsive early and largely prevent s297 offences.

1. Valid ERC lodged consistent with s302 – No action
2. ERC lodged 3 months prior, but not consistent with s298 (ie invalid) – at point of invalidation, issue standard letter which details 5bdays to rectify validation and highlight s297 ERC period end risks. If subsequent application made within the further 5 days and it is validated – no action in relation to s302. If no reapplication made within the 5bdays or invalidated, within 2bdays BC refers to compliance. CC considers and makes a PIN decision within 5bdays (to issue a PIN or not).
3. If no application within the 3 months prior, within 2bdays BC refers to compliance. CC considers and makes a PIN decision within 5bdays (to issue a PIN or not). Corro needs to highlight s297 ERC period risk.

Thoughts.

Gus

Subject: RE: ERC due to expiry - 2020

Hi Teale,

As discussed, I have now updated the attached spreadsheet according to the ERC spreadsheet, decision lists and updates provided by the PM's.

I have also created two tabs in the ERC Spreadsheet for expired ERC site-specific EAs and one for expired ERC for standard EA's.

As mentioned, there are some expired ERCs for site-specific EAs where the PoOps have expired before ERC came into effect (these are shaded green).

I have also added in commentary around decision due dates for the ERC applications we have

received for site-specific EA's.

Kind Regards

Subject: FW: ERC due to expiry - 2020

Hi Crystal

Can you please do an update of the attached ERC expiry periods for me please? Noting you have water sampling for a good chunk of next week, if you could aim to have completed by 2 Feb that would be great please.

The intention is to have an up to date list of EA for which the ERC period has expired.

The attached is what Hazel had previously arrived at in October 2020 based on a couple of our spreadsheets and discussions with the PMs. If you use it as the starting point and compare information against the following:

- The ERC Spreadsheet [here](#) – this records our ERC decisions and will note if an ERC decision has been made
- The decisions list (latest attached)
- Conversations with the relevant PMs as per PM list [here](#) – they will tell you if an ERC application has been received and invalidated or an IR issued etc

Happy to discuss if it doesn't make sense. Any work you can get done in advance of the time above is fabulous.

Thanks

Teale

Subject: High interest permits to be reviewed by 10 November

Hi BC Directors – based on your lists I have marked up the attached excel file with your nominated permits. The “Pivot” tab will show you a list of what is to be reviewed by your BC. You can also filter by Column B. If you have given me a nominee to do the review work I have cc’ed them into this email for speed. If you are forwarding this work to someone to complete – would you please advise me. I will set up a Teams chat for all people working on it so questions can be answered in there.

As discussed I asked PaL if they had a list of frequently requested items and where these relate to an EA I have allocated the check to the relevant business area if the business area didn’t nominate the permit already. These are labelled for example “Waste & PaL”. If I have nominated you BC would you please check these permits on the basis of the PaL recommendation.

Attached are:

- BC EA Permit QA excel file: Marked with the permits to be check by business area. Please update columns O and P in tab when you have completed the permit check  So we know what has been done and why.
- Checklist for permit review (e-docs 11965667) : To help guide officers about what to check and what to do if an issue is found. Generally officers are to make sure the correct version of the permit is available and that the document only includes releasable material.
- Internal guideline – Public Register Releasable documents: As this has now been finalised and will shortly be up on the policy register I am providing an advanced copy for your staff to support their review. Please do not distribute more broadly and deleted this version when you have completed this task.

When the review is complete and permit changes have been done and loaded in the Connect Permit Library **please return the updated spreadsheet with your BC in the file name so** I know who it belongs to. I will use this to update the master audit file to reflect the total permits audited and any outcomes including permit changes.

Thanks for you help and let me know if you have any questions.

Subject: High interest permits to be reviewed by 10 November

Hi BC Directors – based on your lists I have marked up the attached excel file with your nominated permits. The “Pivot” tab will show you a list of what is to be reviewed by your BC. You can also filter by Column B. If you have given me a nominee to do the review work I have cc’ed them into this email for speed. If you are forwarding this work to someone to complete – would you please advise me. I will set up a Teams chat for all people working on it so questions can be answered in there.

As discussed I asked PaL if they had a list of frequently requested items and where these relate to an EA I have allocated the check to the relevant business area if the business area didn't nominate the permit already. These are labelled for example “Waste & PaL”. If I have nominated you BC would you please check these permits on the basis of the PaL recommendation.

Attached are:

- BC EA Permit QA excel file: Marked with the permits to be check by business area. Please update columns O and P in tab when you have completed the permit check  So we know what has been done and why.
- Checklist for permit review (e-docs 11965667) : To help guide officers about what to check and what to do if an issue is found. Generally officers are to make sure the correct version of the permit is available and that the document only includes releasable material.
- Internal guideline – Public Register Releasable documents: As this has now been finalised and will shortly be up on the policy register I am providing an advanced copy for your staff to support their review. Please do not distribute more broadly and deleted this version when you have completed this task.

When the review is complete and permit changes have been done and loaded in the Connect Permit Library **please return the updated spreadsheet with your BC in the file name so** I know who it belongs to. I will use this to update the master audit file to reflect the total permits audited and any outcomes including permit changes.

Thanks for you help and let me know if you have any questions.

To: ELLIS Letitia
Subject: RE: ERC FPS manual, MOU or compliance plan

Hi Letitia

1. I am not sure what a CME is? Can you please clarify?
2. The manual was written without realising the confidentiality requirements under MERFP Act (see from s79 on). So yes, the integrated messaging system (or INT-IM) across MMoL, Connect and FAIR was designed to show surety/contribution and amount requested by the scheme, amount paid, and amount outstanding but then we all realised this was confidential under MERFP Act and had very tight restrictions around sharing. So these messages are working but contain a lot of blanks because of these confidentiality provisions. This is why we get the spreadsheets because it is controlled release and more compliance with MERFP Act's requirements for info to only be shared so we can perform legislated functions assigned to us under MERFP Act.
3. The continuity document is attached (I almost attached it the first time and then thought: Too much detail! – Ha Ha!)
4. Point 18 is implemented via INT IMs (integration messages) between MMoL, FAIR and Connect. It could include INT IM's 1,8,9,10,11,12 and possibly more.

If you go into Connect, look at any mining or petroleum EA, you will be likely to find a list of INT-IMs at the bottom of the summary screen and you can get a feel for the data contained therein.

Just for your reference, (I found it very helpful), there is a list of all the different types of INT-IMs between MMoL, FAIR and Connect as they all contain different details. I take my access to this list very seriously!!! See if you can see it via this link:

<http://team:6002/ehp/esr/ere/ea/Digital-Futures/Shared%20Documents/Forms/AllItems.aspx?RootFolder=/ehp/esr/ere/ea/Digital-Futures/Shared%20Documents/Deployment/R11%20-%20ERC%20and%20Integration/Basecamp%20Documentation/Integration/Approved%20Tech%20Designs&FolderCTID=0x0120007FB371FFF667BC4CA545C96E6CAD941E&View=%7bf5BAEBDD-F242-4B19-A0CF-A82E3A9B46EB%7d>

Hope this helps!

Subject: RE: ERC FPS manual, MOU or compliance plan

Thanks Louise,

I have few questions I was hoping you may know the answers to:

- (1) Do you know if a CME document was developed for the Connect build? I have asked Digital Operations but they are yet to get back to me.

Also, I have noted item 43. in the FPS manual talks about the status of an EA.

- (2) I am assuming this is the part that is currently not working and it is a Connect issue?....

43. **Information about the status of an EA or SSMT will be available for viewing in the Financial Assurance Information Register and Connect** (individual holder records and the Daily Integrations Report). This includes the amount requested, the type of provision (surety versus pool) and the status of the lodgement.

- (3) The MOU: FPS also mentions in item 5. that there is another MOU about notification systems to DES, do you have a copy of this MOU?

5. **In addition to this MoU, another MoU will operate between the parties regarding Data access and operational issue rectification between the FAIR, MMOL, MERLIN (legacy) and DES Connect systems.** This MoU sets out the terms for how the three agencies will share information and support the administration of their respective online information systems.

- (4) The notification system is also mentioned. I am guessing this is Financial Assurance Information Register – intended to be integrated with Connect but actually isn't?

18. **The Scheme Manager will adopt notification systems to DES** (and DNRME where required) to advise on key steps including the status of any dealings such as lodgement, release, invoices, receipts and others as required.

Thanks

Letitia

Subject: RE: ERC FPS manual, MOU or compliance plan

Hi Letitia

I have attached the MoU and administrative manual with the Scheme Managers office (neither are on our policy register). There is also an [administrative manual](#) with DNRME which is particularly important for the roles and responsibilities of the small scale mining work (on the policy register). The [ERC transitional compliance strategy](#) is on the Compliance Support intranet page and the policy register.

Hope this helps.

Subject: ERC FPS manual, MOU or compliance plan

Hi Louise,

Trinity has been in contact with Jackie Mackay to try to get some more background info. She suggested asking you /Jade Watson / Mel Zillman....

Jackie said that there was a process documented in the FPS manual and MOU, as well as RRS attempted to do a compliance plan some under the FA and Rehab project and it was not supported by the BC directors as they felt it would be the role of the business and compliance centres to do this. Do you still have the FPS manual, MOU or compliance plan? If you do it would be great of you could send through so I can start to piece together all the background info.

thanks

Hi Hazel

Task 2 of 2 - Could you please update the status of all in-flight ERC decisions as per the attached spreadsheet. Letitia has provided the original spreadsheet, plus some follow up information however the follow up information does not include enough for us to filter and use. Suggest you make updates in the second one, in red, but use the first one for reference if that works? Happy to discuss though if you think there is a better way to do.

Again by Friday ideally please, but Monday would be ok too.

Thanks
Teale

To: ELLIS Letitia
Subject: RE: ERC FPS manual, MOU or compliance plan

Hi Letitia

1. I am not sure what a CME is? Can you please clarify?
2. The manual was written without realising the confidentiality requirements under MERFP Act (see from s79 on). So yes, the integrated messaging system (or INT-IM) across MMoL, Connect and FAIR was designed to show surety/contribution and amount requested by the scheme, amount paid, and amount outstanding but then we all realised this was confidential

under MERPF Act and had very tight restrictions around sharing. So these messages are working but contain a lot of blanks because of these confidentiality provisions. This is why we get the spreadsheets because it is controlled release and more compliance with MERPF Act's requirements for info to only be shared so we can perform legislated functions assigned to us under MERPF Act.

3. The continuity document is attached (I almost attached it the first time and then thought: Too much detail! – Ha Ha!)
4. Point 18 is implemented via INT IMs (integration messages) between MMoL, FAIR and Connect. It could include INT IM's 1,8,9,10,11,12 and possibly more.

If you go into Connect, look at any mining or petroleum EA, you will be likely to find a list of INT-IMs at the bottom of the summary screen and you can get a feel for the data contained therein.

Just for your reference, (I found it very helpful), there is a list of all the different types of INT-IMs between MMoL, FAIR and Connect as they all contain different details. I take my access to this list very seriously!!! See if you can see it via this link:
<http://team:6002/ehp/esr/ere/ea/Digital-Futures/Shared%20Documents/Forms/AllItems.aspx?RootFolder=/ehp/esr/ere/ea/Digital-Futures/Shared%20Documents/Deployment/R11%20-%20ERC%20and%20Integration/Basecamp%20Documentation/Integration/Approved%20Tech%20Designs&FolderCTID=0x0120007FB371FFF667BC4CA545C96E6CAD941E&View=%7bF5BAFBD0-F242-4B19-A0CF-A82E3A9B46EB%7d>

Subject: RE: ERC FPS manual, MOU or compliance plan

Thanks Louise,

I have a few questions I was hoping you may know the answers to:

1. Do you know if a CME document was developed for the Connect build? I have asked Digital Operations but they are yet to get back to me.

Also, I have noted item 43. in the FPS manual talks about the status of an EA.

2. I am assuming this is the part that is currently not working and it is a Connect issue?....

43. Information about the status of an EA or SSMT will be available for viewing in the Financial Assurance Information Register and Connect (individual holder records and the Daily Integrations Report). This includes the amount requested, the type of provision (surety versus pool) and the status of the lodgement.

3. The MOU: FPS also mentions in item 5. that there is another MOU about notification systems to DES, do you have a copy of this MOU?

5. In addition to this MoU, another MoU will operate between the parties regarding Data access and operational issue rectification between the FAIR, MMOL, MERLIN (legacy) and DES Connect systems. This MoU sets out the terms for how the three agencies will share information and support the administration of their respective online information systems.

4. The notification system is also mentioned. I am guessing this is Financial Assurance Information Register – intended to be integrated with Connect but actually isn't?

18. The Scheme Manager will adopt notification systems to DES (and DNRME where required) to advise on key steps including the status of any dealings such as lodgement, release, invoices, receipts and others as required.

Hi Gus,

Please find below draft email in response to DPP's request. Peter Thomas has requested that the response be emailed to DigitalOperations@des.qld.gov.au by COB today, Friday 17 January 2020.

Spreadsheet 3 has been updated as per our discussions this morning. You were correct – the standard ML EAs have been incorrectly allocated to BCC.

Please let me know if you would like me to make any adjustments to the draft email, or if you would like to discuss.

Thank you,

Kate

DRAFT EMAIL:

Peter,

In response to your request, please find attached completed spreadsheet 4. The classification for each of the EAs relevant to the MBC has been specified in column D. We have also noted in column G where the original business centre allocation was incorrect.

We have also reviewed spreadsheets 1, 2 and 3 in an effort to validate the information therein. Unfortunately, the only way to have confidence in the derived classifications is to manually check each and every permit. Due to the number of permits in each spreadsheet, this would take considerable time and resources to complete. We have therefore reviewed a selection of permits from each spreadsheet, and provide the following comments for your consideration. Where we have identified that certain data is incorrect, specific comments have been made in the relevant spreadsheet.

Spreadsheet 1

- Classifications appear to be correct, though not all permits have been checked.
- Business unit allocations **are not** all correct. It is unclear what information been used to determine these allocations.

Spreadsheet 2

- Classifications **are not** all correct.
- Business unit allocations **are not** all correct.

Spreadsheet 3

- Classifications appear to be correct, though not all permits have been checked.
- Business unit allocations **are not** all correct.

Happy to discuss further.

Regards

Gus

Subject: Permit "Classification" reporting: responses due Friday 17/01/2020

Importance: High

Good afternoon business centres (and apologies for sending this so close to the Christmas shutdown),
You are receiving this email because of a data improvement work package that is underway to improve the reporting for "Standard", "Variation", and "Site Specific" EAs currently in Connect.
Assistance is being sought from each of the assessment centres to help fill some gaps in the data, with responses required by Friday 17/01/2020.

Could you please ensure this message makes it to any relevant staff in your area who can help manage the process.

CONTEXT

The original build of the Connect system did not include any capability to report on the difference between Standard / Variation / Site Specific permits.

(I do appreciate that these terms more specifically refer to applications / conditions, but trust that you understand my simplified usage for this email)

In September 2018, the Connect Taskforce delivered a system enhancement that made this classification possible. However, due to the nature of the enhancement, it was only able to calculate the classification correctly when an application was actively being processed (either a brand new application or an amendment).

For pre-existing EAs in Connect that were not being amended (or were modified off-system, such as in the old Bridge spreadsheets), the classification remained uncalculated / unknown. The Digital Operations directorate (including both Support and Data & Spatial Analytics teams) have done some extensive analysis to identify these classification gaps and help fill them where possible. We are seeking assistance from the business centres to validate our work to-date, and to provide answers for a small subset of permits where we have not been able to identify the classification ourselves. The outcome of this work will allow the department to more quickly and reliably report on these statistics, when asked.

TASK

There are 4 tasks to consider. Only one of them requires proactive input from yourselves; the other 3 are validation activities only:

- ✓ **VALIDATE** where we have derived the classification from an earlier application in Connect (before the system could auto-calculate)
- ✓ **VALIDATE** where we have derived the classification from the Eligibility Criteria / Standard Condition responses (before the system could auto-calculate)
- ✓ **VALIDATE** where we have derived the classification using Ecotrack data
- ✓ **ADVISE** the classification where we have been unable to derive an answer ourselves

1. DERIVED FROM CONNECT APPLICATION

We determined the classification of 529 permits based on previous application data that had been processed in Connect (before the system enhancement existed to auto-calculate it). Please review and advise if you disagree with any of the decisions herein.

2. DERIVED FROM EC / SC RESPONSES

We determined the classification of 265 permits based on the responses to Eligibility Criteria and Standard Conditions in Connect (before the system enhancement existed to auto-calculate it). Please review and advise if you disagree with any of the decisions herein.

3. DERIVED FROM ECOTRACK

We determined the classification of 4,987 permits based on Ecotrack data (where the permit had not been further amended in Connect). Please review and advise if you disagree with any of the decisions herein.

4. UNKNOWN - ANSWER REQUIRED!

There are 128 residual EAs where we have not been able to determine the classification ourselves using the above logic.

For example, the permit may have been created via the old Bridge spreadsheets, so there is insufficient data in Ecotrack or Connect to confidently analyse.

Or, the permit may have migrated from Ecotrack with one classification, but then been subject to an amendment in Connect that could have potentially changed it.

In **Column D**, please specify the **Classification** for the EAs that are relevant to your business centre.

DUE DATE

We will be implementing the outcomes of this work package toward the end of January / early February 2020. As such, please ensure that all responses / feedback are provided back to

DigitalOperations@des.qld.gov.au by no later than **Friday January 17th**, to ensure your work is captured.

Please note: if it is subsequently identified that mistakes have been made during the classification process, it is possible to have them fixed via a support ticket. This gives you some flexibility and assurance in knowing that decisions made now are not forever set in stone, and we are able to account for some margin of error!

Thank you in advance for your cooperation and assistance,

The Digital Operations team

Hi Peter,

Please find the Mineral Business Centre response below.

From our discussion and your email, I understand spreadsheet number 4 to be most important. We have reviewed this spreadsheet and advise that the classification for each of the EAs relevant to the MBC has been specified in column D. We have also noted in column G where the original business centre allocation was incorrect.

We have also considered spreadsheets 1, 2 and 3 in an effort to validate the information therein. As we discussed the only way to have confidence in the derived classifications is to manually check each and every permit. Due to the number of permits in each spreadsheet, this would take considerable time and resources to complete and to date has not been done. We reviewed a selection of permits from each spreadsheet to give us insight into the likely confidence, and provide the following comments for your consideration. Where we have identified that certain data is incorrect, specific comments have been made in the relevant spreadsheet.

Spreadsheet 1

- The classifications appear to be correct.
- Business unit allocations contain identified errors, and we are not confident in the data.

Spreadsheet 2

- Classifications appear to contain errors, and we are not confident in the data. If you need more work on this one, please let me know.
- Business unit allocations contain identified errors, and we are not confident in the data.

Spreadsheet 3

- Classifications appear to be correct.
- Business unit allocations contain identified errors, and we are not confident in the data.

Happy to discuss further.

Regards

Gus

Hi Gus

Just sending this through so you know a fair amount of work has been done already, but I do need clarification on some things from Hazel. Hoping she is back today.

By tomorrow for your meeting, I expect the data will be cleansed with comments on MBC matters for the following

- Amounts checked based on records
- other checks completed as discussed (e.g. GEM entries, abandoned tenures, administration/liquidation)
- BC checks – MBC or BCC
- Missing entries based on a cross check of our records

This will leave the SSM matter unresolved only.

I'll have Hazel transfer to the sharepoint spreadsheet as comments as discussed in the last column for you to use/refer to in the meeting tomorrow.

Can discuss.

- **EPML04238116 (ML100106)**
- **EPPR04190216 (EPM18950, EPM8854, EPM12858, EPM11455, EPM26275)**

Moreton Resources Ltd and its subsidiaries entered voluntary administration on 10 June 2020 (see attached).

The Department of Environment and Science is undertaking work to progress a claim on the funds and needs to know the form of the security assurance held for **EPML04238116** and **EPPR04190216**.

Could you please confirm the amount and form of security assurance held for these environmental authorities.

Thank you in advance for your assistance.

Kind regards

Lisa White

Subject: Strategic SMT Papers - 28/29 November 2019 (Early Edition)

Hi all,

Please see attached the early edition of Strategic SMT papers. In lieu of the agenda being finalised, please see attached the merged quarterly compliance reports and forward plans that are to be reviewed prior to discussion at SMT on Thursday afternoon. These are the only papers for the meeting. Agenda to follow shortly.

Let me know if you have any questions.

Regards

Starsky Lino
