Re: CONTAMINATED SITES REGISTER

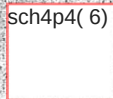

We are currently undertaking a validation process to ensure sites have been entered onto the Contaminated Sites Register correctly.

The attached sheet lists sites within your Council boundaries for which we require further information. If Council has no record of the Lot on Plan description for those sites missing this information, please provide the historical description and Parish and/or a map showing the site.

Would you please check these sites against your records and complete the attached schedule with the requested information.

Your assistance with this matter is appreciated.

Yours sincerely
