Rayna, I just rang Tess and was advised that she was on leave and you could help. This is a matter Tess had been dealing with.

Could you please have a look at the email below and the attachments and give me a call if it doesn't make any sense.

Regards,

Ken Carse**State Negotiator**

Tess, hi hope your xmas was good.

You probably thought you had heard the last of this! I couldn't recall where we left this with regards supplying the information to CSC and DSC's solicitor - were they going to contact you??

Also on the excel list you gave me for Cook it lists the Rossville land fill, which I took to be the Rossville dump but your map shows 3 mining leases and no dump?

165FTY1722	32085ROSSVILLE LANDFILL	N	ROSSVILLE-BLOOMFIELD R
165FTY1722	32085ROSSVILLE LANDFILL	N	ROSSVILLE-BLOOMFIELD R
165FTY1722	32085ROSSVILLE LANDFILL	N	ROSSVILLE-BLOOMFIELD R

Is the dump included in the above 3, if so which one? Is the dump shown on the map? Are the mining leases were on the spreadsheet or just included in the above?

Regards
 Ken

Hi Ken,

Sorry about not getting back earlier. The arrows on the map do not point to the notifiable activities, they are just pointing to the relevant lot/plan on the map. It's just something that Mapinfo does. The boxes I drew on the map just show the approximate location of the mining leases, which is where the notifiable activities would be occurring - landfill, petroleum product or oil storage and mine wastes.

I've attached the spreadsheets for Douglas and Cook Shire councils for you. There are no sites in Douglas or Cook SC listed on the Contaminated Land Register at this time. I've also attached a Word document which explains the alphabetical and numerical codes used in the report.

Please call or e-mail if you have any questions.

Regards
Tess

Tess, did you send the tables? And please note my question below.

Ken

Subject: RE: contaminated sites Cairns area.

If you can just do it for the LGAs of Cook and Douglas in Excel that would be great. ON the map you sent there are 3 notifiable activities, which are at the end of the arrows on the following tenures -

- 161 CP893403
- FTY1722 (just below ML3065)
- 37 B825 (end of the arrow is off the map)
- and it shows 3 MLs

Have I read the map correct?

Also:

Does your register tell you what they are for?

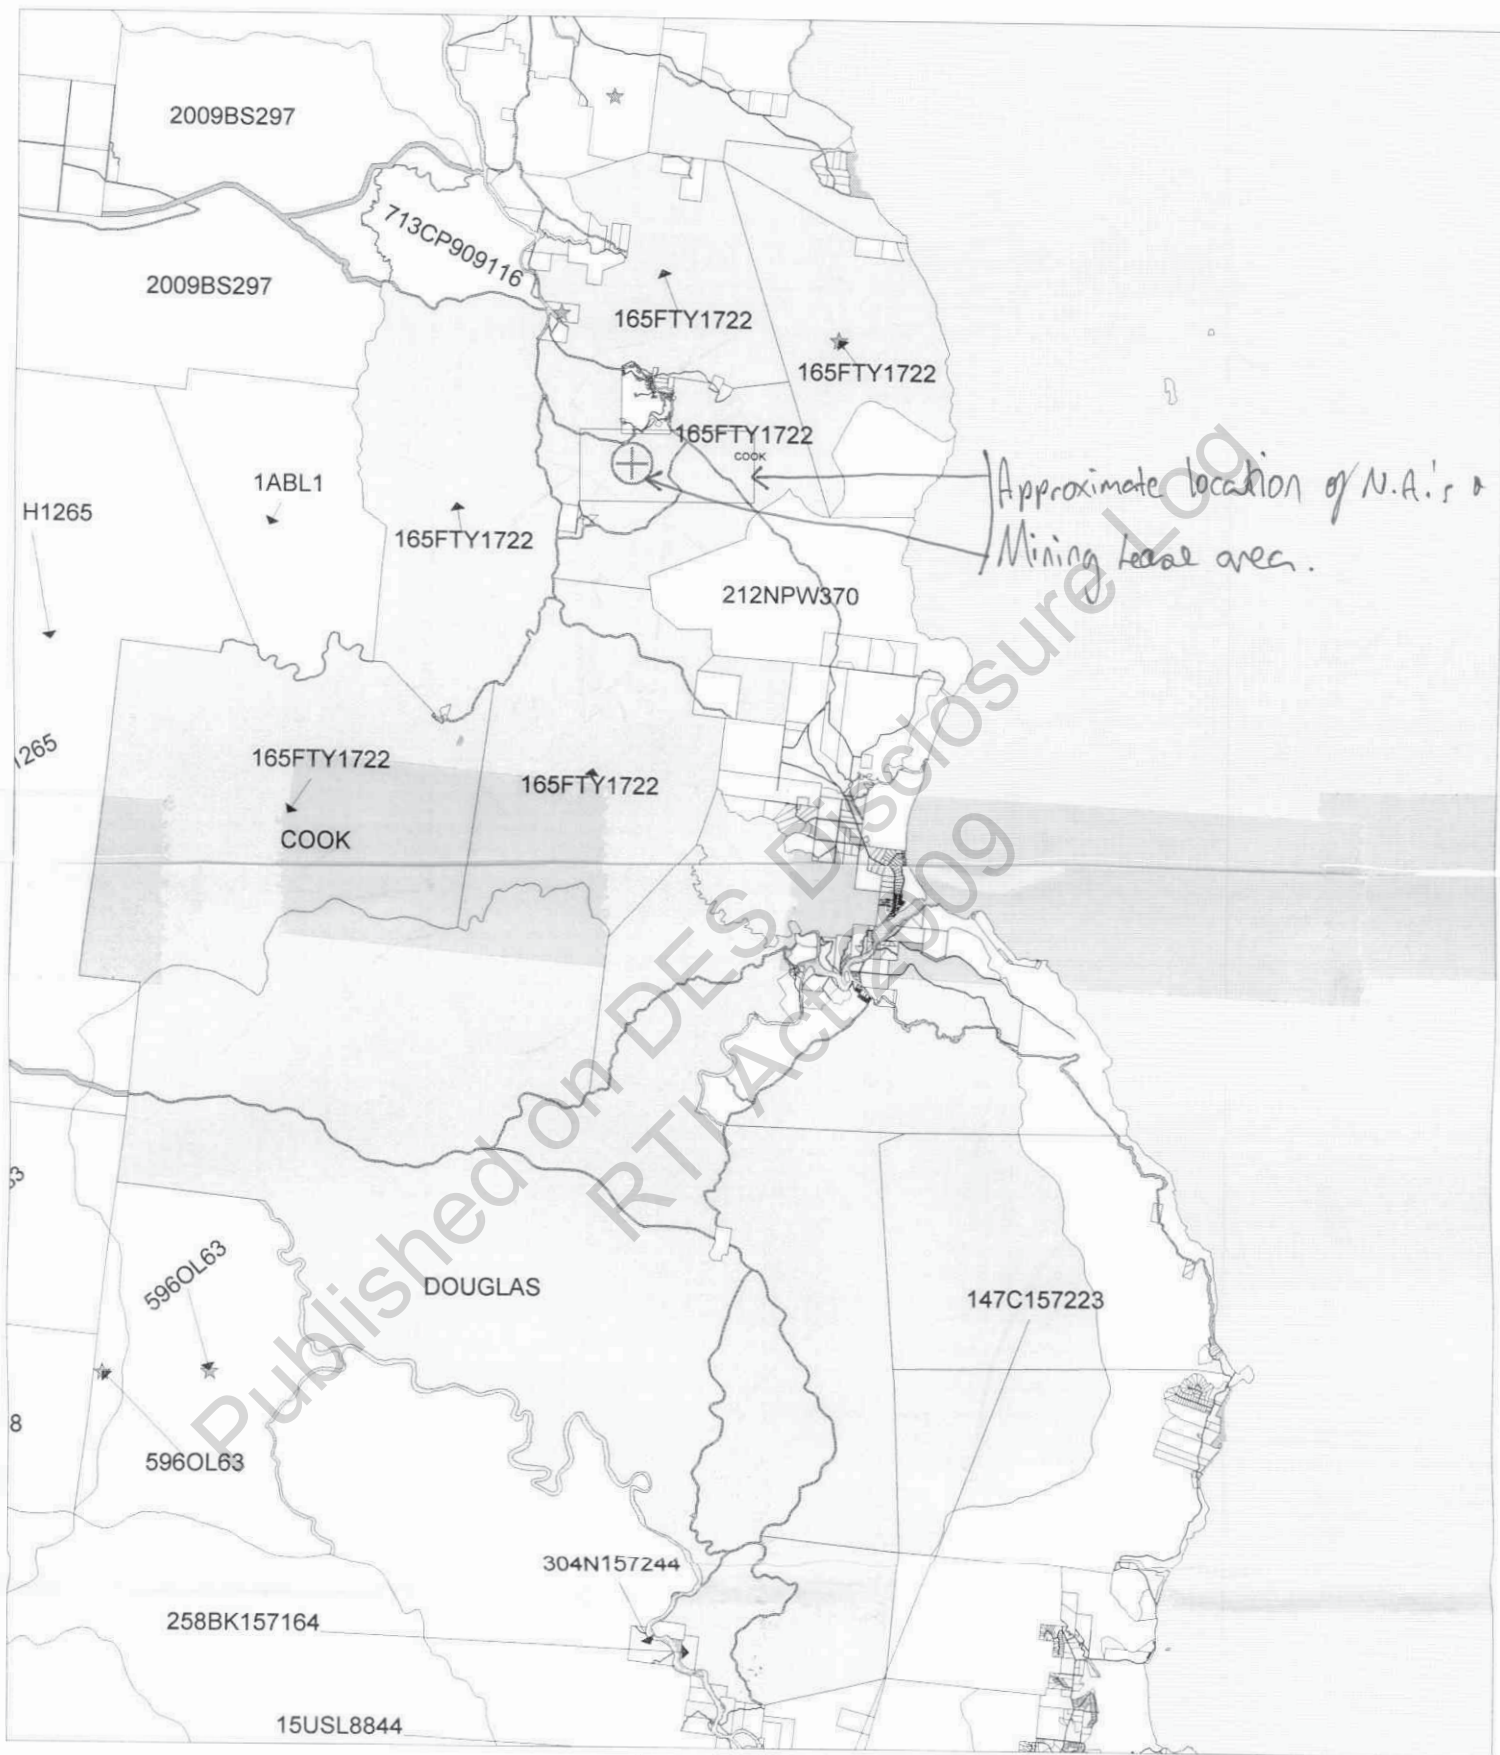

Will the Excel sheet explain what the activities are?

Regards
Ken

Mr John Kehl
QPWS Forest Management
PO Box 155
BRISBANE ALBERT STREET QLD 4002

Dear Mr Kehl

RE: Lot 165 on FTY1692 and Lot 165 on FTY1722 - Rossville Bloomfield Road, Rossville.

I refer to the above properties. Lot 165 on FTY1692 was notified to this Agency in 1997 and was listed on the old Contaminated Sites Register for the (then) prescribed purpose activity of landfill. It was legislatively transferred over to the Environmental Management Register (EMR) on 27 June 1998. Information supplied by Department of Natural Resources and Mines shows that this lot/plan description is incorrect. The correct lot/plan number is Lot 165 on FTY1722, which appears to have replaced L165/FTY1692.

Accordingly, L165/FTY1692 has been deleted from the EMR and L165/FTY1722 has been entered in its place. Please find attached a Notice of Decision Not to Record Land on the Environmental Management Register for L165/FTY1692 and a Notice of Land Listed on the Environmental Management Register for L165/FTY1722 for your records. Please do not hesitate to contact me on the above telephone number if you have any queries regarding this matter.

Yours sincerely

BRISBANE QLD 4000

Dear Madam/Sir

RE: Lot 165 on FTY1692 and L165 on FTY1722 - Rossville Bloomfield Road, Rossville.

I refer to the above properties. L165/FTY1692 was notified to this Agency in 1997 and was listed on the old Contaminated Sites Register for the (then) prescribed purpose activity of landfill. It was legislatively transferred over to the Environmental Management Register (EMR) on 27 June 1998. It has since been brought to our attention that this lot/plan description is incorrect, and that the correct lot/plan description is L165/FTY1722, which is the new property description for L165/FTY1692.

Therefore L165/FTY1692 has been deleted and L165/FTY1722 has been entered in its place. Please find attached a Notice of Decision Not to Record Land on the Environmental Management Register for L165/FTY1692 and a Notice of Land Listed on the Environmental Management Register for L165/FTY1722 for your records.

Please do not hesitate to contact me on the above telephone number if you have any queries regarding this matter.

Yours sincerely

Dear John,

NOTIFICATION REQUIREMENT FOR CONTAMINATED LAND
MDL'S 111 AND 112 AND COLLINGWOOD TIN PROJECT PJ 20139

I advise that in response to your letters on these tenements/projects of 5th August we have commissioned NSR Environmental Consultants to advise on whether notifiable activities are being carried out on the above tenements/projects and to prepare the Notification of Land form and accompanying submissions if required.

I will submit this information as soon as we have it available.

Please don't hesitate to call me if there are any queries regarding the project.

Yours sincerely,

Dear John,

RE: NOTIFICATION OF LAND COLLINGWOOD TIN PROJECT
PJ 20139 AND MDL's 111 AND 112

Please find attached a "Notification of Land" submission prepared for the Collingwood Joint Venture (North 50% and Acacia 50%) by NSR Environmental Consultants Pty. Ltd. This submission is in response to John Bywaters letter of 5-8-98.

We trust that the submission meets with your acceptance.

Yours sincerely,

Notification of Land (Mining and Petroleum Industries)

Section 118E & Section 118F Environmental Protection Act (1994)

The following information should be supplied by people providing notification to the Queensland Department of Environment of contaminated land or land used for a notifiable activity under Schedule 3 of the Environmental Protection Act 1994.

Essential Information

* Please complete all information. * Complete one form per lot

Date: 20 October, 1998

* Refer to the reverse side for information on how to complete this form

1. Local Government

COOKTOWN SHIRE COUNCIL

2. Information provided by

Name: DAVID BORTON

Contact phone no: 03-9684-4940

Organisation: ACACIA RESOURCES

Address: SOUTHGATE, IBM CENTRE

LEVEL 11, 60 CITY R Postcode 3006

SOUTHBANK, VICTORIA

3. Project name and tenure number(s)

Project Name: COLLINGWOOD TIN PROSPECT

Project N^o: PJ20139

Tenure N^o(s): MLS 2796, 3065, 3066

3067, 3068, 3069, 3070

MDL's 111, 112

Tenure

Exploration Permit, Mineral Development Licence,
Mining Claim, Mining Lease, Petroleum A to P,
Petroleum Lease, Pipeline Licence

4. Lot on Plan description of background tenure

Lot: 165

Plan: FTY 1722

Parish: MONK HOUSE

Please attach a BLINMAP * with location of notifiable activities or locations of land contamination.

Use separate forms for each lot.

Attached ☒

Please Tick

5. Location of background tenure

Local Property Name: AS ABOVE

Street Address: _____

Town/Suburb: _____

Postcode: _____

6. Name and address of background tenure holder

Name: DEPARTMENT OF PRIMARY INDUSTRIES

Street Address: (FORESTRY SERVICE)

Town/Suburb: 160 MARY ST, BRISBANE

Postcode: 4000 QLD

7. Area in square metres of background tenure

(this information is used as a cross-check on the land description details)

115,848 ha

8. Notification information (Refer to the reverse side of this form and Schedule 3 of the Environmental Protection Act 1994.)

Description of the land contamination or notifiable activity/ies for which the land is or has been used and the source/s of the suspected contamination.

(List all notifiable activities that the land has been used for, or locations of contamination, and provide details. Where possible provide the GPS co-ordinates of each activity or location of contamination, and the estimated area of land contamination where the area is greater than 0.5 ha.)

SEE SUPPORTING SUBMISSION

*Note a BLINMAP showing background land tenure is available from the Department of Natural Resources
