This notice requires you to submit an annual return for the previous year and pay the annual fee for the forthcoming year.

You are required to:

- complete and return the attached 'Annual Return' that covers the period from 21 Dec 2011 to 20 Dec 2012; and
- pay the annual fee of \$8,611.20² as shown on the attached invoice that covers the period from 21 Dec 2012 to 20 Dec 2013; or if you are eligible, submit the claim for a reduced annual fee and pay the reduced annual fee. For details on the eligibility criteria please refer to the information sheet: 'Paying a reduced annual fee' which is available from the department's website at www.ehp.qld.gov.au.

Please forward the completed 'Annual Return' and pay the annual fee to Permit and Licence Management at the address shown below by 21 Dec 2012.

¹ Permit includes licences, approvals, permits, authorisations, certificates, sanctions or equivalent/similar as required by legislation.

² These fees are included in the Federal Treasurer's Determination under Division 81 of A New Tax System (Goods and Services Tax) Act 1999. As such, the supplies are exempt from GST.

If you fail to pay the annual fee and submit the completed 'Annual Return' by the due date the administering authority may:

- suspend or cancel the permit; and will charge
- a late fee of \$110.40

Unpaid annual fees and late payment fees are recoverable as a debt payable to the administering authority. Where the activity is no longer being carried out, it is recommended that you contact the Department to discuss amending or surrendering your permit. Payment of the annual fee and submission of an annual return is required where an operator remains registered regardless of whether they are currently operating or not.

If you require more information, please contact Permit and Licence Management on the telephone number listed below.

Issued 21 November 2012

Please pay the attached invoice and forward your completed 'Annual Return' to:

3. Compliance

If you are paying a reduced annual fee, please note that it is an offence to pay this fee if you are not eligible for the reduction. The maximum penalty for non-compliance is \$2200.

You must comply with the requirements of this annual notice. If these requirements are not complied with the administering authority may:

- suspend or cancel your environmental authority
- charge a late fee of \$114.20.

Unpaid annual fees and late payment fees are recoverable as a debt payable to the administering authority.

As your environmental authority has taken effect the requirements of this notice must be met even if the activity to which the environmental authority relates is not being carried out. If the activity has ceased, an application to surrender or amend the environmental authority should be made. If the activity has ceased and the environmental authority has not been surrendered, annual fees will continue to apply⁵ and if not paid, will be recoverable as a debt. Information about surrenders and amendments is available at www.ehp.qld.gov.au.

If the activity has not permanently ceased, but will not be carried out for a period you may apply to suspend your environmental authority. If the suspension is approved, annual fees will not be payable for the period your environmental authority is suspended.

Applicant checklist

- ☐ Annual return signed and completed (all questions applicable are answered)
- ☐ Attachment 1—Reduced annual fee documentation attached (if applicable)
- ☐ Annual fee paid or enclosed

Attachment 1: Claiming a reduced annual fee

This appendix is to be used to claim a reduced annual fee under sections 121 to 127 of the Environmental Protection Regulation 2008 and is to be attached to the annual return for an environmental authority.

1. Eligibility for a reduced annual fee

Refer to the information sheet Paying a Reduced Annual Fee (EM264) for details of the eligibility criteria for claiming a reduced annual fee and the information to accompany the annual return before completing this appendix.

A reduced annual fee is eligible if all of the following are met.

- ☐ There has been no **compliance action event** against the environmental authority in the past 3 years (or for the duration of the authority if it is less than 3 years old).
- ☐ No holder of the environmental authority has had a **disqualifying event** in the past year.
- ☐ The reduced annual fee will be paid by the due date.
- ☐ The annual return will be completed and submitted by the due date.
- ☐ All information required under section 2 (below) will be submitted by the due date.

2. Criteria for a reduced annual fee

I/We are claiming a reduced annual fee for the following criteria and have attached the documents as required.

- ☐ **All holders of the environmental authority are approved partners of ecoBiz—10% discount**

INSERT DATE OF MOST RECENT APPROVAL

- ☐ **The environmental authority is operating under an approved environmental management system (EMS)—20% discount**

- ☐ I/We operate under an EMS certified by an accredited body as being compliant with AS/NZ ISO: 14001: 2004 Environmental Management Systems.

AND

- ☐ I/We have included a statutory declaration, completed by an **appropriately qualified person**, verifying that:

- all the activities carried out under this environmental authority were carried out in accordance with the prescribed EMS last year; and
- I am complying with the conditions of the environmental authority.

- ☐ **Reduced emissions profiled—20% discount**

- ☐ I/We have included a statutory declaration, completed by an **appropriately qualified person**, verifying that:
 - the relevant activity, or the activity with the highest AES, has an **emissions score** that is at least 25% less than the **emissions score** stated to apply for the activity under the environmental emission profile.
 - the data used to calculate the **emissions score** for the relevant activity is accurate and has been obtained by a method appropriate for the type of activity.

Declaration

Note: There are significant penalties under the *Environmental Protection Act 1994* for supplying false and/or misleading information that will apply in relation to claiming reduced annual fees.

- I/We, being the holders identified in question 2, acknowledge that all information supplied on or with this annual return may be made available upon request, subject to the provisions of the *Right to Information Act 2009* and the *Evidence Act 1977*.
- I am the holder of or the appointed signatory for the environmental authority.
- I am aware that under section 480 of the *Environmental Protection Act 1994*, it is an offence to knowingly give the administering authority information that I know is false, misleading or incomplete in any material particular.
- I have supplied all of the required information.

Additional explanation of requirements for claiming a reduced annual fee

Definition of compliance action event

A **compliance action event**, for the holder of a relevant authority, means any of the following directly relating to an activity carried out or a thing omitted to be done under the authority:

- (a) the serving of an infringement notice, under the *State Penalties Enforcement Act 1999*, on the holder for an offence
- (b) the issuing of an environmental protection order to the holder
- (c) the holder:
 - (i) has voluntarily submitted a draft transitional environmental program
 - (ii) is acting under an approved transitional environmental program
 - (iii) is required to prepare a transitional environmental program, or
 - (iv) has, under section 350 of the EP Act, given the administering authority a program notice
- (d) the issue of a cost recovery notice to the holder unless—
 - (i) the amount claimed under the notice has been fully paid; or
 - (ii) the notice has been withdrawn or has otherwise stopped having effect
- (e) the holder has been issued with a direction notice under section 363B of the EP Act and:
 - (i) the holder complies with the notice, or
 - (ii) a proceeding for an offence against section 363E of the EP Act has not started
- (f) a proceeding for an environmental offence or an offence under section 363E⁶, 363I⁷ or 363L⁸ of the EP Act (a notice offence), is started or continued against the holder and has not finished
- (g) the holder is convicted of an environmental offence or a notice offence.

Guidance

If a suitable operator has two sites (e.g. Site A and Site B) and two separate environmental authorities, then a compliance event on Site A will not affect access to the discounts for the annual fee on Site B. If both Site A and Site B are licensed under a single environmental authority, a compliance action event at either site will render the suitable operator or environmental authority holder ineligible for a reduced annual fee.

Criteria for appropriately qualified person

An appropriately qualified person must be an independent third party who is not an employee of the holder of the authority.

They must also be a member of one of the following organisations as set out in schedule 8 of the Environmental Protection Regulation 2008:

- Australasian Radiation Protection Society
- Australian Institute of Agricultural Science and Technology
- Australian Institute of Geoscientists
- Australian Society of Soil Science
- Engineers Australia
- Environmental Health Australia
- Environment Institute of Australia and New Zealand
- Institute of Explosives Engineers
- Institutions of Chemical Engineers Australia

- Institute of Engineering and Mining Surveyors Australia
- Planning Institute of Australia
- South Pacific Environmental Radioactivity Association
- The Australian Institute of Mining and Metallurgy
- The Institution of Surveyors Australia
- The Royal Australian Chemical Institute

For the approved EMS discount, the appropriately qualified person should have demonstrated experience and qualifications that relate to the development and operation of environmental management systems, and the assessment of compliance with the conditions of a development approval or an environmental authority.

For a lower emissions score an appropriately qualified person (in chemical, soil, water or air quality science) should have knowledge of, and experience in, interpreting and analysing emissions monitoring data.

Information on the emission score

The emissions score for a relevant activity, means the emissions score component of the aggregate environmental score (AES) for the activity. The AES was calculated by the administering authority and is scheduled in the Environmental Protection Regulation 2008.

The AES is made up of two components:

- the emissions score; and
- the site attributes score.

The emissions score is the average annual emissions to air, land and water, and a detailed breakdown of contaminants and volumes is provided for each ERA on the department's website www.ehp.qld.gov.au

Data should be based on the annual average emissions for each contaminant in order to accommodate seasonality and other fluctuations. It does not matter how the emissions reduction is achieved or how many contaminants contribute to the overall reduction.

Data collection should be consistent with the guidelines and methodologies contained in:

- Air Quality Sampling Manuals and Water Quality Sampling Manuals prepared by the Queensland Government which are available on the department's website www.ehp.qld.gov.au
- Annual reporting data from the National Pollutant Inventory for the previous reporting year.

¹ The Department of Environment and Heritage Protection is the administering authority under the *Environmental Protection Act 1994*.

² A failure by the administering authority to give this notice 20 business days before each anniversary day for the environmental authority does not invalidate or otherwise affect the validity of the notice.

³ These fees are included in the Federal Treasurer's Determination under Division 81 of *A New Tax System (Goods and Services Tax) Act 1999*. As such, the supplies are exempt from GST.

⁴ This is the publication number, which can be used as a search term to find the latest version of the publication at www.ehp.qld.gov.au.

⁵ Annual fees will apply as applicable under the regulation. Fees may not be applicable for all activities.

⁶ Section 363E (Offence not to comply with a direction notice).

⁷ Section 363I (Offence not to comply with clean-up notice).

⁸ Section 363L (Obstruction of recipient complying with notice).

**Annual Return
Registration Certificate**

Section 320 of the EP Act imposes a duty on the holder of a Registration Certificate to report serious or material environmental harm caused or threatened in the carrying out of an activity unless that harm is specifically authorised under a Development Approval or Code of Environmental Compliance.

Please do not submit an annual report, required by a condition of an DA or Code of Environmental Compliance, with this annual return. Annual reports are to be stored for viewing upon request.

Monitoring data that has been submitted electronically to the Point Source Data Base in accordance with a written agreement with the department does not need to be resubmitted.

All reports must be held in the same place and be available for inspection by the administering authority during business hours. You must forward the reports on request or when the Registration Certificate has been surrendered or cancelled.

9. Since your last annual return, have you fully complied with the conditions of your Development Approval or Code of Environmental Compliance and your general environmental duty?

☒ YES

☐ NO → For each condition of the DA or Code of Environmental Compliance with which the holder has not complied, please attach the following

- a) a statement of whether or not the non-compliance/incident has been previously reported;
- b) a statement describing the non-compliance/incident including photographs where appropriate;
- c) a statement describing the environmental impacts resulting from the non-compliance/incident;
- d) a statement describing the actions taken to repair any damage to the environment resulting from the non-compliance/incident.

☐ Tick to indicate that the required statements are attached

10. Does a condition of your Development Approval or Code of Environmental Compliance require you to carry out any monitoring and/or prepare reports on the activities for which you hold a Registration Certificate?

☐ YES

☒ NO → Go to question 15.

11. Do you provide reports directly to the point source database?

☐ YES → Go to question 16, if no other monitoring is required to be undertaken.

☐ NO

12. Has all of the necessary environmental monitoring been carried out and all the reports prepared in accordance with your Development Approval or Code of Environmental Compliance?

☐ YES

☐ NO → Provide details below explaining why this has not occurred. If you require more space, attach additional information.

☐

Please do not submit the report(s) with this annual return - fill out the information below. If you require more space, attach additional information.

14. Has the monitoring that has been carried out shown any exceedance of the environmental limits set in the conditions of your Development Approval or Code of Environmental Compliance?

- ☐ YES → Please attach a copy of the notification of the exceedance that you gave to the administering authority.
- ☐ NO

15. Is this return for ERA 57 - Regulated waste transport?

- ☐ YES → Go to Question 16.
- ☒ NO → Go to Question 18.

16. Have the details of your waste vehicles changed from the list provided in the Annual Notice?

- ☐ YES → Complete table below including the details of all vehicles to be covered by this Registration Certificate. Attach additional information if required.
- ☐ NO

Table 2 - Waste Vehicle Details

Status - existing, new, removed	Type of vehicle e.g. tanker, truck	Make of vehicle	Year of manufacture	Vehicle registration number

Note: ERA 57 - Regulated waste transport contains three thresholds, 57-(2a), 57-(2b) and 57-(2c). These thresholds represent the number of vehicles that a holder of a Registration Certificate may operate and the annual fees change according to the threshold. If the number of vehicles listed on your Registration Certificate falls above or below your listed activity you are required to amend your Registration Certificate.

17. The fee for ERA 57 - Regulated waste transport is based on the number of vehicles on your Registration Certificate. If you increase or decrease the number of vehicles, this may result in a change to the fee payable. Where a change in the number of vehicles has changed the ERA threshold which applies, your Registration Certificate will be amended. Please tick the boxes below to signify your agreement to this action being taken by the administering authority on the basis of the information you have provided in this annual return.

The fees payable are: ERA Threshold 57-(2a) Regulated waste transport 1 to 5 vehicles \$1545.6, 57-(2b) Regulated waste transport 6 to 35 vehicles \$4636.8, 57-(2c) Regulated waste transport > 36 vehicles \$9273.6.

- ☐ I agree to amendments to my Registration Certificate to reflect the change in accordance with the number of vehicles listed in this return and understand that this may change my obligations under the Code of Environmental Compliance.
- ☐ I have paid a reduced/increased fee for the coming year in accordance with the number of vehicles listed in this return.

Appendix A: Claiming a reduced Annual Fee

This appendix is to be used to claim a reduced annual fee under sections 121-127 of the *Environmental Protection Regulation 2008* and is to be attached to the annual return for a Registration Certificate or Environmental Authority (the authority). Refer to the *Information Sheet: Paying a reduced annual fee* for details of the eligibility criteria for claiming a reduced annual fee and the information to accompany the annual return before completing this appendix.

1. Eligibility for a reduced annual fee

I am eligible to claim a reduced annual fee as I meet all the following:

- ☐ in the 3 years immediately before this annual return and fee is due (or for the duration of the authority if it is less than 3 years old), no compliance action event (see section 3) has occurred for this authority;
- ☐ the ERA has an aggregate environmental score (AES);
- ☐ the ERA is administered by the Department of Environment and Heritage Protection (EHP);
- ☐ the reduced annual fee will be paid by the due date;
- ☐ the annual return will be completed and submitted by the due date;
- ☐ I am eligible under one or more of the criteria in section 2; and
- ☐ I have attached the documentation required in section 2.

2. Criteria for the reduced annual fee claimed

I am claiming a reduced annual fee for the following criteria and have attached the documents as required:

- ☐ **Approved partner (ecoBiz) - 10% discount**
 - ☐ a copy of the letter from EHP confirming status as an ecoBiz partner.
- ☐ **Approved environmental management system (EMS) - 20% discount**
 - ☐ I operate under an EMS certified by an accredited body as being compliant with ASNZ ISO: 14001: 2004 Environmental Management Systems.
 - ☐ I have included a statutory declaration, completed by an appropriately qualified person (see section 4), verifying that-
 - All the activities carried out under this Registration Certificate were carried out in accordance with the prescribed EMS last year; and
 - I am complying with the conditions of the authority.

☐

☐ **Reduced emissions profile - 20% discount**

- ☐ I have included a statutory declaration, completed by an appropriately qualified person (see section 4), verifying that-
- The relevant activity, or the activity with the highest AES, has an emissions score (see section 5) that is at least 25% less than the emissions score stated to apply for the activity under the environmental emission profile; and
 - The data used to calculate the emissions score (see section 5) for the relevant activity is accurate and has been obtained by a method appropriate for the type of activity.

Declaration

- I do solemnly and sincerely declare that the information provided is true and correct to the best of my knowledge. I understand that it is an offence under section 480 of the *Environmental Protection Act 1994* to give to the administering authority, or an authorised person, a document containing information that I know is false, misleading or incomplete in a material particular.
- I understand that all information supplied on or with this application form may be disclosed publicly in accordance with the *Right to Information Act 2009* and the *Evidence Act 1977*.

Additional Explanation of Requirements for Claiming a Reduced Annual Fee

Definition of compliance event

A compliance action event, for the holder of a relevant authority, means any of the following directly relating to an activity carried out or a thing omitted to be done under the authority-

- (a) the serving of an infringement notice, under the *State Penalties Enforcement Act 1999*, on the holder for an offence;
- (b) the issuing of an environmental protection order to the holder;
- (c) the holder-
 - (i) has voluntarily submitted a draft transitional environmental program; or
 - (ii) is acting under an approved transitional environmental program; or
 - (iii) is required to prepare a transitional environmental program; or
 - (iv) has, under section 350 of the *Environmental Protection Act 1994* (EP Act), given the administering authority a program notice;
- (d) the issue of a cost recovery notice to the holder unless-
 - (i) the amount claimed under the notice has been fully paid; or
 - (ii) the notice has been withdrawn or has otherwise stopped having effect;
- (e) the holder has been issued with a direction notice under section 363B of the EP Act and-
 - (i) the holder complies with the notice; or
 - (ii) a proceeding for an offence against section 363E¹ of the EP Act has not started;
- (f) a proceeding for an environmental offence or an offence under section 363E¹, 363I² or 363L³ of the EP Act (a notice offence), is started or continued against the holder and has not finished;
- (g) the holder is convicted of an environmental offence or a notice offence.

If a registered operator has two sites (e.g. Site A and Site B) and two separate Registration Certificates or Environmental Authorities, then a compliance event on Site A will not affect access to the discounts for the annual fee on Site B. If both Site A and Site B are licensed under a single Registration Certificate or Environmental Authority, a compliance action event at either site will render the registered operator or Environmental Authority holder ineligible for a reduced annual fee.

Criteria for appropriately qualified person

An appropriately qualified person must be an independent third party who is not an employee of the holder of the authority.

They must also be a member of one of the following organisations as set out in schedule 8 of the *Environmental Protection Regulation 2008*:

- Australasian Radiation Protection Society
- Australian Institute of Agricultural Science and Technology
- Australian Institute of Geoscientists
- Australian Society of Soil Science

¹ Section 363E (Offence not to comply with a direction notice).

² Section 363I (Offence not to comply with clean-up notice).

³ Section 363L (Obstruction of recipient complying with notice).

For the approved EMS discount, the appropriately qualified person should have demonstrated experience and qualifications that relate to the development and operation of environmental management systems, and the assessment of compliance with the conditions of a Development Approval or an Environmental Authority.

For a lower emissions score an appropriately qualified person (in chemical, soil, water or air quality science) should have knowledge of, and experience in, interpreting and analysing emissions monitoring data.

Information on the emissions score

The emissions score for a relevant activity, means the emissions score component of the aggregate environmental score (AES) for the activity. The AES was calculated by the department and is scheduled in the *Environmental Protection Regulation 2008* (next to the environmentally relevant activity (ERA) definitions in Schedule 2, 5 and 6).

The AES is made up of two components:

- the emissions score; and
- the site attributes score.

The emissions score is the average annual emissions to air, land and water, and a detailed breakdown of contaminants and volumes is provided for each ERA on the department's website at www.ehp.qld.gov.au.

Data should be based on the annual average emissions for each contaminant in order to accommodate seasonality and other fluctuations. It does not matter how the emissions reduction is achieved or how many contaminants contribute to the overall reduction.

Data collection should be consistent with the guidelines and methodologies contained in:

- Air Quality Sampling Manuals and Water Quality Sampling Manuals prepared by the Queensland Government, which are available on the department's website at www.ehp.qld.gov.au.
- Annual reporting data from the National Pollutant Inventory for the previous reporting year.
