4/10/2016	0800hr	Dan Gleeson Memorial Gardens	Adrian Gurra, Elizabeth Chinnappa	
#####	1500hr	Dan Gleeson Memorial Gardens	Bradley Finchbeck, Dinouk Perera	
#####	0900hr	Dan Gleeson Memorial Gardens	Adrian Gurra, Elizabeth Chinnappa	Bats appeared to be quite active, flying between roosts.
#####	1000hr	Dan Gleeson Memorial Gardens	Elizabeth Chinnappa	Bats appeared to be quite active, flying between roosts. Found 1 dead baby bat and a dead female (possibly died while giving birth, young's head can be seen)
#####	0645hr	Dan Gleeson Memorial Gardens	Adrian Gurra	
#####	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	Rain previous night.
#####	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	
#####	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	
3/11/2016	0645hr	Dan Gleeson Memorial Gardens	Adrian Gurra	Arrived at approximately 0645hr. Noticed that the bats were using roost site to the left of main gate. Bats had not previously been in this area of the park. Found 6 bats at the base of the tree hanging from the trunks and low hanging branches. Also one juvenile clinging to chain wire fence. No dead bats were located during inspection.
4/11/2016	0800hr	Dan Gleeson Memorial Gardens	Dinouk Perera, Ren Bone	The flying foxes were still using the roost sites to the left of the main gate. There were no flying foxes seen at the base of trees or on low hanging branches, and no flying foxes were seen on the fences or on the ground. No dead flying foxes were detected during the assessment.
8/11/2016	1030hr	Dan Gleeson Memorial Gardens	Ainslie Langdon, Ren Bone	Two deceased flying foxes were found. Two juveniles were found at the base of trees. NQ Wildlife carers were contacted and were coming to collect the bats following our departure. Ren Bone spoke with gardeners who informed her that they had been collecting and burying deceased animals. Animals in trees appeared flighty and stressed - easily disrupted by our presence.
#####	0900hr	Dan Gleeson Memorial Gardens	Tony Frisby	The flying foxes were still using the roost sites. There were no flying foxes seen at the base of trees or on low hanging branches, no dead
#####	0800hr	Dan Gleeson Memorial Gardens	Tony Frisby	Bats appeared to be quiet. Found 1 dead baby bat and seen one young black low in tree
#####	0800hr	Dan Gleeson Memorial Gardens	Tony Frisby, Arnaud Gourret	Bats undisturbed, with similar spread as last survey. Small number extended to bamboo patch NE of ponds. Three adults dead near ponds (2 red/ 1 black) + one black dead at foot of tree.
#####	0900hr	Dan Gleeson Memorial Gardens	Arnaud Gourret	Fairly quiet, undisturbed. No movement of population, decreased number in bamboo patches NE of ponds. 1 dead red adult on the pond waterfall, 1 dead black adult on ground at the far N side of park, and 1 live juvenile on ground at the waters edge- drinking.
#####	0900hr	Dan Gleeson Memorial Gardens	Arnaud Gourret	Undisturbed with no changes in abundance and extent of population. Quite active and noisy- particularly around the ponds (garden carers cleaning guano with machinery). 1 juv black and 1 adult black dead (both on ground) as well as an adult red hanging from a tree.
#####	0930hr	Dan Gleeson Memorial Gardens	Arnaud Gourret	No discernable change in population size. No new fatalities.
#####	0800hr	Dan Gleeson Memorial Gardens	Arnaud Gourret	Fairly active, flying and screaming. 0 bats in bamboo patch. 3 juvenile black dead on ground at NE corner of park. 1 dead red on ground just south of main pond and one more red hanging dead from low branch.
#####	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	Undisturbed, no dead bats found
#####	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	Undisturbed, no dead bats found
1/12/2016	0930hr	Dan Gleeson Memorial Gardens	Adrian Gurra	One dead bat found in late stages of decomposition. Spoke with a female employee of Townsville City Council who was on site conducting a count of the bats. Employee had not seen any dead or orphaned bats.
2/12/2016	0900hr	Dan Gleeson Memorial Gardens	Adrian Gurra	Undisturbed, no dead bats found
5/12/2016	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	Undisturbed, no dead bats found
6/12/2016	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	One adult red flying fox found under large trees to the right of the main gate. The flying fox was found amongst the leaf litter and appeared emaciated and weak. NQ Wildlife carers were contacted regarding the flying fox.
7/12/2016	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	Undisturbed, no dead bats found
9/12/2016	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	One infant/juvenile bat found at the base of a large tree. Animal appeared to be in good health. Pictures taken of bat.
#####	1200hr	Dan Gleeson Memorial Gardens	Adrian Gurra	One dead bat found on grass lawn, 2-3 days of decomposition. Pictures were taken of the animal.
#####	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	One infant/juvenile bat found at the base of a large tree. Animal appeared to be in good health. Pictures taken of bat.
#####	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	Undisturbed, no dead bats found
#####	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	Undisturbed, no dead bats found. Rain previous night.
#####	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	Mostly undisturbed, some flying between different roost sites/trees. No dead bats found.
#####	0700hr	Dan Gleeson Memorial Gardens	Adrian Gurra	Undisturbed, one dead bat found - appeared to be an adult red flying fox. Pictures taken.
