Dear Kim

Re: **Woodford Motor Body Works**
29 Durundur Street Woodford

917
W3254

Further to your enquiry regarding the type of activities conducted at the above described premises, the following information has been obtained by Council.

sch4p4(6) Personal information the owner of the property, advises that there are two underground storage tanks on site. Both tanks were installed as 1000 gallon tanks. One tank was for the storage of petrol, and the second tank was for the storage of diesel.

There was no evidence or information on chemical storage or metal treatment or coating at that address.

Should further information be required concerning this matter, please contact Council's Environment, Development and Local Laws Unit as above referenced.

Yours faithfully

ROYCE JACKSON
MANAGER ENVIRONMENT, DEVELOPMENT & LOCAL LAWS

Dear sch4p4(6) Personal information

I am currently checking the information we have on the Environmental Management Register. Please find below a query regarding a site in Caboolture Shire. It would be appreciated if you could answer this.

Lot 917 on W3254

Woodford Motor Body Works, 29 Durundur St, Woodford

This site was notified as having chemical/fuel storage. Could you please advise whether such activities have indeed taken place on the site, as defined below. It would be helpful if you could provide volumes, types etc of substances.

7. Chemical storage (other than petroleum products or oil under item 29)—storing more than 10 t of chemicals (other than compressed or liquefied gases) that are dangerous goods under the dangerous goods code.
29. Petroleum product or oil storage—storing petroleum products or oil—
 - (a) in underground tanks with more than 200 L capacity; or
 - (b) in above ground tanks with—
 - (i) for petroleum products or oil in class 3 in packaging groups 1 and 2 of the dangerous goods code—more than 2 500 L capacity; or
 - (ii) for petroleum products or oil in class 3 in packaging groups 3 of the dangerous goods code—more than 5 000 L capacity; or
 - (iii) for petroleum products that are combustible liquids in class C1 or C2 in Australian Standard AS 1940, 'The storage and handling of flammable and combustible liquids' published by Standards Australia—more than 25 000 L capacity.

If any other notifiable activities have occurred on the site, could you also please advise of these. For example perhaps spray painting occurred, as defined below.

23. Metal treatment or coating—treating or coating metal including, for example, anodising, galvanising, pickling, electroplating, heat treatment using cyanide compounds and spray painting using more than 5 L of paint per week (other than spray painting within a fully enclosed booth).

Your assistance with this matter is greatly appreciated. If you have any inquiries, please feel free to contact me.

Yours sincerely
