Hi there,

I'm assisting my client with the purchase of the above property which we have under contract and are undertaking our due diligence on the site.

As per attached we are aware of the site's inclusion on the EMR/CLR register and understand it is due to the previous use of the site as a service station with underground fuel tanks.

Is it possible to obtain any more information or records with regard to this property and its inclusion of the registers?

Thank you in advance.

Regards,

This response relates to a search request received for the site:
Lot: 8 Plan: SP195573

SEARCH RESULT

The site you have searched is a lot resulting from the amalgamation of the following sites, which are included on the Environmental Management Register (EMR) or the Contaminated Land Register (CLR), as indicated below. Further details for these sites are available by contacting this Agency via email: emr.clr.registry@des.qld.gov.au

Lot Plan

6	RP24677	EMR
2	RP59000	EMR
7	RP24677	EMR
1	RP59000	EMR
8	RP24677	EMR

ADDITIONAL ADVICE

All search responses include particulars of land listed in the EMR/CLR when the search was generated. The EMR/CLR does NOT include:-

1. land which is contaminated land (or a complete list of contamination) if DES has not been notified
2. land on which a notifiable activity is being or has been undertaken (or a complete list of activities) if DES has not been notified

Good morning sch4p4(6)

Please find attached additional search results for the Base Parcels (BP).

I can confirm the original notification was from Council and Lot 8 SP195573 is the child parcel of Base Parcels (BP) Lots 6-8 RP24677 and Lots 1-2 RP59000. The BPs were originally listed on the Environmental Management Register (EMR) for notifiable activity 34 – Service Station and entered on the register on 03/08/1994. With a subdivision, the child parcel remains on the register for the same notifiable activity.

Land is listed on the EMR if certain types of activities (known as notifiable activities) have been, or are being, carried out on the land, or if the land is contaminated land. Contaminated land is land which is affected by a hazardous contaminant. When land is listed on the EMR for a notifiable activity, it is an indication that the land is likely to be contaminated but it does not mean it needs to be cleaned up or is not suitable for its current land use. This will depend on the nature, extent and risks of any contamination on the land, which can be determined by engaging a suitably qualified person to carry out a site investigation.

To release further information or documentation you can action a Right to Information(<https://www.rti.qld.gov.au/>). We can't guarantee the quality and/or quantity of historical information stored.

Kind regards
