Re: Lots 1-3/RP912943 - Newton

The Environmental Protection Agency (EPA) has received information the Toowoomba Shire Council regarding the above sites. Information provided states that these sites been used for the notifiable activity Petroleum product or oil storage. Currently lot 1 & 3 are listed on the register for Petroleum product or oil storage.

Under Schedule 2 of the *Environmental Protection Act 1994*, Petroleum product or oil storage is a notifiable activity. Sites on which a notifiable activity has occurred must be listed on the Environmental Management Register (EMR). This is largely a land-planning tool, to prevent land that has been used for these activities being inappropriately developed for a more sensitive use, ie. industrial to residential.

I am going through a process of validating sites for the Environmental Management Register (EMR). In order to clarify this matter and determine whether or not these sites should be listed or removed off the EMR, we are seeking information from you records with regard to the land use (past/present) and any notifiable activities, which may have occurred on the below sites.

Could you please confirm which lots contain the fuel storage, what type of fuel and if they are stored in above or underground tanks? I have attached a list of notifiable activities as well as an information sheet on management of contaminated land in Queensland for your information.

Thank you for your assistance. If you have any queries regarding this matter, please do not hesitate to contact me on (07) 3227 7370.

Yours sincerely

TO WHOM IT MAY CONCERN

RE: Conversation 2.30pm 11th November 2002

In the early 1960's we had a petrol and diesel underground storage tanks. Both tanks held approximately 10 000 litres each. They were both sited together as per the attached map.

We used this fuel to service our own vehicles and until the late 70's both tanks were removed. The area cleaned and the fuel was purchased externally.

Thank-you

Hi Paul,

We have made inquiries regarding the sites mentioned in your email dated 4/3/08. We hope this helps.

EMR SITES.

Lot 3 RP 912943. EMR Site Id. 25800. 256-264 Herries Street, Newtown is known as Orfords Refrigeration and conducts a large scale operation. They are in possession of an ERA No. 10152/EA25B (Spray Painting) and have previously held a Flam Licence No. EH 3276/FLA for which we have no quantity details. There is no doubt that EMR site No. 25800 should show at least a NA23 and possibly a NA29.
