27/2/91

Dear Sir,

Re: Authorities to Prospect 4199M and 4200M

Further to your letter of February 13th, concerning the captioned Authorities to Prospect, please be advised that all relevant data gathered by Saracen Minerals N.L. has already been lodged with the Department, in the six-monthly report, as required under the conditions of issue of the Authority to Prospect.

The locations of all rock-chip samples, as A.M.G. co-ordinates were provided in the final report. As many of these samples were reconnaissance samples taken from the old mine workings in the area, including the dumps, plotting of individual sample localities was impractical except on detailed, large-scale prospect area maps. Such maps were prepared only if follow-up work was carried out on prospect or mine areas.

ADMIN

ACTION OFFICER(S)

Saracen Minerals N.L. has been contacted by a representative of a mining company, concerning data relating to the captioned Authorities to Prospect, and the representative was advised of the situation relating to the sample locations.

② This request was made by a consultat looking at the open file reports. I told him that we could not make Saracen provide the maps but I would write anyway. Mr Tucker (Saracen) rang & explained that the samples were reconnaissance & ~~six~~ AMG coordinates are provided in the appendices. This answered the enquiry so the provision of maps is no longer required. 1/2

Published on Resources Disclosure Log
FOI Act 2009

After telephone conversation with Mr Holmes (the officer requesting the sample-location maps) it was agreed that the provision of such maps for the entire area of the Authorities to Prospect, at a suitable scale, was not practical, and that his request would be withdrawn.

Yours faithfully,
SARACEN MINERALS N.L.

10 JAN 1990

Dear Sir,

Re: Authority to Prospect No. 4199M - Term Expires on 2nd February, 1990

I wish to inform you that the current term of the abovestated Authority to Prospect will expire on the date indicated. If a renewal of the Authority to Prospect is required then an application for renewal must be made in writing to the Director-General Department of Mines, GPO Box 194, Brisbane Qld 4001 at least thirty (30) days prior to the expiry date.

Where application for renewal is not made at least thirty (30) days prior to expiry (but made on or before the expiry date) then a shorter period may be allowed by the Honourable the Minister. If this is the case you should advise your reasons for late lodgement.

It is pointed out that there is no provision to lodge a renewal application after the expiry date.

The application for renewal should be signed by all current holders, **be accompanied by rental at the rate of $73.00 per sub-block for the ensuring year** and should provide the following:-

(a) sub-blocks to be relinquished;

(b) summary of exploration and actual expenditure for the year of tenure; and

(c) proposed programme and budget for the renewal term sought.

If application for renewal in accordance with the above has already been forwarded and acknowledged by this Department, this letter should be disregarded.

This advice is to assist holders and is not intended to negate the holder's obligations to comply with the renewal provisions of the Mining Act 1968-1986.

Yours faithfully,

Dear Sir,

Re: Authorities to Prospect 4199M and 4200M

Saracen Minerals N.L. will not seek to renew the captioned Authorities to Prospect, which terminate on 2 February 1990.

A/ Approval is sought to provide a single report, covering work done in the six months 3 August 1989 to 2 February 1990, combined with a summary relinquishment report, outlining all work done on the Authorities since grant.

It is expected that this combined report would be submitted to the Department by 2 May 1990.

Thank you for your assistance in this matter.

Yours faithfully,
SARACEN MINERALS N.L.
