Date: 11-Feb-2020

Details: sch4p4(6) Persphoned to say he has a survey plan for 187 SP219978 and is ready to lodge it, does he lodge or does the surveyor, is there other paper work? I said it requires an application with us. He asked how long it would take, I said it depends on whether this has been envisaged under the land management plan and the community has commented on it. Also our priority criteria dictates how long before it is allocated so they will need to state that in their application.

Subject : RE: Whitsunday Sailing Club leasehold boundary Realignment
Attachment : image001.png;

Hi sch4p4(

Sorry for the delay in responding.

Council does have current applications with the department however these concern adjoining Lot 187 on SP219978 being a reserve for recreation purposes under the trusteeship of Council. I have discussed with the case officer looking after these applications (Megan Warrenner) and she advised me that there was discussion around potentially dealing with the shelter shed which WSC's leases to Council, however this does not form part of those applications and therefore WSC's boundary will not be affected. I would encourage you to speak to Megan if you wish to discuss further.

Regards

Rayden Smith

Subject: Whitsunday Sailing Club leasehold boundary Realignment

Hi Rayden

Unsure if you are the person to chat to but are you aware of the Whitsunday Regional Councils current application with DNRME to realign this boundary and extend WSC leasehold area?
