The time that I first noticed it was at 4:30am and it is still present when sending this email at 7:50am. I am unsure where it is coming from but it's really pungent. It's a very strong smell and very thick and has been reoccurring each morning from at 4:30-9:00am. I'm very concerned about it as</p> <p>[personal information]</p> <p>sch 4 - personal information</p>	5/09/2018

9/09/2018	Redbank Plains	odour	Not sure where it is coming from. Experiencing this for last few years, normally in the mornings around 7-8 AM. 10 days (or 2 weeks) ago, there was a completely different chemical smell spread all over this area which worried us of a chemical leak from somewhere. Never ever felt like Hydrogen Sulphide smell. Sometimes I felt it is close to natural gas smell.	10/09/2018
