GUIDE FOR APPLICANTS

Question 1.1

Specify company name or surname of applicant.

Question 1.2

Specify given name(s) of applicant.

Question 1.3

If a company, what is the Australian Company Number (ACN)?

Question 1.4

Specify the percentage of interest to be held by each applicant.

GUIDE FOR APPLICANTS

Question 1.5

The total interest must equal 100%. If you are entering these details online, right click the '0' and select 'Update Field'.

Question 1.6

One person must be shown as the nominated applicant, upon whom any notice may be served on behalf of the applicant(s).

Question 1.7

Specify the address of the nominated applicant.

Question 1.8

Specify the phone number of the nominated applicant.

Question 1.9

Specify the fax number of the nominated applicant.

Question 1.10

Specify the email address of the nominated applicant.

Question 2.1

A mining lease can be applied for if the applicant (or one of the applicants) is the holder of a current pre-requisite tenure. Tick the pre-requisite tenure is a prospecting permit and provide the number and expiry date of the permit.

Question 2.2

Tick if the pre-requisite tenure is an exploration permit for mineral or coal and provide the number and expiry date of the permit.

Question 2.3

Tick if the pre-requisite tenure is a mineral development licence and provide the number and expiry date of the licence.

Question 2.4

Tick if the pre-requisite tenure is a mining claim (being conditionally surrendered) and provide the number and expiry date of the claim.

Question 2.5

Tick if the pre-requisite tenure is a mining lease (being conditionally surrendered) and provide the number and expiry date of the lease.

Question 2.6

Identify whether the land is situated within an exploration permit, geothermal exploration permit or mineral development licence (either granted or an application) that is not held by you. If so, you must obtain the earlier applicant's or holders written views on your application and lodge those views with the Mining Registrar. (Refer to sections 248 and 249 of the Mineral Resources Act 1989).

3.3	21 years
-----	----------

GUIDE FOR APPLICANTS

Question 2.7 to 2.9

If yes, provide number and expiry date of relevant tenure not held by you.

Question 3

Before you apply for a mining lease you must mark out the boundary of the land, even if the surface of the land is not going to be included in your application. For the manner of marking out the land, refer to section 241 of the Mineral Resources Act 1989.

Once marked out you have five business days in which to lodge your application.

Question 3.3

There is no restriction on the term of mining lease. However, when you apply for a lease you must justify the term you are seeking. A mining lease cannot be for a term longer than the period for which compensation has been agreed or decided. For example, if you agree to compensation for a five-year period, then the lease cannot exceed five years.

Question 3.4

Provide detailed reasons for the length of term sought.

Question 3.5 & 3.6

State the area of land being applied for. There are no restrictions on the area and shape of the land, which can be granted under a mining lease (other than those imposed under certain Restricted Areas). However, you must justify the area and shape when you make your application.

Question 3.7

State the general locality of the application, e.g. 15km SE of Mount Isa.

Question 3.8

Insert the name of the Mining Lease.

Question 3.9

Insert the details of the Local Government. This refers to either the City or Shire Council responsible for the local government area(s) in which the land is situated.

Question 3.10

Specify which minerals are sought and/or the purpose for the mining lease. Do not use symbols. Do not include minerals that are not specified in the pre-requisite tenure.

NOTE: Coal mining leases are subject to additional provisions imposed under Part 7AA of the Mineral Resources Act 1989.

☐

YES

☐

NO

GUIDE FOR APPLICANTS

Question 3.11

Mining leases may be granted for purposes other than mining of minerals (i.e. for the purposes of carrying out activities associated with mining such as plant site, camp or tailings dam).

Question 4

Compliance with the native title provisions of the *Commonwealth Native Title Act 1993* is not necessary on land where native title is taken to have been extinguished (i.e. "exclusive" land tenures).

However, if you wish to include in your application land that may be subject to Native Title (i.e. "non-exclusive" land tenures), you must comply with the relevant Native Title procedure irrespective as to whether or not a native title claim has been lodged over the area).

Question 4.3

Applying for a mining lease within an approved opal or gem mining area may limit the size, number and type of lease that you wish to make. Please note the relevant restrictions in the area before making your application.

Question 5

The *Mineral Resources Act 1989* prescribes certain types of land as "restricted land". This land is only available if the owner of the land where the relevant permanent building, or feature is situated, consents in writing to your application. If consents are not lodged, such areas will automatically be excluded from the surface area of your mining lease.

Restricted Land (category A)
Means land within 100m laterally of a permanent building used -
(a) mainly as accommodation or for business purposes; or
(b) for community, sporting or recreational purposes or as a place of worship.

Restricted Land (category B)
Means land within 50m laterally of any of the following features-
(a) a principal stockyard;
(b) a bore or artesian well;
(c) a dam;
(d) another artificial water storage connected to a water supply; or
(e) a cemetery or burial place.

Question 5.2

Specify the improvements to the land which is being applied in the mining lease. The types of improvements and prescribed distances are defined in the *Mineral Resources Act 1989*.

Is the land within an approved opal or gem mining area?

4.3	☐ YES	☒ NO
-----	------------------------------	--

5. RESTRICTED LAND

Are there any permanent buildings or relevant features within the boundaries of the land applied for or within the prescribed distances laterally of the boundaries?

5.1	☐ YES (go to Q 5.2)	☒ NO (go to Q 6.1)
-----	--	--

What are those permanent buildings or relevant fixtures?

5.2	
-----	--

Do you have the written consent of the owner(s) of the Land containing those permanent buildings or relevant fixtures to the land being applied for in the mining lease?

5.3	☐ YES	☐ NO
-----	------------------------------	-----------------------------

6. RESERVE LAND

Is the application over land that is a reserve?

6.1	☐ YES (go to Q 6.2)	☒ NO (go to Q 7.1)
-----	--	--

Do you have written consent of the owner(s) of the reserve?

6.2	☐ YES (go to Q 7.1)	☐ NO (go to Q 6.4)
-----	--	---

If NO, what action has been taken to obtain such written consent?

6.3

--------------	----------------------------------

Owner's Address	7.6 Sch 4 - Personal information
-----------------	----------------------------------

GUIDE FOR APPLICANTS

Question 6.1

Indicate whether the mining lease is over land that is a reserve as defined in the *Mineral Resources Act 1989*.

Question 6.2

If you are unable to obtain the written views of the owner of the reserve despite efforts to do so, the Land and Resources Tribunal has the power to make a recommendation to the Minister as to whether the Governor in Council should consent to the grant of the mining lease over the surface of the reserve subject of certain conditions.

Question 6.3

Specify what attempts have been made to obtain consent.

Question 7

Please provide a description of all parcels of land, including easements, the whole or part of which are covered by your application. It is necessary to provide the landowner's name and address for each parcel of land. You can obtain this information from an DME service centre.

You are also required to provide details of which parcels of land are within the boundaries of the surface area being applied for.

Questions 7.1 & 7.2

Insert Lot Number and Registered Plan Number of land on plan registered in Titles Office.

Question 7.3

Insert Land Tenure Type, e.g. freehold, special lease, pastoral holding etc.

Question 7.4

What is the land currently used for?

Questions 7.5 & 7.6

Enter the Name and Address of the owner of the land.

Question 8.1

A mining lease cannot be granted unless compensation has been agreed to by the miner and the relevant owner of the land or determined by the Land and Resources Tribunal. Access land is also subject to the compensation requirements of the Act.

Any compensation agreement must be signed by all parties, stamped by the Office of State Revenue and filed with the Mining Registrar.

8. COMPENSATION AGREEMENT DETAILS

Is a compensation agreement required?

8.1	☒ YES (go to Q 9.1)	☐ NO (go to Q 8.2)
-----	---	---

Why is a compensation agreement not required?

8.2	
-----	--

GUIDE FOR APPLICANTS

Question 8.2

Compensation is not required if the background land tenure is "Unallocated State Land" or is owned by the applicant. If the applicant is the owner, proof of ownership is required to be lodged with the application.

Question 8.1

Fully describe the reference/start point of the land so that it can be accurately located. Either by a survey mark or other fixed and well defined point.

Question 8.2

Indicate which corner the datum post is located, e.g. NW corner.

Question 8.3

Enter description of the reference point. In describing the reference point, all bearings are to be magnetic. If there is insufficient space, please attach a list.

Question 8.4

Enter the compass bearing taken along the centreline of the reference/term point.

Question 8.5

Enter the distance, in metres, from the reference/start point on the compass bearing.

Question 8.6

The posts used to mark out the mining lease must have the applicant's initials along with the date of marking out.

Indicate the initials and date marked on each post (Refer to section 241 of the Mineral Resources Act 1989).

Question 10

You must describe the boundaries of the mining lease by accurately measured distances and compass bearings. All bearings are to be magnetic and clockwise and the description should indicate any abutments, for example, a bearing of 90° 00' for a distance of 100 metres to and abutting the western boundary of ML 70045.

You must also include a sketch map, or other graphic representation acceptable to the Mining Registrar setting out the boundaries of the land being applied for and the land required as access. This map should also show any mining claims, mineral development licences, or mining leases (or applications for the grant of one of these) within the boundaries of the land being applied for.

9. LOCATION DESCRIPTION

Describe the location of the Reference/Start Point of the land applied for (preferably a GPS point). *See attached survey coordinates*

Question 10.4

Enter description, e.g. North West Corner... etc.

Questions 11.1 & 11.2

If there is existing mining tenure (or application for grant of mining tenure) wholly within this application, you are required to complete Question 11.2.

Questions 11.3 to 11.6

If there is a mining claim, mineral development licence or mining lease or an application for one of these tenements already within the area you are applying for, then the datum post or commencement post of the mining claim, mineral development licence or mining lease (or applications) must be related to the commencement point of your mining lease application by accurately measured distances and compass bearings.

The Mining Registrar may accept alternative methods instead of measured distances and bearings where these are more accurate.

All bearings are to be magnetic and the description should indicate any abutals. For example, "at a bearing of 90° 00' for a distance of 100 metres to the..."

Question 11.7 to 11.10

All bearings are to be magnetic and clockwise and the description should indicate any abutals, for example, "at a bearing of 90° 00' for a distance of 100 metres to the western boundary of ML 70045".

Please attach separate list if insufficient space.

Questions 12.1 to 12.3

It is not necessary to mark out the boundary of the surface area if part only of the surface is going to be included in your application. However, the boundary of the surface area must be described by measuring the distance on the ground and by taking compass bearings. The description must be related to a boundary post by accurately measured distances and compass bearings.

Questions 12.4 to 12.7

All bearings are to be magnetic.

Please attach separate list if insufficient space.

PRIVACY STATEMENT

The Queensland Government introduced Information Standard 42 - Information Privacy to establish a framework for the responsible collection and handling of personal information in the Queensland government public sector.

The Department of Mines and Energy is collecting the information on this form to process your application for a mining lease. This is required by section 245 of the Mineral Resources Act 1989 (the Act).

The Department is required to facilitate and regulate the carrying out of responsible mining activities and the development of a safe, efficient and viable mining industry in Queensland under the Act.

The Department maintains a Register under section 387 of the Act. This register contains information collected from a variety of sources, including application forms submitted under the Act. The particulars to be recorded in the register are prescribed in Part 11 of the Mineral Resources Regulation 2003 (the Regulations).

Under section 88 of the Regulations, the public can inspect the Register between the hours of 9.30 am and 4.30 pm on business days, and anyone may take extracts from the register and acquire, upon payment of the prescribed fee, a copy of all or part of a notice, document or information held in the register. Information contained in the register includes (but is not limited to):

- the mining tenement number;
- the full name of the holder/s of the mining tenement;
- the annual rent for the mining tenement; and
- any permitted dealings relating to the mining tenement that are approved by the Minister.

Information collected on this form, whether or not it is contained in the Register, may be provided to other Queensland Government Agencies, where such disclosure is necessary for the effective management of the mineral resources and industry in Queensland. These agencies may include the Environmental Protection Agency and the Department of Primary Industries and Fisheries.

Where information provided is commercial in confidence, it will be treated as confidential and not included in the Register or be disclosed outside the agency unless the Department is legally required to do so.

For more information on Information Privacy, please contact the Privacy Contact Officer for the Department of Mines and Energy on (07) 3247 3239.

MELODY LIMESTONE PROJECT

MINING PROGRAM

1. METHOD OF OPERATION

- Mining will be by ch4p4(7)(1)(c) Business/commercial/professional/financial affairs (see Attachment 4.1) positioned along the length of the limestone deposit from North to South
- Due to the outcropping nature of the limestone no vegetation, top soil or nor overburden exists negating clearing, pre-stripping and stockpiling
- All pits will not encroach upon nearby Wallace Creek
- A single access track will connect the pits
- Mining will commence at the end of the wet season in the year the mining lease is granted
- No chemicals will be used in the operation
- No waste products will be produced
- Safety windrows will be established around pits and along haul roads
- Dust around the plant and on the haul roads will be suppressed with a water truck
- Mining equipment will consist of :
 - air-track drill rigs
 - 30 tonne excavator
 - D9 Caterpillar dozer
 - 2 x 769 Caterpillar dump trucks
 - water truck
 - fuel truck
 - grader for road maintenance
 - explosive truck
 - 2 x 4WD vehicle

2. INFRASTRUCTURE

- Limestone will be hauled to ch4p4(7)(1)(c) Business/commercial/professional/financial affairs tonnes per day crushing and screening plant on the mining lease where different sized limestone products will be stockpiled for subsequent haulage via the access track to domestic agricultural markets
- Workshops, offices, kitchens, ablution facilities, storage sheds, sample laboratory and explosive magazines will be established to support the operation
- A 650 kva generator will provide all power to the site
- Fuel sufficient for one weeks normal operation will be stored in over head fuel facilities

An application for environmental authority (EA) is needed when applying for a new mining tenement.

Applicants must obtain and familiarise themselves with the Code of Environmental Compliance for Mining Lease Projects ("the Code").

Please be aware of requirements of the *Environmental Protection Act 1994* (EP Act) and Regulation, including Application process, financial assurance, notifiable activities, environmental management register, contaminated land, final rehabilitation & surrender. Please label any attachments alphabetically (eg. "Attachment A").

Information about environmental regulation of mining can be found on the Environmental Protection Agency (EPA) web site at <http://www.epa.qld.gov.au/>

Lodge the completed form, together with the application for mining lease, at the office of the local Mining Registrar.

Guide for applicants - Question 1:
Each applicant for, and/or holder of a relevant mining tenement for the mining project, are to be the (only) applicants for environmental authority (EA).

Where there are several applicants, information shall be taken from the mining tenement application. The EA will be issued to all applicants.

Joint applicants may appoint one of them as a principal applicant (for submitting and receiving notices etc) by attaching a signed notice from all joint applicants.

Question 4

Acid generation

Factors contributing to acid generation include disturbing and exposing to air, iron sulphide soils, particularly in riverine and floodplain areas.

Environmentally sensitive areas

The Code identifies Category A, B & C environmentally sensitive areas and the relevant administering authority for each. (a free map service that details these areas is available on the EPA website)

www.epa.qld.gov.au/ecoaccess/mining

4. Additional information about the mining project (tick each box when the information has been collated and attached)

☐	Provide labelled sketch plans (scale & dated), identifying: (A) boundaries and surface area boundaries for all current and proposed mining tenements; (B) cadastral info; (C) topographic features (eg. creek) and identify any waterways / watercourses proposed to be mined or impacted (detail the nature and extent of those impacts); (D) any other place/aspect potentially of interest to the administering authority or stakeholders (eg. places of historic significance, cultural heritage, environmental sensitivity); (E) location of actual & proposed infrastructure (eg. open cut, dams, tracks, wastes); and (F) location of voids proposed to remain open at project completion (provide dimensions, and for hard rock projects provide likely, short and long term, water quality).
☐	Identify, and provide contact details for, affected (including adjacent) landowners/holders, and any other stakeholders and/or interested/affected others. (You may simply refer to information contained on your mining lease application if already provided).
☐	Where processing of ore is proposed to occur on site, provide details including: process, storage & disposal methods; and approx. volumes of ore, chemicals and waste products.
☐	Where acid generation is likely to be associated with the excavation, describe the extent, potential impacts and proposed management strategies/solutions.
☐	Identify any Category C environmentally sensitive areas within or adjacent to the project area, and advise of the status & outcomes of consultation undertaken with the relevant authority

5. I/We (the applicant/s) certify that I/we are able to comply with the standard environmental conditions of the Code.

☒ Yes

☐ No

Question 6

¹The administering authority will not agree to impose an additional condition that would result in the mining activity no longer being carried out with a low risk of serious environmental harm.

An additional condition may be imposed even if the applicant does not request it.

6. I/We (the applicant/s) certify that I/we cannot comply with the standard environmental conditions of the Code and wish to apply for a Level 2 non-code compliant environmental authority.

☐ Yes - (proposed additional conditions are attached).

☐ No

Question 7 - Prescribed criteria

²The prescribed criteria are listed in the Code and are set out in Schedule 1A of the Environmental Protection Regulation 1998 (EP Reg).

7. I/We (the applicant/s) certify that the proposed mining activities (tick relevant option):

☒ meet the prescribed criteria ² for a code compliant environmental authority (mining lease) for a level 2 mining project.

☐ do not meet the prescribed criteria ¹ for a level 2 mining project.

- Do not complete this form. You must apply for a non-code compliant Level 1 mining project

Question 8 & Certification

³ This statement also applies to anyone who is involved in the management of an applicant company, and relates to their current position and any other management positions they may have held in other companies. Suitability inquiries may be made;

⁴ Corresponding law means a law of the Commonwealth or another State that provides for the same or similar matters as the Environmental Protection Act 1994.

⁵ It is an offence, under the EP Act, to give the administering authority information that is false, misleading or incomplete in any material particular. The maximum penalty for such action is 165 penalty units for an individual, or 825 penalty units where the applicant is a corporation (section 181B(3) of the Penalties and Sentences Act 1992). The current penalty unit value is \$75.00

Where there is more than one applicant, this certification may be signed by the applicant authorised (in writing by all other applicants) to sign on behalf of and to commit in all matters relevant to this application. Where the applicant/principal applicant is a company, this form is to be signed by a person authorised (in writing) to sign for that company. Information supplied on or with this application form may be made available upon request, subject to the provisions of the Freedom of Information Act 1992.

8. I/We (the applicant/s) certify that (tick to certify):

- ☒ I/we am/are the applicant/s and/or holder/s for all relevant mining tenements.
- ☒ I/we am/are suitable applicant/s³ for environmental authority, and have not been convicted (pleaded or found guilty) of an offence against, nor held an environmental authority that has been cancelled or suspended under, the EP Act or a corresponding law⁴ in Queensland or another jurisdiction.
- ☒ The application is accurate, complete and not misleading⁵.
