**Subject:** RE: Archookoora SF DoE lease transfer/surrender

Hi Di,

Occupation Permits (OP) are granted in State forest areas under section 35(1)(a) of the *Forestry Act 1959* to access and occupy State forest. However, following review of the information in the summary report, I'm not sure the Statewide Authorities team can recommend this option as the preferred mechanism to approve the proposal in Archookoora State forest.

Although OPs can be used to authorise infrastructure including community or education centres on forest areas, the commercial element of the proposal may not align with QPWS&P Occupation Permit Operational Policy (**attached**) which states that OPs can only be granted for activities: "*where there is a demonstrated need for the activity to occur on forest area, such as there being some benefit to the State and/or the general public from the activity, where there is no alternative location for the use outside of the forest area*".

Therefore, Statewide Authorities or the relevant QWPS regional office would need to undertake a thorough assessment of the proposal before determining whether an OP could be used to authorise the proposed activities. We'd need to assess the public interest/ public benefits of the installation and whether no reasonable practicable alternative location for the proposal exists (as the facility is already located on this site, why this site was selected).

Additionally, under the policy:

- OPs cannot be granted for activities that can be authorised by another mechanism under other legislation,
- for infrastructure/ activities of a commercial nature, an OP could be granted for a term of up to 10 years, and
- annual fees apply to OPs, and it should also be noted that local government rates will be applied, as OPs are rateable under section 93 the *Local Government Act 2009*.

I hope this information is helpful. Please contact me if you have any questions.

I've included this information in an email rather than directly into the Ecotourism project template/ summary report, as I wasn't sure how much detail to include in the template document.

Morning Lisa et al – many thanks for your advice below regarding Occupation Permits (OP) for State Forests, the detail you provided is really helpful.
To ensure the Archookoora SF Summary report captures all advice from SW Region, and PMU, I'd really appreciate if you could add a summary of the advice below in the report and progress back to myself and cc Kamilla and the project team.
Hope that's ok, no rush as I'm out-of-office till next Tuesday.

*Kind regards,*

**Subject : FW: Archookoora - Surrender of Lease New proposal - Lot 251 on FY2595**
**Attachment : Archookoora Campsite Proposal 2021.pdf;image001.png;image003.jpg;image004.jpg;image005.jpg;image008.png;image002.jpg;image009.jpg;image010.png;image014.png;image015.png;**

Hi Anne Maree.

You may remember this matter from 2018.

The lease is for Education purposes (namely for the purpose of field studies). The lessee is the Department of Education which is looking to transfer the lease to the proponents of the attached proposal.

The email below was forwarded to me and to DES reps as well (Justin Shiels and Stuart Henry).

The lease is over part of Archookoora State Forest (Lot 117 on FTY788).

The category of the lease is for business purposes with a rental valuation of $38500.00; however, when the lease was renewed in 2008, a set rent of $75.00 was assigned. Education now pays a yearly rent of $272.00 + GST

The attached proposal outlines proposed commercial, as well as community, activities.

If the transfer is allowed, the current condition of the lease (field studies) would need to be amended and a more suitable commercial condition added, and a more suitable rent charged.

I realise that the purpose of “Education” cannot be changed. Would the purpose still be valid for the proposed activities (as outlined in the attached); including (among many others)?

- Conference venue
- Retreat venue
- Commercial kitchen hire
- Health retreats

The last page states:

Our proposed business model is one that has the private sector paying premium prices to enable local community to access facilities at a minimal cost or no cost.

Cheers

**Subject:** RE: Archookoora - Surrender of Lease New proposal

Good afternoon everyone,

As you may be aware, some years ago Kingaroy SHS proposed to surrender the lease of the Archookoora campsite. The school have been in negotiations during this time with various groups and an organisation has come forward and submitted the attached proposal. If this would be an acceptable use of the campsite and the current lease arrangements, could you please advise if this proposal could be considered for a transfer of the lease.

Thank you for your time and apologies if this issue is no longer relevant to your portfolio's.

Kind regards

Phil

**Subject:** RE: Archookoora - Surrender of Lease

Hi Mark/Justin.

My colleague has had a look at the old file and provided the following information (along with the attachment).

*The file starts in May 1977, when the department of Works applied to lease the original Archookoora Forestry Barracks for an environmental Study Centre.*
*Public works negotiated to purchase the buildings from the Forestry Department.*
*The negotiated price was $1300.00 for full payment of the two barracks, the garage and the store to the Kingaroy State High School P & C Association.*

*Forestry may have further information about when the buildings where constructed prior to 1977.*

The native title assessment (from when the lease was renewed in 2008) states that the current forestry barracks were constructed by the Forestry Department in 1963.

Hopefully this information will suit your needs.

Regards,

John

Hi Justin/Mark.

I have requested Gympie office to see if they can locate the old lease file for SL42091 issued in 1978. I will get them to forward to me so I can search for details re the buildings.

In the interim, I have attached a copy of the lease image for SL42091, containing the conditions it was subject to. On reading this, it indicates some structures were present on the land. It also gave permission (upon approval) for the lessee to construct/maintain buildings.

I will let you know once I received and searched the file.

**Cc:** HENRY Stuart <Stuart.Henry@des.qld.gov.au>
**Subject:** RE: Archookoora - Surrender of Lease

Hi Mark/John,

Apologies for the delay in responding, in general we were considering a number of options for the infrastructure on the lease. It has been determined that the infrastructure presents a large financial burden on QPWS should it remain upon surrender.

And it is also understood that this was previously the site of the Archookoora Forestry Station, with a number of buildings possibly being present at the time the lease commenced.

QPWS do not object to the Department of Education surrendering this lease, however in effort to reduce the financial burden QPWS requests that all improvements made by the lessee during the lease term/s be removed upon surrender.

The lease documents I have available do not indicate what infrastructure was present at the time this lease commenced in 1978. Is there any record of what infrastructure was present at the time of commencement either DoE or DNRME lease records? If not I encourage an on-site meeting to discuss and mutually determine what is to be removed.

Please let me know if you have any further queries or wish to arrange an on-site meeting to discuss the removal of infrastructure.

Cheers

**Subject:** FW: Archookoora - Surrender of Lease

Good morning Mark.

Desley passed your enquiry onto me (the Bundaberg office deals with Land Act matters within South Burnett Regional Council).

As the lease is over part of a State forest (and improvements/buildings exist on the lease area) I have requested comment from Stuart Henry, Senior Ranger Forest Management, Queensland Parks and Wildlife Service.

You may wish to liaise with Stuart directly to ascertain his department's requirements (if any). Stuart has advised me he will require about 2 weeks to provide a response.

Regards,

John

**Subject:** Archookoora - Surrender of Lease

Hi Desley,

Please refer to the attached information re: the DNRM term (special) lease to DoE issued over Lot 251 on FY2595. The school has now advised that the term lease is no longer required and, as such, the department now formally wishes to surrender the lease.

Please note the department's delegate has in-principle approved the surrender of lease.

Can you please advise next steps to achieve this surrender?

If you have any questions in relation to this matter please don't hesitate to contact either myself on T 303 46021 or Philip Rummenie, Infrastructure Advisor, Toowoomba Regional Office on sch4p4( 6) Persc

Steve,

Travel approval requested for travel to the Interagency Forest Operations Group meeting at Kingaroy Tuesday 11- Thursday 13 May. Amanda has advised that accommodation in Kingaroy is rapidly filling up (as happens when there is a mine/power station maintenance shutdown) so if you're wishing to attend you'd be well advised to seek some out yourself pretty quickly. If you came along we could look at dropping past Archookoora SF (and the Education facility there) for a look on the way back – it is about a 15 minute detour each way off the main drag.

**Destination:** Kingaroy
**Purpose:** Interagency Forestry Operations Group Meeting 11-13 May
**Employee:** Stuart Henry
**Date:** 11-13 May 2021
**Depart:** 11 May 2021 8am
**Arrive:** 13 May 2021 4pm
**Accommodation Type:** Motel in Kingaroy
**Flights:** N/A
**Bus Fare:** N/A
**Approximate Cost:** $460 each officer D-BD-B + incidentals, 2 nights motel accommodation in Kingaroy (lunches usually provided at IFOG meetings).
**Cost Centre:** 1002234

Cheers
Stu

Morning Lisa et al – many thanks for your advice below regarding Occupation Permits (OP) for State Forests, the detail you provided is really helpful.
To ensure the Archookoora SF Summary report captures all advice from SW Region, and PMU, I'd really appreciate if you could add a summary of the advice below in the report and progress back to myself and cc Kamilla and the project team.
Hope that's ok, no rush as I'm out-of-office till next Tuesday.

*Kind regards,*

**Subject:** RE: Archookoora SF DoE lease transfer/surrender

Hi Di,

Occupation Permits (OP) are granted in State forest areas under section 35(1)(a) of the *Forestry Act 1959* to access and occupy State forest. However, following review of the information in the summary report, I'm not sure the Statewide Authorities team can recommend this option as the preferred mechanism to approve the proposal in Archookoora State forest.

Although OPs can be used to authorise infrastructure including community or education centres on forest areas, the commercial element of the proposal may not align with QPWS&P Occupation Permit Operational Policy (**attached**) which states that OPs can only be granted for activities: "*where there is a demonstrated need for the activity to occur on forest area, such as there being some benefit to the State and/or the general public from the activity, where there is no alternative location for the use outside of the forest area*".

Therefore, Statewide Authorities or the relevant QWPS regional office would need to undertake a thorough assessment of the proposal before determining whether an OP could be used to authorise the proposed activities. We'd need to assess the public interest/ public benefits of the installation and whether no reasonable practicable alternative location for the proposal exists (as the facility is already located on this site, why this site was selected).

Additionally, under the policy:

- OPs cannot be granted for activities that can be authorised by another mechanism under other legislation,
- for infrastructure/ activities of a commercial nature, an OP could be granted for a term of up to 10 years, and
- annual fees apply to OPs, and it should also be noted that local government rates will be applied, as OPs are rateable under section 93 the *Local Government Act 2009*.

I hope this information is helpful. Please contact me if you have any questions.

I've included this information in an email rather than directly into the Ecotourism project template/ summary report, as I wasn't sure how much detail to include in the template document.
