Carlo Sand Blow:
Landing Sites

Landing - primarily occurs on Carlo Sand Blow.

Carlo Sand Blow:

Landing - dependant on tides and beach conditions occurs on the beach.

Carlo Sand Blow:

Landing - occurs on a strip of vegetation adjacent to the vehicle access ramp on to the beach

Carlo Sand Blow:

Vehicle access ramp on to the beach

Signage: *A sign pertinent to hang gliders is situated several metres from the Rainbow Beach life savers tower, bathing zone and vehicle access ramp on to the beach.*

Carlo Sand Blow: The car park is located on council land on Cooloola Drive, Rainbow Beach.

Carlo Sand Blow: The car park is unsealed and lack of relevant drainage is resulting in erosion. Planning for redevelopment of the car park has commenced to provide defined car parking a bitumen surface, fencing and relevant drainage to minimise erosion.
