FYI - 5 horses removed today.

Total of 44 horses now removed from the park.

Ops are now finished for this year.

We will run a debrief and look at options into the future with this program as horses are becoming harder to find and trap. A good sign of success.

Morning – just an FYI that it is likely that we will be trapping and removing horses at Bowling Green Bay this week. All yards are ready to go and they are looking at two groups of horses at present.

After this effort, I have asked them to run a debrief on the program to date and get some recommendations for next steps.
