Thanks Gordon

Our guys attended the site a number of months ago I believe and the only waste being stored there at the time was baled paper. I would be keen to understand if there are alternative waste streams being stored there. I understand our incident response guys are being prepared to attend.

Thanks again for the notification.

Cheers

Hey Tim – Should this be forwarded to Pollution Hotline so they can create a CASE? Given we are bowing out of TT's related to normal compliance of sites in 2021?
