Department of Environment and Resource Management

Notice of decision - permit[1] application

This notice is issued by the Department of Environment and Resource Management (DERM) to advise of a statutory decision on a permit application.

sch4p4(6) Personal information

PO Box 1028
INNISFAIL QLD 4860

Our reference: 201168

Dear

Re: Decision made in relation to your application

Your application received on 19-JUN-2012 has been assessed and the decision in regard to your application is specified below:

Permit applied for	Permit Number	Decision
Damage Mitigation Permit under Nature Conservation (Administration) Regulation 2006	WIMP11409612	Granted

For the permit applied for that has been granted, the conditions of approval are attached. Where applicable, a Statement of Reasons is provided in relation to the decision. Please note that for the approval, this Notice of Decision and the relevant attachments constitute the permit documentation. Please retain this approval documentation for your records.

Included with this notice is advice on review and appeal processes that may be available to you. Should you seek a review or appeal, you are advised to seek independent advice before taking such action.

If you require more information, please contact Jean Horton on the telephone number listed below.

Yours sincerely

Daniel Mead

Common Name	*Scientific Name*	*Category*	*Quantity*
agile wallaby	Macropus agilis	Live	300 Animal/s

RTI DL Release

Conditions of Approval

Agency Interest: General

PG1 1. Neighbours, Police and the relevant Local Authority should be notified prior to commencement of lethal take operations;
2. Taking can occur only within the boundaries of the land holders property;
3. Carcasses to be disposed of in an appropriate manner.

PG2 Important notes:
A Return of operations (culling and dispersal), in addition to a report on wallaby proof fencing effective ness (if constructed), must be sent to DEHP within 10 business days after each 3 month period, and you must keep a copy for your records. If the Return of operations on the approved form is not submitted a penalty may be given. The approved form should be downloaded via the following DEHP website link:
http://www.ehp.qld.gov.au/licences-permits/plants-animals/return_of_operations.html

Agency Interest: Biodiversity

PB1 1. Within the period of this permit, the permit holder should demonstrate research into wallaby proof fencing along the first section of the western boundary fence and continue with other non-lethal mitigation measures. This may include but is not limited to discussions with not-for-profit natural resource management companies.

If fencing is implemented a report must be provided with the return of operations noting the effectiveness of the fence excluding or minimising access by wallabies. The report should also demonstrate how the use of the fence and other non-lethal methods (combined with lethal take) has reduced damage by the wildlife.

Future permit applications may not be considered unless the landholder has demonstrated a commitment to using non-lethal techniques. Again, this should include demonstrated research or

practical application into wallaby proof fencing as well as efforts to combine other non-lethal mitigation measures.

PB2 Macropods
1. Macropods must be taken by centrefire rifle in a way specified in the National Code of Practice for the Humane Shooting of Kangaroos and Wallabies for Non-commercial Purposes, approved by the Natural Resource Management Ministerial Council.
