Responsible Office: ES - Reg Serv - Bne South - Bne

Description

Event On/From Date: **Event On/From Time:** **Received Time:**
Event To Date: **Event To Time:** **Ongoing:** N **Print Related Permits:**

Description
EPA officer S.Carrick received telephone call from Cameron Smeal - the site environmental manager of Gelita who reported a "major" incident.

CS stated approx 1.5 ML of effluent had discharged into the Logan River over the weekend. He was not sure of the exact cause at this stage as he had only just become aware of the incident, reason being he did not work on the weekend and was out of the office on Moday. CS said a complete incident report will be compiled as in accordance with DA conditions and sent to EPA.

SC stated it was a serious incident and EPA will need to carry out an investigation to determine what exactly happened and if there was any environmental harm caused.

Subject: Advice for dip site at Bromelton
Date: Fri, 23 Nov 2001 12:48:50 +1000
From: Louise Gilshenan <Louise.Gilshenan@env.qld.gov.au>
Organization: Environmental Protection Agency
To: "John C. Taylor" <johnc.taylor@env.qld.gov.au>

CLU File Ref: 900772.

John,
As discussed, the CLU considers that the following advice should be attached to DA you are currently reviewing for Bromelton.

- Lot 3 on CP862699 is currently listed on the Environmental Management Register (EMR) for Notifiable Activity number 22- Livestock Dip or Spray Race (as defined in Schedule 2 of the *Environmental Protection Act 1994*). Information provided to the Environmental Protection Agency (Contaminated Land Unit) indicates that this activity is no longer conducted on this site.

  As such, if this land is not currently used for any other Notifiable Activities, the owners of the site may wish to consider having contaminated land investigation and associated validation works undertaken. Dependent upon the results of this investigation, works may be sufficient to enable the Environmental Protection Agency (EPA) (Contaminated Land Unit) to issue a Suitability Statement enabling removal of the site from the EMR. These works must be conducted and submitted in accordance with the *Environmental Protection Act 1994* and the *Draft Guidelines for the Assessment and Management of Contaminated Land in Queensland* (DEH, 1998). Please contact the EPA (Contaminated Land Unit) on 3225 1827 if you require further information.

- The removal of any contaminated soil from this site requires prior approval from the Environmental Protection Agency EPA (Contaminated Land Unit) under the *Environmental Protection Act 1994*.

Regards,
Louise.

Dear Madam

Re: **Notification of Contaminated Land**

Your attention is directed to the attached notification forms advising of land which has been used for a prescribed purpose.

A map or locality plan is attached to each notification form for your convenience.

Should you require any additional information, please contact Miss Janelle Bancroft of Council's Health Department.

Yours faithfully
